MURDER CHARGE MAY BE PLACED AGAINST TAPPAN

BODY OF INFANT IN EXHUMED TODAY

Coroner and Prosecuting Attorney Empanel Coroner's Jury and Commence Investigation of the Cause Leading Up to the Death of 18-Month-Old Girl, Whose Father Abused She and Her Sisters

Instead of incest, murder may be the charge against John DeWitt Tappan, who is in the Siskiyou county jail, awaiting trial on a charge of assaulting three of his daughters, all under 9 years of age.

A coroner's inquest was held this afternoon over the death of Frances Tappan, the little baby which died this week at the county infirmary. The body of the infant was exhumed this morning for this purpose. The examination was conducted by Deputy Prosecuting Attorney H. M. Manning and Coroner Whitlock.

The mother and two small daughters testified of the relations of R. D. Tappan with the three children. All of the occurrences happened outside of Klamath county, at Red Bluff and in Siskiyou county.

Mrs. Tappan testified that her husband had been under arrest in Idaho, charged with non-support and with incest with one of his little daughters. This was several years ago, and the family has been traveling around in wagons since.

The little infant was taken sick when the party was at Red Bluff, and the child was taken to a doctor. After reaching Klamath county the child became worse, and the mother took it to the county infirmary, where it was placed under the care of the county physician. Mrs. Tappan testified that she did not suspect what the trouble was until informed by her mother, Mrs. J. C. Belding, who was with the party, who informed her of a confession made by the two older girls.

The coroner's jury is composed of O. A. Stearns, Horace Dunlap, A. Kershner, Henry Stout, Chester Avery and J. W. Lindsey. Tappan was arrested at Olene the latter part of June, several days after the suffering infant was taken to the county infirmary for treatment. The mother accompanied the child to the county institution, and while there

SAYS SITUATION IS VERY SERIOUS

SENATORS ASKED TO ELIMINATE PARTISAN FEELINGS IN DEALING WITH THE SITUATION IN MEXICO

United Press Service WASHINGTON, D. C., Aug. 7.—Senator Bacon of the committee on foreign relations this afternoon pleaded with the members of the senate for the elimination of partisan politics in dealing with the Mexican affair, which he referred to as a "situation of utmost gravity."

He asked that the president be given an opportunity to peacefully settle the crisis.

The debate resulted when Senator Clarke refused to consent to refer to the senate foreign relations committee his demand that the senate inquire into affairs in Mexico.

Clarke taunted the democrats with having no definite policy in regard to Mexico.

"Some point out that there is no man in Mexico so poor as the man owing allegiance to the American flag," he said. "We should have the facts."

"This is a matter of the utmost gravity," returned Bacon. "The president has formulated a plan, and is about to execute it. The Cuban affair was merely a tempest in the teapot compared with the gravity of the undertaking to restore order in Mexico."

Clarke's resolution went to the foot of the calendar.

Leader of Constitutionalists and Huerta's Strongest Foe in Mexico

All the northern part of Mexico is torn up by this strife. It was reported the other day that Carranza had wired President Wilson re-

jecting the tentative plan of mediation between him and Huerta. Carranza is one of the wealthiest men in Mexico, and is said to be financing his own army in the war. All he wants, according to reports from the south, is the raising of the embargo against the exportation of arms from the United States to Mexico except to the forces of the president.

More Than Six Millions Acres of Public Lands Restored to Entry in Two Months, Says Sec.

C., Aug. 7.—Refutation of the claim of critics in congress that the conservation policy means the locking up of the West, was presented by Secretary of the Interior Lane today in a statement showing that an area of 6,000,000 acres of withdrawn public lands were restored to entry during May and June.

This is an area, Secretary Lane pointed out, equal in size almost to two Alaskan territories or to three and a half states the size of Texas.

Conservation principles were applied in classifying the lands, some being definitely valued as coal properties and made available for purchase under the coal land law, while others were found to be not valuable for water power sites, reservoirs, and so on.

The society now has in operation a factory at Houlton, which is said to be making good.

The matter, which was presented to the Klamath Chamber of Commerce, has been referred to the manufacturers committee of the organization for consideration as to its feasibility. The committee will report on it at Tuesday's public meeting.
