

Candidate for Presidency of Mexico, Manuel Calero

Manuel Calero, one of the ablest Mexicans, looks on the horizon as an important figure in the future of his country. He has been suggested by the press agents of Ambassador Wilson as a compromise president in case efforts must get out. There have also been dispatches from Washington to indicate that President Wilson himself is leaning toward Calero.

Japan as a club to force recognition by the United States.

United Press Service WASHINGTON, D. C., Aug. 12.—The state department admits that affairs in Mexico are making rapid progress. Special Ambassador Lind is keeping President Wilson informed as to conditions, and reports that the tension has greatly lessened.

There is no longer any fear that the ambassador's life is in any danger. Foreign Minister Gamba is scheduled to receive Embassy Secretary Nelson O'Shaughnessy, who has expressed America's desire for peace, at which meeting he will describe the status of Special Ambassador Lind. Efforts are still being made to bring out the destitute Americans, and gunboats are being sent to advantageous positions.

It is estimated that it will take Ambassador Lind at least a month to finish his work in Mexico.

LAKE COUNTY RANCHER SUCCESS

producing elements of the ranch under development. Mr. Paxton will be able to devote more time to convenient and luxurious improvements about the house. However, no apologies are required for present conditions, as they now have a beautiful home. Preparations are being made to install a gasoline pump and tank at the well to make water available for light irrigation purposes, as well as more convenient for domestic uses.

What has been accomplished by Mr. Paxton can be emulated by every other farmer in the valley, as all conditions in the virgin state of the land are similar, if not identical, to those as they were on this place. Diversified farming, including the raising of staple products, stock, hops, chickens and dairying can be carried on successfully. All that is required is the push, energy and management like has been applied in bringing about the development of the Walter Paxton ranch.—Lake County Examiner.

The dry farming congress met at Garden City, Kan., in a pouring rain. The farmers are said to have been much amused at the ironical situation.

In an experimental way motion pictures recently were taken under water in Chesapeake Bay by a man who descended from a boat in a tube, aided by an electric light suspended outside the tube.

BOLT PLAYS SANTA CLAUS

LIGHTNING TEARS OFF SHINGLES AND GOES DOWN THE CHIMNEY OF WEST SIDE RESIDENCE—NO ONE INJURED

The Bice residence on West Main street was struck by lightning during the thunder storm Monday afternoon, and in addition to tearing some shingles off, the force of the bolt went down the chimney into the Bice kitchen, knocking the ornamental chimney cap out of place and shaking a picture off the wall.

Mrs. Bice had the range removed, and has been using an electric stove since the commencement of summer. She was cooking the evening meal at the time, so had the range been in use she might have been injured. With the exception of slight damage to the telephone system, the storm wrought no other harm.

CLERICAL ERROR CAUSES REFUND

(Continued from page 1)

as the assessor's office is wholly at fault, it seems to me that your honorable body has a good right to pass the application, and order a warrant drawn for the amount.

"In case refund is granted, I am submitting herewith separate sheet, showing the funds which will be affected by your action, and the county treasurer should be ordered to charge the several funds with the amounts stated therein.

For the benefit of your honorable body and the public at large, I find that the Southern Pacific company was assessed, and has paid taxes for the year 1913, the sum of \$38,790.21 on railroad, rolling stock, depots, grounds and personal property, and its tax on lands for said year amounts to \$10,321.93, one-half of which has been paid.

The refund will deduct from the following funds the amounts set after them:

New court house fund	\$1,916.92
County school fund	1,268.58
High school fund	624.19
City library fund	124.89
School library fund	10.94
School dist. 1, special fund	4,223.78
School dist. 1, bond fund	527.98
School dist. 13, special fund	125.52
Road fund	2,973.68
City of Klamath Falls	901.09

The error, after being made in the computation in the assessor's office, was checked over by one of the Southern Pacific's representatives before the tax roll went to the assessor. After the taxes were paid the mistake was discovered by the railroad.

The hardest hit by the error is the local school district. The \$4,223.78 special fund it is asked to refund was paid to the treasurer of the district some time ago. Monday County Treasurer Siemens asked the school board to repay this amount.

A special meeting of the directors was held to consider the matter. Although it was discussed from different angles, no action was taken toward paying the amount, nor was any refusal to pay put on file.

CLOTHIERS SHY FROM BARBERS

TENORALISTS SAY THE SOX DISPENSERS ARE AFRAID TO PLAY THEM A GAME OF BALL NEXT SUNDAY

The Barbers are trying every way in the world to get the Clothiers for a game of baseball, but so far their efforts have proven fruitless.

The Barbers claim that the pedal extremities of the Sox Sellers are in a trapped condition, and that the excuses being peddled that the Clothiers are scattered over the country rust-cating is simply the chief occupation of a Mexican athlete.

"Every man that played with the Clothiers before is in town right now," angrily exclaimed Harry Thrasher. "Not one of them but would be tickled to death to get out and play us if they thought they had a chance on earth to beat us. They know they are out-classed, and are afraid to play."

Claud Maxwell, who was in the lineup of the Dry Goods team before on the strength of his familiarity with a certain piece of calico, says the Sox Sellers will be ready to play in a week or so, or just as soon as Fred Houston, Jester, Loewe, Joe Brett and himself can practice up on a new set of signals. They fear the barbers have learned their code, and are busy preparing a new one.

LANE MAY NOT VISIT KLAMATH

EVEN CRATER LAKE MAY BE CUT OUT OF HIS ITINERARY, ACCORDING TO REPORT SENT TO PORTLAND

Special to The Herald PORTLAND, Aug. 12.—Secretary of the Interior Lane has telegraphed the Portland Commercial Club that he will spend only a few hours in Oregon. It is not likely that he will visit either Klamath Falls or Crater Lake, as he had planned.

Lane arrives here Monday, then attends a congress of governors at Colorado Springs. From there he returns immediately to Washington.

SEEK TREASURE AT GRASS LAKE

SAN FRANCISCO BURGERS LEAVE IN AUTOS TO FIND MONEY SUPPOSEDLY BURIED ON THE KLAMATH TRAIL

SAN FRANCISCO, Aug. 12.—Sixty thousand dollars in gold, the loot of a party of Mexican and Indian bandits which robbed an army pay train forty-six years ago, and cached its plunder near Grass Lake, will be the golden fleece of a typical twentieth century party of argonauts, which expects to leave San Francisco soon.

The party, headed by E. K. Wickstrom and R. J. Strom, automobile men, will journey in automobiles to a spot indicated on a rude map obtained recently by Strom from an aged Indian, claiming to be the last of the attacking party, who told Strom that treasury agents had kept such a close watch that the bandits had never had opportunity to remove and dispose of their plunder.

The attack occurred in 1867, when an army paymaster's train was ambushed near Grass Lake on the Klamath Falls trail. In the first rush the bandits drove back the fifty cavalrymen conveying the gold, and made off with it.

The troops rallied, and finally captured part of the bandits, who stubbornly refused to disclose the location of the cache.

WINDSOR PASTORS ARE FUSSED LATELY

PRESIDENTIAL FAMILY NEVER ANNOUNCED WHAT CHURCH IT WILL ATTEND, SO THERE IS MUCH SPECULATION

United Press Service WINDSOR, Vt., Aug. 12.—The ministers of the little churches that dot this old New England county for miles around are much "fussed." They are suffering from what might be properly called "nervous anticipation." And it's all because the family of President Wilson is most cosmopolitan in its Sunday worshippings.

The Wilsons never announce where they will attend church until they start out, and several ministers have been much flustered by these unannounced entrances when he hasn't prepared a special sermon for the occasion.
