EARLIER CLOSING
Reasonable hours of employment has been the goal toward which the laboring man has been working for many years. Through the organization of Unions and the education of the public by persistent agitation on the part of the working man there has been a rapid advancement along this line in all of the larger communities of the country.

Realizing the justness of the claims of the laborer for shorter hours and a living wage, many laws have been passed in recent years for the protection of this class by the legislatures and national law making bodies and organizations. The majority of employers have willingly acceded to the requests of their employees, and as a result have been greatly benefited through better service from satisfied and appreciative employees.

However, in all communities there have always been a few, who are willing to sacrifice the laboring man in the selfish hope of the gain of a few dollars for himself. The question of earlier closing and shorter hours for the large number of clerks in Klamath Falls is not one that affects only the individual business man and to be decided by him. Rather it is one that affects the whole city of Klamath Falls and every workman employed therein.

The greed of a few employers of labor has been the cause of the necessity of the organization of unions by the laboring class for the protection of their rights, and has been the cause of strikes and labor troubles. It seems unfortunate that all men are not broad minded enough to recognize the rights of others and be willing to act for the good of a community, instead of stubbornly opposing all progressive movements.

It is recognized in all of the most enlightened communities that from eight to ten hours a day is all that any person should be compelled to work. There is no merit in the plea that keeping a store open until eight or nine o'clock every evening, is an accommodation to the man employed in the mills and at physical labor. We do not believe that there is a laboring man in Klamath Falls who is so selfish that he would ask one of his brothers workers to continue at his labors late into the night and deprive himself of much needed rest and recreation, simply that he might have the opportunity to do his shopping at his leisure.

It is among the clerks in the stores of our cities where the health standard is the lowest, and this has been caused in the past by the long hours of service. For this reason humanity demands the protection of workingmen and women in this class of service. In most of our cities the employers have seen the justice of these demands and stores are no longer kept open until all hours of the night. It rests with the working people themselves whether Klamath Falls joins other progressive cities or not.

Gossip Rife About New York Town

BY CARLTON TEN BYOK
(Written for the United Press)

NEW YORK, July 21—Does marriage and motherhood interfere with woman's efficiency as a public school teacher? That is the question now agitating the New York board of education, and many civic bodies throughout the Greater City have taken on the problem up. The question has become such a burning issue that the other day 150 men and women, teachers, lawyers, writers and actresses, formed themselves into a league for the Civic Service of Women, which will in the fall begin an active campaign in the interest of married women teachers.

The argument started when Mrs. Katherine C. Edgell, a member of the Erasmus High School faculty, formally applied to the board of education for a year's leave of absence without pay for the purpose of bearing and rearing a child. The board, after considerable debate and deliberation, refused Mrs. Edgell's request. The newspapers and periodicals got hold of the story and gave it much space, arousing discussion throughout the city. Fuel was added to the flame when Mrs. Bridget C. Peinotto, a Bronx teacher, was suspended indefinitely for staying away from school to give birth to a baby.

Twenty married teachers attended the meeting at the Hotel Astor where the League for the Civic Service of Women was launched and the movement was endorsed by the New York Mothers' Club and Women Lawyers Club. For many years there have been married women employed in the public schools of New York, and from time to time they have dropped out on sick leave and have become mothers. The question never became a public one until Mrs. Edgell made formal application to the

board for a year's leave of absence, giving as her reason her wish to become a mother. Members of the board who opposed Mrs. Edgell's request for a motherhood vacation, defended their action by saying that they do not approve of married women as teachers. They have no objection to babies they say, but they think that matrimony lowers the efficiency of women as teachers. When they have home and husband and children, it was argued, the teachers cannot give their undivided attention to their pupils and their school duties.

As an additional argument, they point out that the home is the place for the married woman and that she has no business out in the world working when she has a husband to care for her. Also, they say, it is selfish for a married woman to hold on to a teacher's job when there are so many single and dependent women who are forced to support themselves and who would make capable school teachers.

Those who have taken up the cudgel for Mrs. Edgell and the other married teachers, say that the attitude of the board of education is inimical to society and encouraging to race suicide. They also declare that married women naturally make the best teachers, since by their fuller experience in life they are better fitted to teach young girls or boys and train them for normal, happy lives.

Tango enthusiasts are putting up a new argument for the permanence of the craze. The argument is going the rounds of the hotel ball rooms, restaurants and by-the-sea dancing pavilions. And of course it is always a charming debutante or an equally charming young matron who advances the new reason. The devotees of the tango, and especially the propri-

etors of the places where it flourishes have become vastly alarmed at the concerted attacks made on the "American negro" dances, as they are called abroad, and they are seizing every plausible argument to boost the gyrating dance.

This is the way they put the latest: "No dance can ever replace the tango, for, don't you see, it is just another name for beauty exercise! Just think of what we had to do to reduce our averdupois before the tango came along. We went through all sorts of tiresome, unattractive exercises at home alone or else in the gymnasium where we wore an ugly uncomfortable suit. But now it is all different. The tango has banished rolling and all the other tiresome and inefficient flesh cures, and gives us grace and enjoyment at the same time.

"That is why it is here to stay. It is the very best kind of exercise, and it is amusing as well. It is the very best way that has yet been discovered to reduce the hips and remove the double chin." And then the devotees will proceed to illustrate their point. "Now watch. One, two, three, turn—one, two, three, dip—that's the one. See? The entire weight is placed on the right leg. The knee is bent, while the left foot is pointed straight out in front to balance the body, with the head and trunk thrown back. Now in that one short-lived dip is there not a world of good? Does it not take the place of all those monotonous bending exercises and calisthenics teachers used to give us? And does not tossing back the head take the double chin away? No need of chin supporters or lee bandages if you dance the tango."

So, the 1915 society slogan, therefore, must be: "Reduce, dip, reverse with a quick twist and reverse again with a dip. Reduce!"

SHEEP REMAINS DULL ALL WEEK

HOGS AND BEEF STEADY TO HIGHER. A SHORTAGE OF BUTCHER CATTLE IS VERY NOTICEABLE

PORTLAND, July 21—Cattle market last week steady to strong. Improved beef outlet had bullish effect on prices. Prime steer top 8.00 to 8.25 with bulk of steer sales at 7.75 and 8.10. Eastern Oregon steers at 8.00 and cows 7.75 featured.

There has been a keen demand for choice butcher cattle especially cows and heifers. Sales were made in small quantities as the supply was comparatively short. Best cows 7.75 to 7.25, heifers 7.25 to 7.50, choice bulls 5.50 to 6.00 and choice light calves at 9.00.

The hog market was steady to higher. One load of extra fine hogs sold at 9.40 Friday morning, bulk of light swine sales 9.15 to 9.20. Sound packers have been liberal buyers on the market and the light run was quickly absorbed.

Swine prices are apparently on a heavy basis at least for the present. Sheep house business has been slow all week. Demand for both mutton and lambs has been light and the trade has shown no sign of improvement whatever over previous week's market.

A liberal top is 6c as some very good stock sold at that price. Prime killing ewes at 4.00, wethers at 4.25 and yearlings at 4.50 are extreme quotations in the mutton division.

Try For Army
WASHINGTON, July 21—Examinations are being held today all over the country to fill vacancies in the Engineering Corps of the army by civilians. There are a dozen or more vacancies in this branch of the army to be filled. Only two civilians passed the examinations last year for Second Lieutenant.

BANK CASE TO COME UP NEXT

ATTORNEYS FOR FIRST NATIONAL AND COUNTY TREASURER TO APPEAR IN THE SUPREME COURT

Attorney D. V. Kuykendall and Judge Drake leave tomorrow or Wednesday for Salem, where they will appear before the Supreme Court in the action brought by the First National Bank against County Treasurer J. W. Siemens. Kuykendall represents the bank and Drake will appear for Siemens.

The case was taken before the Supreme Court because this question is one of much importance to banks and County Treasurers throughout the state.

Supreme Justice McBride on July 2, issued an alternative writ, ordering Siemens to appear before the Court Friday and show cause.

Boots for mourning costume wear should be of dull calf, or suede. Patent leather is not used, and the Cuban heel is preferred for street wear rather than the French heel, in accordance with the rule dignified and unfrivolous effects in street mourning garb.
