

Wilson Favors Withdrawal of Americans From Mexico

STONE SAYS THE RATE ON WATER STOPS GARDENS

ATTORNEY FAVORS MUNICIPAL PLANT HERE

Difference in the Rates Charged in Portland and in Klamath Falls is Astounding to Lawyer—He Says He Pays Phone, Lights, Gas and Water for What He Paid for Water Alone Here—Lawns a Luxury

According to C. F. Stone, who has just returned from Portland, where he accompanied his family to their new home, the state metropolis is a much cheaper place in which to live than most of the smaller towns of the state.

"I am getting telephone, water, lights and gas for what it cost me to irrigate my lawn here," said Mr. Stone. "My water bill for irrigation and household purposes from August 25 to October 1 amounted to 99 cents, and I have the receipted bill to prove it."

"It is no wonder the homes and yards in Klamath Falls look so barren and dry. The people here simply cannot afford to buy the water with which to grow flowers and lawns. My water bill used to average about \$8 a month, and then I did not use all that was needed. The amount of water I am using in Portland would cost \$5 or \$6 a month here, and you do not have to buy a meter."

It is quite well known that rates are lower in Portland, particularly for water, than in other parts of the state. This is accounted for from the fact that Portland owns its own water system and supplies water to its residents practically at cost.

Little Jim—James Thrasher, brother of Harry Thrasher, arrived in Klamath Falls last night from Grants Pass, and will accept a position at Shippington in the lumber mill. "Jim" is six feet four inches short, and is known among his friends as "Thrimp."

Civil Service Examination For Bonanza Postmastership Will Be Held Here Late In Coming Month

The first civil service examination for a postmastership to be held in Klamath county, following the ruling of Postmaster General Burleson has just been announced. It will be held September 27th, to choose a postmaster for Bonanza.

The following information regarding it is given by the civil service commission:

"The United States civil service commission announces that September 27, 1913, an examination will be held at Klamath Falls, Oregon, as a result of which it is expected to make certification to fill a contemplated vacancy in the position of fourth class postmaster at Bonanza, Oregon, and other vacancies as they may occur at that office, unless it shall be decided in the interests of the service to fill the vacancy by reinstatement. The compensation of the postmaster at that office was \$561 for the last fiscal year.

FIGHTER FREED FROM THE BLAME

MUST STAND TRIAL, HOWEVER. PROSECUTOR SAYS THE GRAND JURY WILL NOT TAKE THE MATTER UP

United Press Service LOS ANGELES, Aug. 27.—Assistant District Attorney Ford today said there would be no grand jury investigation of the death of Bull Young, the heavyweight who died from a blow in a fight with Jess Willard last Friday night, as all the evidence will be brought out at the trial of Willard on a charge of manslaughter. Willard was exonerated by the coroner's jury.

CAVALRY WILL BE OUT OF HORSES

LANGELL VALLEY RANCHERS ARE ANYTHING BUT PLEASED AT THE ACTION OF MEN GETTING U. S. ARMY MOUNTS

(Special Correspondence) LORELLA, Aug. 27.—The stock men in this part of the country, and, in fact, all over Southeastern Oregon, are probably the grouchyest bunch of individuals at this time that it would be possible to collect together any where.

Several weeks ago notice was sent out that Uncle Sam wished to replenish his stock of cavalry and artillery horses. This gave the specifications of horses required, and said the buyers would be here August 15th to accept those meeting these specifications.

Accordingly, although help was scarce and the haying season in full swing, the ranchmen spent much of the summer in riding for these horses and breaking them for saddle and harness. Agents of the government, or persons purporting to be such agents, have been around locating the different bands and designating such animals as would fill the bill, which animals have been kept in the pastures or barns and fed hay.

The inspectors finally arrived, after several delays, on August 30th. They went first to Hly, where about 180 horses were gathered, many of which had been brought in from a distance of over 100 miles. These officials, utterly disregarding the requirements upon which they had agreed to buy, rejected on one pretense and another all but nine out of the 180.

A like proportion was selected from other places visited.

Six was the total number picked from Langell Valley.

If an elephant can roll a block in three-quarters of a minute, how long will it be before Uncle Sam can purchase cavalry horses again in this district?

SWISS FARMERS BUY TRACT IN KLAMATH COUNTY

SHIVE RANCH, NEAR MIDLAND, IS PURCHASED

Former Residents of Santa Clara Are Much Enthusiased With Klamath County's Farming and Dairying Possibilities, and Say They Believe More of Their Countrymen Will Come Here to Make Their Homes.

The beginning of what may become a Swiss Colony here occurred Tuesday when a deal was completed whereby W. T. Shive sold his ranch this side of Midland to John P. Rubustellino, Giuseppe S. Rubustellino and Matta Delfatti. The men are here from Mountain View, Santa Clara county, California.

The ranch is two miles this side of Midland, and consists of 300 acres, of which 178 acres are under the ditch. The price paid was \$15,000. The purchasers are Swiss, and they and their countrymen, who have long been known as among the best citizens, dairymen and farmers in the world, have been residing in California for some time.

A short time ago the trio came to Klamath Falls to make an investigation, and they were so impressed that they made this purchase. They believe that other countrymen will follow them here when they hear of the possibilities there are in store for those who judiciously follow the agricultural pursuits.

DOCTOR SICK BY WIRELESS

PHYSICIAN, UNABLE TO RELIEVE SUFFERER ON A SHIP, CONSULTS VIA MARCONI PASSING SPECIALIST

United Press Service SYDNEY, N. S. W., Aug. 27.—Once more has the wireless been brought into play to save a life, and it has proven successful.

When the steamer Wimmers docked here today the ship's physician told of having exhausted his knowledge to save one of the passengers, who was desperately ill. During an exchange of news with the Maheno, outward bound from here, the presence of a specialist on board the Maheno was made known to the Wimmers' doctor, who asked for advice regarding treatment of his patient.

WOULD CREMATE ALL THE FOLKS

SOCIETY OF CREMATIONISTS IN MEETING AT DETROIT WOULD HAVE CATHOLIC CHURCH FAVOR THIS PROCESS

DETROIT, Mich., Aug. 27.—The first annual session of the Cremation Society of America met here today to discuss a systematic plan for distributing propaganda to have cremation supplant burial of the dead.

The cremationists were formally welcomed by the mayor and other city officials. The most important resolution submitted today was that urging "the Congregation of the Inquisition of the Roman Catholic Church to rescind the decrees opposing incineration."

PREPARING FOR BIG FAIR HERE IN SEPTEMBER

WILL BE A GRAND STREET CAR-NIVAL

Instead of Exhibits at One Certain Place, Booths for Displays Will Be Built Along the Principal Business Streets—Money Will Be Used Exclusively for Rewarding Meritorious Farmers for Efforts

Plans have all been made for the county fair, which is to be held in Klamath Falls on September 25, 26 and 27. The attractions will be in the nature of a combined street carnival and fair. The city council will be asked for the use of Main street by the fair board during the three days, and it is proposed to have all of the shows and farm exhibits on the street.

The board, which was appointed by the county court, to have charge of the fair is composed of Geo. T. Baldwin, J. Frank Adams and James Polton. These men are now busy making up their premium list.

Klamath county will have \$500 for this purpose, and it is proposed to offer prizes only for such stock and produce as has been proven adaptable to this section. These prizes will be of sufficient size to justify the people of the county in bringing in their exhibits. No money is to be wasted in prizes for fancy produce or such as is not considered wise to encourage from a practical, business standpoint.

Instead of circulating a subscription list to raise money with which to buy lumber and erect booths on some vacant lot away from the business section, each business man in the retail section will be asked to build an exhibit booth in front of his place of business, just outside the curb line. These booths are to be used to display the exhibits of fruits and products from the country.

One of the big features of the carnival will be a big stock parade each forenoon. Guy Merrill has promised to assist with this attraction, and he says he believes he can have 250 head of stock in line. This will include the finest blooded draft horses in the county, big mules and dairy and beef cattle. The fair board will make a particular effort to encourage the dairy stock exhibit.

STOP TRAPPING ON LOWER LAKE

LEWIS SENDS ORDER HERE—THE SCARCITY OF ANIMALS IN THE WILSON—FARMERS CAN TRAP FOR PROTECTION

Except in cases where farmers are injured and must seek protection, trapping on Lower Klamath Lake is forbidden this year, according to the following order received by Warden J. J. Furber from Agent L. A. Lewis of the biological survey:

"It has been definitely decided, owing to the rapid decrease of fur-bearing animals as indicated by reports of trappers, that no trapping will be allowed the coming fall and winter on Lower Klamath Lake reservation.

"In case any of the fur-bearing animals may be doing damage, authority may be granted you to issue permits to owners of private lands to trap for their own protection."

Here From Calor.—William Vonness Plum, also known as "The Colonel," and Frank Fish are here from Calor. They are connected with the Fish Lumber company's plant at that place.

"LET 'EM FIGHT IT OUT AMONG THEMSELVES," IS THE TREND OF THE SPECIAL MESSAGE READ TODAY

SHRINERS WIRING FOR RESERVATIONS

ATTENDANCE AT CEREMONIES OF HILSH TEMPLE WILL ATTRACT HUNDREDS TO KLAMATH FALLS

Every mail is bringing requests for room reservations to the hotels from people contemplating attending the pilgrimage and ceremonies of Hishah Temple, Ancient and Arabic Order of the Nobles of the Mystic Shrine, to be held here the latter part of the week. From present appearances, the attendance will be larger by far than anticipated.

Asland is the home of Hishah Temple, so that city will have a monster delegation here. In addition, all parts of Southern Oregon will be represented, and Marshfield and Hamburg will send delegations. Many California Shriners are coming to the sessions.

Joseph Hart and O. J. Stone arrived last evening from Asland to take up with the local Shriners the matter of arrangements.

The lodges and their friends will arrive Friday, and the following morning they will tour the Upper Lake, stopping for lunch at Eagle Ridge. Upon their return to Klamath Falls a parade will be held. This will be followed by a business meeting of the Shriners, when a number of candidates will be initiated.

Sunday, many of the party will go to Crater Lake, a special automobile rate having been fixed for this trip. For those not caring to see the lake, the entertainment committee has arranged a trip through the Merrill country.

AGES ALL AMERICANS TO BE TURN AT ONCE, AND SAY REVOLUTION IS CRUCIAL

Although Admitting That Latin American Has Been Largely a Failure, and Prices Is Not in Sight, President Willows Around International Week Only Make Statement, Complimented Them They Are Now

United Press Service WASHINGTON, D. C., Aug. 27.—

President Willows played his trump card in the Mexican situation today when he appeared before a joint session of congress and read a message advising all Americans to leave Mexico at once.

According to the message, which will be introduced that there is no prospect in store for American life in Mexico.

It is the president's intention to let the warring factions fight it out. To insure absolute neutrality, the government will prohibit the shipment of arms to both the Mexicans and the rebels.

The failure of Ambassador Lindbergh's negotiations was reported, but Willows said the door was not closed to the resumption of peace overtures. The president regards the situation as critical.

The address broadcast immediately for the Mexican people, but there was expressed extreme pessimism as to the outlook for peace.

"Present circumstances do not seem to promise even a foundation for peace," said the message in part. "We have watched several months, full of anxiety, but the situation has grown worse. The territory held by the provisional government at present City has grown much smaller, and the prospect of pacifying the country and by arms has grown more remote."

"I am glad to believe that conditions

Proposed Roadway Would Open Eyes of Tourists to Advantages of This Section, Also Open a Scenic Route

A few "wide-awakes" of the community are formulating a move to work in conjunction with Skelton county in the building of a permanent road from Weed to Klamath Falls, entering via Lower Klamath Lake and Merrill, through the magnificent Merrill Valley.

"This road," says E. B. Hall, who is one of the men behind the project, "will mean a greatly increased auto traffic into Klamath county, and will bring visitors over a route that will show the greatly diversified industries of the county. They will see the orchards, the grain fields, the dairies, the fruit and berry farms, the hay fields and the grazing cattle, the truck farms and the celery beds; in fact, they will see the greatest agricultural district in the world."

"More than that, we intend to build a branch road into the wonderful lava beds, where are found the interesting ruins of by-gone wars, the gigantic ice caves and frozen caverns. As the roads are now very few tourists know about the wonders of the lava beds, but with good roads built to them, they would have an interesting time

fully equal to the Crater Lake. It would be a grand thing for the county to have the tourist trade over this route on their way to Oregon. After coming through the Merrill Valley they would see the magnificent timber country and the lumber industry as evidenced by the big mills at Shippington, Algona and Chiloquin. At Spring Creek, Williamson River and Idleret they would gaze the best fishing under the most magnificent conditions in the world.

Fort Klamath would show them that the Merrill Valley was not only farming section in the county. After their visit to Crater Lake, they would see the West Side road, the Pelton and Lodge Road, the Eagle Ridge Tunnel, and the most scenic route.

"When ready to build, they would go out by Klamath Lake, where the lava beds, where the ruins of by-gone wars, the gigantic ice caves and frozen caverns. As the roads are now very few tourists know about the wonders of the lava beds, but with good roads built to them, they would have an interesting time
