BOY OF STONE FOUND FLOATING

(Continued from Page 1)

Klamath, droye the team into the water apparently believing they could ford it.

The water there is forty feet deep, and the horses and wagon were swept away. No trace was found of the man after several days of searching.

This fact gave rise to the rumor that they may have driven the team into the water with a purpose, and that they escaped unseen in order to convey the impression that they were drowned.

TOWN TOPICS

Buyer Detractor.—Court Reporter R. M. Richardson, wife and son are back from San Francisco, where they went to purchase a Detroit automobile. They drove the car back to Klamath Falls, and Richardson positively asserts that he was not arrested more than three times for reckless driving.

Go to Lakeview.—Mr. and Mrs. W. A. White came in last night from Oregon City. This morning they left for Lakeview, to visit their son, who has a homestead in that section.

New Engine.—The Fish Lumber company has added a mammoth Fairbanks-Morse engine to the power department of their Dorris mills. The Darling Hardware company of Klamath Falls furnished the engine, and had charge of the work of connecting it up.

The Auto-Horn Rag.—The latest musical hit is the Auto-Horn Rag, played on the fifty electric auto horn for sale by the Ford garage. Special prices on electric auto horns. See George Behn, agent Ford cars.

New Metal Works.—The Klamath Sheet and Metal works is the name of a new concern to enter the business field of Klamath. The proprietors, French and Pade, are well known young men of proven business ability, and will no doubt make a success of their new venture. Mr. Pade was with the W. G. McPherson Heating and Ventilating company of Portland for a couple of years, and has worked at his trade in the principal cities of the United States. The first contract of the new concern was installing the heating plant at the Miller Hill school house.

Flood of His County.—One of the city's visitors today on business bent is Frank White, who came in from his Poe Valley ranch. Mr. White says the crop outlook is the best for some time, and states that Klamath county is one of the finest climates in the world for the propagation of farm lands.

Beckley's Camping.—Mr. and Mrs. J. L. Beckley and family leave today for Fort Klamath. They will spend a few weeks camping on Wood River.

Young Esey.—The Ashland Tidings chronicles the arrival of a son at the home of Mr. and Mrs. J. S. Esey of that city, who are both well known here.

Steamer Excursion.—The steamer Winema will make another excursion trip on the Upper Lake tomorrow, stopping at Rocky Point and Harri-man Lodge. These trips are popular.

with Klamath people. The boat leaves Buena Vista landing at 8:30.

Stock is Selling.—Manager A. J. Lyle feels much encouraged at the interest local people show in the Blackburn hospital as evidenced by the purchase of stock in the concern. He is disposing of half the shares, and several big purchases have been made by prominent men.

Ashlander Here.—Edmund Dews, who resides at Ashland, is here to visit his father, Oliver Dews, and his sister, Ella Dews. Dews will remain several days.

Shoots at Doe, Pined.—Lloyd Tompston of Brownville was arrested Friday by Deputy District Game Warden Carey M. Ramsby at Silver Camp, when he was caught red-handed shooting at a female deer. He pled guilty before Justice of the Peace Hensig at Fort Klamath, and paid a fine of \$25.

SAYS POWERS WILL START WAR

republic are to be portioned out among the nations of Europe. England will get the lion's share. Lastly there is China. The republic does not seem to have solved the oriental riddle, and Europe is laying its plans to have a good hold on the situation when the break-up arrives.

"Does it not occur to you as peculiar that although not a single one of the great powers of Europe has recognized the Chinese Republic, they have made to that republic large loans? Why? The answer is extremely simple: If China breaks up they don't want any stumbling blocks in their way, such as a recognition of the present government might create, they want to be sure of collecting their money, and China herself is security for the loans. Diplomatic history to my knowledge has never recorded a similar situation. The United States is the only world power not directly interested in China. The United States withdrew from participation in the loan, and alone of all the world powers, the United States has recognized China as a republic."

"Where is the race for armament to end?" Flourens was asked.

"Just where it is, in my opinion," he said. "The tax-payers are tired of the game and they won't let things go much further. Europe has about gone the limit. The Powers have demanded bigger armies and more money, and the people have met the demands, of late, it must be said, with great reluctance. This is proof that the limit has been reached. The next move belongs to Europe: She must justify her demands; prove her war taxes justified, that the sacrifices of her citizen-soldiers were not in vain."

UNITED STATES

Has... NON-RUSTING SKIMMING SECTIONS

"The use of nickel silver in the skimming sections of the United States Cream Separator is the most important separator improvement in a decade. They are found only in United States Separators.

Nickel silver skimming sections will not rust under any condition. Neither wear nor water rust them.

Nickel silver skimming sections are easier to clean than tinned steel discs. Nickel silver is non-adhesive, milk and dirt sticking less tightly than to other metals.

Nickel silver is the strongest and most durable metal known for use in skimming sections. Long service is assured to every U. S. Separator user.

The importance of nickel silver as a time-saving and sanitary feature recommends the United States Cream Separator to every progressive farmer.
