GOLDEN RULE MAN RETURNS FROM THE EAST

Nowhere During His Extended Trip Through the Middle West and East Did He See Better Prospects or Better Conditions, Says Ed Vannice, Home Again After a Tour of the East for the Purchase of Stock

"Not a place that I visited during my five weeks' Eastern trip has the prosperous appearance that is noticed in the Klamath Valley." So said Ed Vannice of the Golden Rule Store, who returned Saturday night from New York and other Eastern cities, where he has been buying fall goods.

"With me were twenty-eight other buyers for the different stores in the Golden Rule chain, and I was among the few to buy more goods than last year. I anticipate a prosperous fall, and bought accordingly.

"In Denver I stopped off to witness the mammoth parade of Knights Templars, in which 12,000 plumed and belted knights marched to the music from fifty-five bands. The decorations, costing the city of Denver \$225,000, surpassed anything of the kind ever before attempted in any country. It was the grandest thing imaginable.

"Business in most of the Eastern cities seems rather quiet at present, with very little hope for an immediate revival. I honestly think Klamath county has much better prospects than any rural community through which I passed."

Mr. Vannice said he rather liked the new fall styles and fabrics as decreed by the smart set of New York.

"In a general way they seem to be more sensible and comfortable this season than in some former years," said he.

BLOOD POISONING CASE PECULIAR

ARM OF LAUNDRY EMPLOYEE SWELLS RAPIDLY FROM NO APPARENT CAUSE, AND SURGEON OPERATES

A most peculiar case of blood poisoning is that of William Bradley, upon whom Dr. Truax performed an operation Saturday. Mr. Bradley is employed at the Klamath laundry, and has charge of the washing machines.

Saturday morning his right hand and forearm commenced to swell, though he could not discover any scratch or bruise of any kind to cause such a condition. As it became rapidly worse, he called in Dr. T. Truax, who, after an examination, pronounced it to be a case of blood poisoning.

In trying to locate the seat of the trouble the right hand was cut into from both sides, revealing, however, nothing of a nature to cause blood poisoning. Today the entire arm is badly swollen, with hard lumps forming under the arm.

Who Governs Empire State? Business Interests Want Quick Reply

MARTIN H. GLYNN, Lieutenant Governor of New York

ALBANY, Aug. 15.—Who is the governor of New York, William Sulzer, whom the assembly voted to impeach, or Martin H. Glynn, the lieutenant governor.

This is a question that the business and financial interests of the Empire state are asking.

Furthermore, they demand an immediate answer. The uncertainty they declare, has a debilitating effect on trade.

It is expected that within forty-eight hours there will be completed the organization of a temporary organization to look into the matter. This body, it is believed, will set the courts to make a ruling stating just who is the lawful executive officer of the state.

Assistant Secretary of the Interior A. C. Miller, with Mrs. Miller and Mrs. Franklin K. Lane, will arrive in Klamath Falls Thursday evening, in time to participate in the closing ceremonies of the Central Oregon Development League. This information was received today in a message to Abel Ady, president of the Water Users Association.

Secretary Lane will not be able to come to Klamath Falls, as at first planned, and he has delegated the inspection of the Klamath project to his assistant. It is probable that Mr. Miller will spend a couple of days in Klamath county, and that one day, either Friday or Saturday, will be devoted exclusively to a consultation with the farmers under the government irrigation project.
