BIG WORK LAID OUT FOR LIND IN SOUTHLAND

PRESIDENT WILSON HOPES FOR PEACE

Legal Adviser of the State Department and President Are Said to Be Unable to Agree on the Question of Recognizing Huerta—Lind, New Mexican Ambassador, Left Today to Assume His New Duties

United Press Service

WASHINGTON, D. C., Aug. 5.—The administration is today hopeful of immediate peace in Mexico. The appointment of former Governor Lind of Minnesota, it is believed, will do much toward reconciling the warring factions.

Lind has been authorized to represent the president in endeavoring to get influential Mexicans to force President Huerta to restore order.

He will also ascertain whether the raising of the embargo on arms and ammunition will help the situation.

Lind left today for Mexico City. Prior to his departure he conferred at great length with Wilson and Bryan, and he carries almost plenary powers.

It is rumored that President Wilson and John Bassett Moore, international law expert of the state department, have disagreed. Moore favors the recognition of Huerta as president of Mexico, and Wilson opposes this plan.

Daughter of Harriman Robbed of Jewels Worth \$75,000

NEWPORT, Aug. 5.—This is Mrs. C. C. Rumsey, daughter of the late E. H. Harriman, who, as the greatest railroad financier in the world, piled up a fortune of nearly \$100,000,000 before his death.

Some of that money went into jewelry for the young woman, some \$75,000 of it, and money is so plentiful in the Harriman family that Mrs. Rumsey kept her jewels in her bureau drawer at her summer home, Gunning Rock, on Ocean road, Narragansett Pier.

A thief who learned this slipped into the house the other day and took the jewels. It was one of the biggest hauls ever made by burglars from a private residence.

Thieves have been busy this summer in the homes of other millionaires along Long Island Sound and the New England coast. Some forty or fifty pieces of jewelry were taken from the home of John H. Hagan, the shoe man, the other day. Mrs. Walter Ives, another society woman of New York, was robbed the other night of a necklace for which she offers a reward of \$2,000.

Some of the millionaire cottagers of Newport have become so frightened that they barricade their houses at night.

INSTITUTE WILL BE HELD AGAIN

STATE SUPERINTENDENT ADVISES AN EXPERIMENT ONLY THIS YEAR WITH SUMMER TRAINING SCHOOL

The annual county school teachers' institute will be held again this year, according to the school superintendent's office. This fall it will be held at the high school October 14, 17, 18.

A number of instructors of state and national note will be here at that time to assist in the work. Special departments will also be a part of the program.

It was thought for a time that the institute would be superseded by the teachers' summer training school, as provided by the last session of the legislature. State School Superintendent Alderman, however, has advised the majority of the counties to continue the institute, so the work of a few training schools can be watched for an experiment.

JURIST SAYS A CHANGE WOULD MEAN A DELAY

PERSPECTIVE JURIST SAYS A CHANGE WOULD MEAN A DELAY

Federal District Judge Van Fleet has said that a change of venue would delay the trial of the two young men accused of white slavery in the Long a Time—Transferring the case to the Sacramento venue.

United Press Service

SAN FRANCISCO, Aug. 5.—The Federal District Judge Van Fleet has said that a change of venue would delay the trial of the two young men accused of white slavery in the Long a Time—Transferring the case to the Sacramento venue.

Attorney Woodworth, in behalf of Diggs, asked Judge Van Fleet to change the venue for both Diggs and Caminetti, as the whole case would be heard in the same place.

Prosecution attorneys have refused, and several who have been named by the state have declined to appear in the case to be tried.

The case had its beginning in March, when Drew Caminetti and Harry Diggs, the defendants, are alleged to have sailed with Martin Warrington and John Harris, two high school fraternity girls of Sacramento. The elopement led to the arrest and indictment of the two young men on charges of white slavery.

The case attracted considerable attention at the time because of the prominence of the defendants. Caminetti is a member of Stanford University, a man of wealth and political connections. The younger Diggs was a state architect until recently, and lived in Sacramento. He is 27 years old, and has had the reputation of being a "high roller."

Caminetti is the son of A. Caminetti, former state auditor, and recently appointed commissioner of the State Guard of California, and was a member of the staff of the state board of education.

City Hall, Fire, Garbage Bonds, Voted Under the Old Charter, Are Questioned; Refunding Bonds O. K.

The \$50,000 city hall, \$2,500 garbage site and \$8,000 fire apparatus bonds, the issuance of which were authorized by the voters three years ago, yet remain unsold. Although they were bid in by the Security Savings Bank and Trust company of Toledo, Ohio, this spring, they have been returned, owing to a defect, arising from the numerous charters of the city, which affects the legality.

The following reason is outlined by the bonding company's attorney: "According to the transcript submitted the above mentioned bonds are being issued for the purposes indicated, said \$5,000 issue having been authorized at an election held November 14, 1910, and the other two issues at an election held June 10, 1911.

"At the time said elections were held said city was incorporated under a charter which went into effect May 21, 1910. Subsequently said charter was superseded by a new charter which went into effect April 23, 1912, and this later charter was again superseded by a charter which went into effect March 10, 1913.

"The charter of 1910 gave authority to the common council of said city to borrow money on the faith of the city for any specific purpose, and to provide for the issuance of bonds of the city for such specific purpose. The charter of March 10, 1913, also authorizes the common council of the city to borrow money on the faith of the city, and to that end to provide
