

Secretary Lane of the Interior Department Will Visit Klamath 23rd; May Postpone Big Meeting

BELIEVE MEXICO IS ATTEMPTING TO BLUFF U. S.

WILSON WILL NOT SHOW HIS HAND

While Serious, Situation Is Not Believed Critical—Ambassador Wilson Is Under a Cloud With Exiled Mexicans in Paris—President Wilson and Ambassador Wilson Confer—Newspapers Are Blamed

(By JOHN C. NEVIN, Staff Correspondent)

WASHINGTON, D. C., July 28.—There is no more necessity for intervention in Mexico than there was two months ago. The situation, though serious, is by no means critical.

It was stated from an official source today that President Wilson believes that much of the present agitation is due to newspaper manipulations.

Wilson intends to continue his investigations in the "big brotherly" fashion, which has not yet considered the force of arms.

Wilson is not pessimistic. At the same time he recognizes that conditions might change at any moment, forcing intervention, but he hopes to avoid this if possible.

United Press Service WASHINGTON, D. C., July 28.—President and Ambassador Wilson conferred for an hour today, at the conclusion of which the ambassador made the following statement:

"The conference was devoted to presenting to the president the exact facts. We did not discuss policy. I gave the president my views, and he will decide as he pleases."

Officials believe the Mexican developments are a deliberate attempt to force America's hand. The situation overshadows everything.

There have been several conferences between President Wilson and Secretary Bryan and Ambassador Wilson. Because of the gravity of the situation and the danger of a misunderstanding resulting in bloodshed, it has been agreed that no inkling of the president's plan will be permitted to leak.

Cardinal Gibbons, 79, Predicts Death

Cardinal Gibbons.

Cardinal Gibbons, aged seventy-nine, yet in good health, and seemingly in better health than most men of his age, does not believe he will live long. His birthday was Wednesday, July 23, and the occasion was not one of great rejoicing, but of resignation for the cardinal.

"I will soon be an octogenarian," said the cardinal smilingly in his Baltimore home, "and nature must take its course. Almighty God has blessed me with a long life, and I am ready to answer whenever he sees fit to call me to render an account of my stewardship."

"I think that it will not be long now," he said slowly, and there was no sorrow in his voice—just resignation.

"When the call comes I think it will be a sudden one. We should all be ready for the call, because we don't know how soon or suddenly it may come."

The visitor asked the cardinal if he was not in good health.

"Yes," answered the cardinal. "I still feel strong and capable of performing several more years of labor, but I think I will soon pass away. Perhaps I might live ten years longer—we are never sure."

WEYERHAUSER CO. HEAD IS COMING

GEORGE R. LONG, THE GENERAL MANAGER OF THE TIMBER CONCERN, WILL ARRIVE FRIDAY FROM TACOMA, WASH.

George R. Long, general manager of the Weyerhaeuser Timber company, the largest lumber concern in the United States, will arrive from Tacoma Friday with his family for several weeks' visit in Klamath county.

The Weyerhaeuser company owns approximately 300,000 acres of timber in this section, and while here Mr. Long will inspect the property of his company. This trip of Mr. Long's, however, is not purely a business one, as Mr. Long has selected Klamath county in which to spend a portion of his summer vacation. With his family he will visit Crater Lake and other scenic attractions of this section.

George Long Jr., who has just finished school, is spending the summer in Klamath county. He has been here several weeks, and is serving as a member of the fire patrol, which is protecting the timber of the county from forest fires.

Mrs. and Mrs. Jack Horton of Hillsbrand and Mrs. Earl Walker of Bly who have been visiting friends in the Willamette valley, returned Sunday evening.

A baby incubator is to be installed in a hospital at The Dalles.

COPPER MINERS IN FIGHT WITH NON-UNIONISTS

TROOPS ARE CALLED TO QUELL DISTURBANCE

Operators Making an Effort to Open the Mines, But Are Handicapped Because Strikebreakers Are Going Over to the Rank of the Strikers.

More Troops Are Called to Guard Mines, and Disorders Are Expected

United Press Service CALUMET, Mich., July 28.—The striking copper miners, while parading the streets today, attacked a party of non-unionists, and several men were seriously hurt.

Troops were rushed to the scene to disperse the belligerents. The strike district is strongly guarded. The miners maintain a sulky attitude, and further disorders are expected.

The operators made a desperate effort to open the mines today, but were handicapped on account of the strikebreakers who were persuaded to join the strikers, or remain away from the mines.

The leaders of the Union are determined to have peace, but it is feared that many of the men are uncontrollable.

Is the President of the New Haven the Goat for J. P. Morgan & Co.?

This is the latest photo of Charles H. Mellen, deposed president of the New York, New Haven & Hartford railroad, which has been attacked by almost every public agency like state railroad commissions and the interstate commerce commission, and generally denounced by the public.

The road is burdened with debt, its equipment is run down, and accidents are frequent. All of which is said to be due to the fact that the energies of its officials have been centered on the building of a complete trolley, water and rail monopoly in New England rather than the operation of a railroad.

J. P. Morgan & Co. have long controlled the road. They have supplied the huge sums Mellen used in attending the monopoly. Many persons believe he took this course because directed to do so by the bankers, and that now that the policy has proved a colossal failure and a sacrifice is demanded by the public, Morgan & Co. have slipped the blame over their shoulders to those of Mr. Mellen.

DEVELOPMENT CONGRESS MAY WAIT ON LANE

ITINERARY INCLUDING CHANCE LANE TRIP

Secretary of the Department of the Interior Will Arrive Here Saturday, Spend Sunday Inspecting the Klamath Reclamation Project, and Leave Monday Night for California—Will Prove Drought Cure For Klamath

Franklin K. Lane, Secretary of the Department of the Interior, will visit Klamath Falls Saturday and Sunday, August 23 and 24. He will spend Sunday inspecting the Klamath reclamation project.

As a result of the date of the Secretary's arrival, there is a possibility that the date of the Central Oregon Development League Convention, set for this city August 19-20-21, may be changed to August 22-23-24. This matter will be taken up by the directors of the Klamath Chamber of Commerce at a meeting tomorrow.

Secretary Lane is a man of much interest to all the people of the undeveloped Central Oregon country, as much of the future of this country depends upon the attitude of the department of the Interior. For this reason, a speech by Lane and his presence at the local meeting would prove a matter of great importance to all parts of Central Oregon, and would do much toward increasing the attendance at the Development Congress.

A telegram was received today from C. C. Chapman of the Portland Commercial Club, suggesting that a recess of two days be taken in the proceedings of the Congress in order to allow Lane to be present at the last session. This, in the opinion of the local business, would mean a hardship on some of the citizens, compelling them to remain five days, and they favor a postponement of the opening day until August 21.

Female Championship Called From Spring

CRAWFORDS NOTED, N. E., July 28.—The best female players of the state are entered in the competition for the New Hampshire and White Mountains tennis championships which began today on the courts of the Crawford House, Tacoma. This event is the nucleus of the National Tennis Association.

Three Hundred Pheasants and Car of Trout Are to be Shipped Here and Liberated by Game Commission

A full carload of fingerling trout is to be sent from the Bonneville hatchery for distribution in the streams of Klamath county, according to information just received by Deputy game warden C. M. Ramsby from W. L. Finley, the state game warden.

Mr. Finley also writes that Klamath county can have two or three hundred Chinese pheasants if the people here will see that they are protected. Mr. Finley says:

"If you desire it, we shall send a carload of trout from Bonneville some time within a month or so. It is our intention to plant as many fish in that section of the country as possible. We shall also liberate a good number of Chinese pheasants—more than we have ever liberated before. We can, perhaps, send two or three hundred birds, but we want to feel that they are well protected and to know that they are doing well."

A committee has been appointed by the Klamath Sportsmen Association to secure the use of several thousand acres of land in the valley, where the pheasants can be liberated with assurance of protection. The committee has not completed its work yet, but Mr. Ramsby states that there will be no difficulty in securing sufficient acreage. Rex Bord, who owns about 1,000 acres near Olens, has given permission for the liberation of pheasants on his place, and agrees to see that they are protected with the assistance of the game warden. It has been demonstrated the past winter that pheasants will easily stand the climate of this section.

Lake County Will Send Boosters in Large Numbers to the Central Oregon Development League Meet

LAKEVIEW, July 28.—"On to Klamath Falls" is the slogan now being used by Lakeview boosters in anticipation of the meeting of the Central Oregon Development League at that place August 19, 20 and 21. It is already assured that a most creditable delegation from Lake county will be in attendance at the big meet, but the local boosters will not be satisfied with merely a creditable showing, and intend making the other delegates sit up and take notice that Lake county is "it." At least a dozen autos will go over, and it is planned to make a good showing on entering the Klamath metropolis. A meeting is called at the Executive office for tonight for the purpose of appointing a committee to perfect plans for the proper representation of Lake county at the meeting.

The attendance from all parts of the state promises to be very large, and if Lake county is represented as she should be, the results will be of very great value. While it may not be possible to make a large exhibit of the products of this section, yet it is equally within the range of possibilities to make a showing that will open the eyes of all visitors to its wonderful possibilities in the way of stock, grain, timber, fruit, alfalfa, dairying and the like.

One of the most important subjects to be brought before the coming convention is the matter of stimulating interest in the Pacific highway north and south across the state. This is an item of vital importance to both Klamath and Lake counties, and this meeting is the logical time for both counties to formulate systematic plans for accomplishing the best results in working for the establishment of the highway.

FREE BASEBALL DRAWS A CROWD

GROGERS DOWNED BY CLOTHIER IN A CONTEST THAT MADE THE BIG CIRCUITS LOOK LIKE CORNER LOTS

The "wise ones" went wrong again by picking the Prune Peddlers to win the ball game Sunday afternoon at Modoc Park. Contrary to all available "dope" on form, experience and physical condition, the Sox Sellers surprised themselves and their friends by taking the long end of a 17 to 10 score. Each player on the field had an individual following in the grand stand. The married men were loyally

HOMESTEADER IS THOUGHT INSANE

FRED HOLZER WILL BE EXAMINED LATE TODAY AS TO HIS SANITY—HAS BEEN ACTING VERY QUERRELY

Because he has been acting in a queer manner of late, friends of Fred Holzer fear that he is mentally unbalanced. He was taken into custody today by the authorities, and will be examined for his sanity late today or tomorrow morning.

WOMEN TO PITCH IN SUNDAY GAME

THEATRICAL MEN ARE THE LATEST TO FORM A TEAM, AND THE BARBERS HAVE ACCEPTED THE CHALLENGE

Barbers vs. Theatrical Men, with women pitchers. This is the baseball program to be dished out at Modoc Park Sunday afternoon, the second contest of the city inter-professional series of games.

The John Drows formed an organization this morning, and forthwith challenged the Knights of the Razor for a game. In addition to saying they would win, the Hamlets added further that Maude Patterson, who plays a bill at the Star theater commencing Thursday night, used to twirl for the Boston Bloomer girls, and she would pitch.

Does this prediction of defeat phase the Barbers? Not so you could notice it. Instead, they cheered up, sold three bottles of hair tonic to victims in the chairs, and added that the scene shifters were not the only ball team with a woman pitcher. This morning they signed up a manicurist—hands up, gentlemen—who stated that she knows a little about baseball, too, and that from the pitching point of view.

The talent lined up by Manager McGraw Houston includes Clair Arnold, Harry Burrell, Lon Lobb, John Houston (two of 'em), Lester Terwilliger, Bob Mitchell, Harry Williams, Kid White, Wilbur Arnold, Sterling Garrett, Carl Schencker, Marie Houston and Jerry Darroll. Mohler Pitch Swanson has the following on his list: Benn, Haynes, Turner, Garrick, Shelton, Thrasher, Nicholson, Walters and Lowe.

River Gives Up Its Dead: Body of Youth Drowned Near Keno Thrown Across Logs by the Water's Force

The body of an unknown young man who was drowned in the Klamath River two weeks ago when trying to cross the rapids at Keno with a light skiff, was found yesterday morning near the old Chase ranch. This is five miles below the place where the man was last seen.

At the place where the remains were found, the rapids end in an eddy and the force of the current had thrown the floating corpse across two anchored logs, leaving the body half exposed. The body was in a bad state of decomposition, and it had evidently been on the logs the greater part of the time.

The ghastly find was made yesterday morning by John...
