

Names of the clerks in the stores and others who signed the petition asking the stores to close at six o'clock

IN this morning's Northwestern Mr. K. Sugarman asks who are the clerks that requested the stores to close. He wants to shake hands with them, but they have something to say about who they shake hands with, and below attach the names of the CLERKS IN THE STORES OF KLAMATH FALLS, and others who made this responsible request of the merchants, which would have been granted but for Sugarman. Mr. Sugarman, by his own admission, has so little trade after six o'clock that he can take care of it all by himself, without the assistance of his help, and is compelled to offer "bait" in the way of specials to induce the public to come to his store after that hour. Sugarman also well knows that if he stays open he practically compels the others to do so. It is a well known fact that in all towns of any importance stores have an early closing hour, usually six o'clock, the only ones staying open being the second hand stores, the pawn shops and the "Kike" stores.

We might also suggest that you can find the letter "S" in the word "SCAB" AND IN OTHER WORDS, as well as in the words "six" and "silence."—THE CLERKS

All are strong in expressing the fact that the coming convention will be the best ever. In every town, they say, there is much interest shown.

"The Oregon Agricultural college will have several of the faculty here for the extension work," said Bates, "and the matter of success of individual farmers in Southern and Central Oregon will also be taken up. This, it is believed, will be of benefit to all of the farmers."

"Upon my return to Portland with this party, I will leave immediately afterwards to cover practically the same territory with a party headed by President J. M. Averill of the Portland Chamber of Commerce. This organization is composed of the heads of the biggest jobbing, manufacturing and shipping interests, and their work is largely carried on with the national lawmakers, taking up such big problems as transportation, shipping, harbor and river improvements. The Portland business men are just awakening to the wonderful possibilities of Central Oregon, and the immense trade which is steadily growing larger and this trip of Averill's will do a great deal toward interesting influential men in the development of this great region."
