State Game Warden Advocates a Code of Signals For Hunters and Guards Against Accidental Shooting

By WILLIAM L. FINLEY, State Game Warden

The state board of fish and game commissioners have recommended the following suggestions to be used by sportsmen in the field in order to prevent accidental shooting and to relieve persons who are injured or lost in the forests and mountains.

To prevent accidental shooting every hunter should wear a red cap, shirt or sweater, or some other article of clothing that can easily be identified from game birds and animals, especially when hunting deer in the forests. Since there is a contrast between red and the color of any bird or animal that is being hunted, this color will serve the best purpose.

Hunters should never shoot at a moving bush, leaves or grass with the expectation of killing game. It is dangerous, for the moving object is likely to be a man. Never shoot at any object until you are absolutely positive of identification.

To prepare for an emergency, every hunter and angler should carry in his pocket a piece of candle and matches in a waterproof match safe. In case of becoming lost or injured, one can easily start a camp fire.

SINGER TELLS REPORTERS HER PEDAL EXTREMITIES ARE THE SAFEST PLACE FOR THE DIAMOND STOCKINGS

United Press Service

LONDON, Aug. 9.—With her eyes misbehaving as badly as ever, Anna Held, who has been appearing here in a London music hall wearing a pair of diamond studded stockings, sailed today for New York.

The actress didn't wear either a split skirt nor a transparent gown when she tripped toward the steamer, so the ship news reporters had to ask her if she wore the diamond stockings.

United Press Service

One of the most hotly contested baseball games ever held in Southern Oregon will be the attraction at Modoc Park tomorrow when the Electricians and Insurance and Real Estate teams meet.

Both sides have been interviewed, and after an exhaustive display of statistics to show that the national game is second nature to their respective professions, each camp can see the bird of victory perched nowhere but on its particular banner.

Despite the suspicion that Carl Adams and Fred Bremer deliberately injured themselves and George Walton is leaving the city, the Live Wires say they will win anyway.

LIKE TWINS AND PANTS BAD LUCK NEVER COMES SINGLY TO THIS CHAP

To fall from a roof to the ground is sufficient to cause some men, and big men at that, to recline in bed for several weeks, wrapped in plaster of paris, but to strike on a crosscut saw while falling makes the matter still more unlucky.

So at least thought Fred Bremer, superintendent of lighting for the California-Oregon Power company, but before he became fully cognizant of the fact that Billikin, or whoever the God of Luck may be, had deserted him temporarily, this mishap faded into a mere trifle.

The fall from the roof and the collision with the crosscut saw cut Bremer's arm a good four inches, the gash penetrating to the bone at the elbow.

The following day, while Oscar Breneman was using a hammer, the head flew off, and, striking Bremer in the mouth, it cut through his lip and knocked out two teeth.

Last night, while out practicing with the electricians for tomorrow's game, Bremer misjudged a fly, and the beaming he got dazed him for several minutes.

On top of all this, some of the other members of the team accuse him of seeking a place on the sick list, in order to escape a possible run in with the umpire in tomorrow's game, as the way things are coming to him he fears fatal results should such a thing come to pass.

John Purroy Mitchel, Anti-Tammany Candidate for Mayor

NEW YORK, Aug. 8.—John Purroy Mitchel, 34 years old, is the hope of the anti-Tammany forces in New York city.

He is the candidate for mayor chosen by a committee made up of regular republicans, progressives and independent democrats. Most politicians are satisfied that Mr. Mitchel will win easily if there is no other opponent than Tammany.

The young candidate is now the collector of the port of New York, a place to which he was appointed a few months ago by President Wilson.

There is little doubt that the influence of the president, secretly exerted, was a large factor in bringing about the choice of Mr. Mitchel as a candidate for mayor. The president, it is believed, wishes to break up Tammany hall. To do that he must place the management of the democratic party in the hands of independent democrats like Mr. Mitchel.

SITUATION HAS BECOME STILL MORE SERIOUS

LEAD WILL BE IN MEXICO CITY MONDAY

Majority of the Senate is in Favor of Lifting the Embargo on Arms Mexican Newspapers Strongly Attack America—Huerta is Notified He Will Be Held Responsible for Safety of Ambassador Lind

By JOHN G. NEVIN

(Staff Correspondent)

WASHINGTON, D. C., Aug. 9.—

The speed of the New Hampshire has been slowed down, owing to a mishap, so Ambassador John Lind will not reach Vera Cruz until tonight.

Secretary O'Shaghnessy of the American embassy, has notified Huerta that he will be held responsible for any insult offered to Lind.

The cruiser New Hampshire is in touch with Washington by wireless, and Lind is fully advised. He expects Mexico City tomorrow or Monday.

President Wilson said Secretary Bryan expects Lind's mission will succeed. Senators who are familiar with the plan are skeptical.

Many members of the official family believe that war is imminent. Orders for the moving of troops and ships are ready for signature.

Members of the senate committee on foreign affairs secretly considered the matter this morning. The majority favor lifting the embargo on arms.

The president has been able so far to keep such a resolution of the congressmen, senator, but every day this becomes more difficult.

It is not expected that the president's plan will be published before Monday.

That is the plan of the administration, but events are shaping themselves so rapidly that they may be changed.

Many Important Matters Will Be Discussed at Tuesday's Meeting of Chamber of Commerce Members

Considering the best methods of entertaining the visitors to the General Oregon Development League convention. The matter of securing free factory sites and advertising them; entertainment of the Dunsmuir band when it arrives Friday—these and other matters of equal importance will come up for consideration at the public meeting to be held at the Chamber of Commerce Tuesday evening.

All who are interested in the up-building of the city are invited to these meetings, which are held once a month for the discussion of pertinent questions.

The local end of the program for the Development League will be outlined in full at the Tuesday meeting. This will include the local speakers to take part in the convention, also receptions, etc.

At this time, there will also be taken up the entertainment of Secretary

Lane of the department of the Interior. Secretary Lane will arrive here August 23d from Crater Lake, and will spend that day and the day following looking into local conditions and inspecting the Klamath irrigation project.

The Dunsmuir band and a party of other people from that city will arrive Friday afternoon, and that evening they will give a dance here. The following day, it is thought, the visitors will be taken through the Merrill Valley by local busmen. This is to be considered Tuesday night.

The matter of free factory sites is one of the most important to be considered. It will be discussed thoroughly.

The manufacturers committee of the Chamber of Commerce is now working on this proposition at this time, and has compiled statistics regarding market possibilities, power, etc., and the value of the fall.
