Cleo Helen Barker, the principal witness against George Bixby, vanished yesterday.

So far no trace has been found of the girls. Detectives have been assigned to the case.

The federal authorities believe there is a general plot to get rid of all of the implicated girls, so the conviction of the accused men of wealth will be impossible.

Subway System

United Press Service. NAPLES, Italy, July 25.—Actual work began today on the construction of a complete system of underground railways for both the business and residential sections of the city. When completed the system will solve the heretofore difficult problem of connecting up the different sections of the city without having to make long detours around the hills. Fears that such a system might be in constant danger from the occasional activities of Mount Vesuvius and earthquake shocks have been dispated by the engineers.

Man to Succeed Huerta Chosen

Francisco De La Barra, Mexican ambassador to the United States during the Diaz regime, and minister of foreign affairs while Madero was president, is talked of as temporary president if the constitutionalists overthrow Huerta. De La Barra is one of the brainiest men in Mexico, and his initiative at several times has lessened the force of the internal disturbances in his country. Should he be chosen president diplomatic circles look for a return to orderly methods in Mexico.

In case the United States names a new ambassador to Mexico, it is believed that Lamb will be chosen.

Henry Lane Wilson, American ambassador to Mexico, against whom charges have been made in connection with the overthrow of the Madero government by President Huerta, has been called to Washington by Secretary of State Bryan to explain the Mexican situation to President Wilson. This is believed to have been caused by a demand of some European power or powers that the American government take some means of ending the condition of anarchy which exists in Mexico outside of the capital city. Much doubt is expressed in Washington whether Wilson will ever return to the Mexican capital.

CHILD LABOR IS NEXT BILL-LANE

OREGON SENATOR SAYS THIS MEASURE IS SURE TO BE PASSED AT THE NEXT SESSION OF CONGRESS

United Press Service. WASHINGTON, D. C., July 25.—National child labor legislation to protect American labor from competition with the labor of children in factories, both at home and abroad, will be passed at the next session of congress, according to Senator Lane of Oregon.

"The reason the democratic caucus refused to put into the tariff bill the clause prohibiting the importation of goods manufactured by children into the states where child labor is forbidden," said Senator Lane today, "was that we did not want to weight the bill down with any more subjects that might endanger it. It was pointed out in the caucus that the cheap jute bags used for grain throughout the West are made by children in India, and that there is no economical substitute for them. A good many other similar problems were involved. At the regular session the majority will deal with this child labor problem as well as with a good many other matters of humane legislation, but we propose to do it systematically, and not in haphazard fashion.

STRIKERS ARMED, CLASH WITH THE TROOPS HOURLY

TWENTY-FIVE HUNDRED GUARDSMEN OUT

Many Men Are in the Hospitals as a Result of Last Night's Fighting at Calumet—Advent of Michigan State Up Striking Miners, and a General Shutdown of the Copper Mines is Expected.

United Press Service. CALUMET, Mich., July 25.—Five hundred men are patrolling this city today, protecting the mines, and attempting to quell any disturbances. By this evening there will be assembled 1,500 members of the Michigan National Guard, and tomorrow morning 1,000 more will arrive.

There was considerable fighting last night between the militia and striking copper miners. A score of men are in hospitals.

Practically all of the copper miners are armed with automatic rifles or revolvers. Business here has suspended. It is feared that the sending of the militia has inflamed all of the copper miners.

Union headquarters today stated that the strike would extend to the 40,000 copper miners employed in the Marquette and Coughlin mineral ranges.

New Mine Out

United Press Service. PARIS, July 25.—A new ball for use in warfare, discovered by and named for a Frenchman named Duguesne, may be adopted by the French army. Experiments are under way. The composition of the ball is a brand new alloy which is said to have higher penetrating power than any yet known, yet which does not hinder the rifling of a barrel. The French "ball" rifle is badly worn, but the new ball will make the change of arms unnecessary. The "Duguesne" ball is very expensive, this being its one drawback.

Large Local Delegation Will Go to the Good Roads Barbecue and Meeting at LaPine Next Month

If Klamath Falls does not send the largest delegation to the Good Roads meeting and barbecue at LaPine next month, it will not be because boosting has been lacking. Already several automobile parties have been formed to make the trip, and the matter will undoubtedly be taken up by the Klamath Chamber of Commerce at an early meeting.

LaPine, in Crook county, is a settlement composed of good roads disciples and boosters for other progressive causes. In order to have the matter brought forcibly to the attention of all of Central Oregon, the LaPine Commercial Club has arranged for a meeting to be held Saturday, August 9th.

A feature of this meeting will be a barbecue, but that is not all, by any means. There are other features, and among these is County Judge Will B. Worden of this county, known all over this state as the "Good Roads Judge."

Worden will be one of the prominent speakers at the meeting. Charles W. Thacker, the "good roads apostle," will also attend. Thacker has long traveled over the country with a mule, boosting for good roads, and a necessity to properly inform the Crook County Association will also attend.
