

POLO INTEREST MUCH GREATER

MANY TEAMS ARE ENTERED IN TOURNAMENT WHICH STARTS TODAY IN DENVER FOR THE WESTERN TITLE

United Press Service
DENVER, Colo., Aug. 22.—That the victory of the American defenders of the international polo trophy at Meadowbrook, Long Island, has greatly increased interest in the sport in this country was evident here today when the Western summer tournaments began. The contests will last through August 30th, and will be played on the Colorado Springs Country Club's field.

Five representing eight Colorado clubs, and teams from the cavalry posts at Fort Robinson, Neb., and Fort Riley, Kans., will participate.

Public Sale
Thirty-two head of cows and calves will be sold at auction at the O. K. feed barn on Saturday, August 23, at 2 o'clock. Also some good horses, buggies and harness.

GUY MERRILL, Auctioneer.

JINGO PRESS IS CALLED OBSTACLE

UNIVERSAL PEACE CONGRESS PLAYS THE TYPE OF JOURNALISM THAT CLAMORS CONTINUALLY FOR BATTLE

United Press Service
THE HAGUE, Aug. 22.—"What the Press might do for the cause of peace," was the main question under consideration at today's sessions of the twentieth annual meeting of the Universal Peace Congress, which has been in convention since Monday.

Herr Fried and M. LeFoyer were today's chief speakers. Both emphasized the power newspapers have in promoting peace among nations. Both strongly condemned those newspapers "which are continually clamoring for war or warlike demonstrations behind a mask of false patriotism."

Herr Fried declared "the jingo press the greatest menace of the present day to commercial advancement." He argued that the "jingo" press, by continually grasping every opportunity for calling for war, could not help but stir up a certain amount of unsettledness in business circles. The congress will adjourn tomorrow.

Physician Predicts That Tuberculosis Will Vanish

In Ten Years' Time, He Says, Tuberculosis of the Lungs Will Be a Thing of the Past. Sunlight, Air and New Vaccine to Accomplish It

United Press Service
DENVER, Colo., Aug. 22.—"It will be possible in ten years to eliminate tuberculosis of the lungs."

This statement, made by Dr. Jefferson D. Gibson, pulmonary tuberculosis specialist of Denver, and originator of a plan by which the dread disease which kills more persons than any other malady, can be stayed, has resulted in appeals from thousands all over the country, for more details of his proposed treatment. Dr. Gibson's statement was made before the convention of Homeopathic physicians held here recently. Many physicians have commended and approved Dr. Gibson's treatment, but there have been others to criticize it adversely.

"Aided by tuberculosis or VonRuck's new vaccine, the X-ray should give perfect results in these cases. By this means, I claim that it is possible in ten years to wipe out lung tuberculosis. I predict that ten years from now it will be a disgrace for a physician to allow a case to develop among

stood by laymen, and to answer his critics he today gave a practical explanation through the United Press.

"The first part of infection in a vast majority of cases of lung tuberculosis," said Dr. Gibson, "originates in the bronchial glands and radiates from there to the top of the lungs. It then spreads fan-like over the remainder of the lung tissues."

"Splendid results have been obtained by treating the glands of the neck, abdomen and other parts with the X-ray. The X-ray will produce equally good results if applied to the bronchial glands. It thus cuts short or prevents pulmonary tuberculosis entirely."

"Aided by tuberculosis or VonRuck's new vaccine, the X-ray should give perfect results in these cases. By this means, I claim that it is possible in ten years to wipe out lung tuberculosis. I predict that ten years from now it will be a disgrace for a physician to allow a case to develop among

his clients."

Sunlight and fresh air, according to Dr. Gibson, are important, but they alone will never effect a complete cure. They will give relief and in some cases strengthen the lungs and the system sufficiently to fight off the ravages of the disease for years, but they do not cure and prevent parents afflicted from passing the disease on to future generations.

"The application of this new method of treating pulmonary tuberculosis shall not rest with the city or county or state," said Dr. Gibson. "It will not even rest solely with tuberculosis specialists. Its benefit is to come when the family physician gets the idea and equips himself to carry it out. The same doctor who has always attended the family is the one with whom the treatment will rest."

Out of 400 cases in all stages, from incipient to the most advanced, which have been treated by Dr. Gibson or under his supervision, eighty-five per cent, he says, were sufficiently benefited to be able to continue their work and not succumb to the disease.

The comments of physicians over the country, who have become familiar with Dr. Gibson's treatment, have, with few exceptions, been to the effect that it is an original and beneficial one. The unfavorable comments, Dr. Gibson believes, have come from physicians who have not fully understood his plan of treatment.

General Resigned so His Friend Could Have Office

Colonel William H. Bixby and Colonel William T. Russell

WASHINGTON, D. C., Aug. 21.—Amid the coldness and excitement of politics, the capital and almost every officer of the United States army have been interested in the unusual case of General William H. Bixby, chief of engineers of the army, and Colonel William T. Russell, next in authority in that bureau of the army.

The men had been lifelong friends, and General Bixby knew it was the ambition of Colonel Russell to attain the position of chief of engineers before he retired, the position which could only be reached when Bixby himself quit. His retirement was to

come by the age limit in five months. But before that time Colonel Russell would also have been retired by the age limit. So General Bixby announced he would resign before his term expired so his friend would step in as chief of engineers. This announcement shows the two old friends at the moment General Bixby turned his eyes over to the colonel.

Col. Russell at the 5 West State St. It is news, The Small Star printed it.

HERE IT IS

NYAL'S FACE CREAM

Is the very best that's made. Use it and your complexion immediately takes on the ray of health. This is the one cream that thoroughly cleanses the pores and leaves the skin smooth and soft to velvet. Then too, Nyal's Face Cream will not cause hair to grow on the face.

Being greaseless, Nyal's Face Cream is readily absorbed by the skin. Considering possible, it is antiseptic and thoroughly cleanses the skin pores. The odor of this ideal cream is decidedly feminine. It is sold in economical jars for twenty five and fifty cents the jar.

Common uses of Nyal's Face Cream, it's best for your complexion.

We are the Nyal Agents. Buy this superior cream of our store. Better than a far home soap.

"Long and Short" at Star

Glaude Golding and Clara Keating, the "long and short" of vaudeville, who opened at the Star last night, proved to be another of the good acts the show house has been getting lately.

Golding is "long" on the proper kind of comedy to pass over the footlights. His singing, dancing and monologue received many rounds of applause. Miss Keating is short only in stature. Without doubt she is one of the cleverest little ladies ever seen on a local stage.

The "Australian Tango" is one of the features of this program, which those who witnessed it last night declare is one of the cleverest seen here in some time.
