MAYOR WM. GAYNOR DIES ON SHIP Old Time Wound Cause of Demise

REHEARING IS DENIED SIEMENS IN COUNTY DEPOSITORY ACTION; A PEREMPTORY WRIT IS ORDERED

DECISION GENERALLY THOUGHT TO BE THE END OF THE CONTROVERSY

Following the Petition for an Alternative Writ to Compel Siemens to Designate First National Bank as a County Depository, Demurrer is Overruled, and Same Action is Taken Regarding Rehearing Motion

The supreme court has overruled the motion for a rehearing made by County Treasurer Siemens, defendant in a mandamus proceeding brought by the First National bank of this city.

In addition, the telegram stated that the clerk of the supreme court had ordered the attorneys to prepare the peremptory writ of mandamus in the case, compelling Siemens to designate the First National as a county depository, and to deposit therein the share of the county funds which it declares it is entitled.

The suit comes as a result of the recent enactment by the legislature of a law making it possible for county treasurers to designate whatever banks may make application, an county depositories. In these he is to deposit funds in proportion to the capitalization of the banks.

When Siemens was appointed as county treasurer in place of C. H. Ingrett this spring, the First National bank made application for designation and its share of the county funds. Siemens held that the designating was a matter of discretion with the treasurer, and he refused to comply with the bank's request.

The bank then went to the supreme court to secure a writ of mandamus to compel Siemens to designate it as a depository, and to make a thorough test of the law. A demurrer was filed by Siemens in answer to the petition

for a writ, but this was overruled. Following this, Attorney Thos. Drake, representing Siemens, made a motion for a rehearing. This has just been denied.

A Country With One Jail

Iceland is altogether a law-abiding place. There is only one jail, and that rarely ever has more than two people in it. This is to be largely accounted for by the fact that there is not a distillery or a brewery in all Iceland. Some liquors were imported from Scotland, Norway and Denmark, but there was practically an end to this in the year 1912, when the prohibitory law was passed by parliament on July 30, 1909, went into effect.

Mother Jones Is Anti

"Mother Jones" of mining camp fame announces that she is opposed to woman suffrage. She says she has studied conditions in Utah, Wyoming, Colorado and other states where the women have the ballot, and fails to see where conditions have been materially improved. She says she attended the mass meetings and found the orators had no grasp on the great struggle going on in this country. Most of the speakers, she says, are social stars or charitable workers.

THAW'S LAWYERS DO NOT ASK FOR HABEAS CORPUS

NEW YORKERS ARE MUCH PUZZLED BY THIS

United Press Service Appearance of Several Canadian Immigration Officers in Colebrook Leads to the Belief That Thaw is to Be Returned to Montreal for a Hearing Monday, in Answer to the Writ Obtained There by Attorneys

United Press Service COLEBROOK, N. H., Sept. 11.—At the very last moment, Harry Kendall Thaw's attorneys did not ask for a writ of habeas corpus.

This has amazed the opposition. So far the plans of Thaw's attorneys are inexplicable to Jerome and his conferees.

Thaw will be arraigned late this afternoon as a fugitive from justice. Twelve policemen are patrolling the Monadnock Hotel, where Thaw is confined.

Several Canadian officers appeared here today.

It is reported that the king's bench has ordered them to produce Thaw for appearance at Montreal Monday. This has not been verified.

Cummins Is Converted

Senator Cummins of Iowa, one of the strongest and most influential men in the United States senate, has just declared in a letter to Mrs. Oliver G. Smith of Des Moines his intention of voting for the equal suffrage amendment when it is called for consideration in congress. Mrs. Smith writes that Senator Cummins has long been classed as an anti-suffragist, but now that he has given his word to support the measure there is rejoicing among all the Iowa workers.

Music to Soothe Man Voters

Missouri suffragists announce that they will use music and not militancy in their campaign for the ballot, according to Mrs. E. E. Curry of Kansas City. With a band from Marysville, Mo., the women are making a tour of Central Missouri. The band is composed entirely of women, and is led by Miss Anna Nash of Marysville.

Mrs. Bell Case La Follette, in relating her campaign experiences, said:

"After I had finished speaking in a rural community in Wisconsin last fall, a large, fine-looking Norwegian farmer, a leader among his people, said, 'Well, a man gets about as much from his mother as from his father, and that is all there is of this suffrage question.'"

Next Suffrage Convention

The next annual convention of the National American Woman Suffrage Association will be held in Washington, D. C., November 30 to December 5, 1913, inclusive.

PENDLETON'S BIG SHOW IS STARTED

TWENTY-FIVE THOUSAND FILL GRAND STAND AND BLEACHERS ON THE OPENING DAY OF THE ROUND-UP

United Press Service PENDLETON, Sept. 11.—A fanfare of trumpets heralded the opening here this afternoon of the Round-Up, the great Wild West show given annually by the city of Pendleton. Four hundred cowboys, picturesquely garbed, cowgirls resplendent in buckskins and varnished habits, and Indians painted and feathered rode into the great arena on maddly plunging bronchos, and mustangs. Leading them was the famous Pendleton Cowboy band. It was estimated that 25,000 spectators, including hundreds of tourists from the East and Middle West, were in the grand stand.

Broncho busting; relay races; Indian war dances; a mimic war between cowboys, cowgirls and Indians, steer roping contests, stage coach races, lariat throwing contests and bull dogging steers were on the program.

Six Indian tribes are today encamped on the grounds surrounding the arena. They are in full regalia, and are holding "side shows" of their own, consisting of horse and foot races, war dances, knife dances and other tribal ceremonies.

According to Mr. Bensinger this has been a banner year for the farmers in his vicinity.

WENT ABOARD STEAMER BALTO SECRETELY TO AVOID ANY DANGER

New York's Executive Officer Was on His Way to England for a Short Rest When the Sad Came, Two Days After Leaving Gotham—Body Will Be Taken Ashore at Queens-town, and Returned to America.

United Press Service NEW YORK, Sept. 11.—Mayor William J. Gaynor died late yesterday afternoon aboard the Steamer Baltic.

This information was telegraphed to Queens-town by his son Rufus, who was with him, and it was relayed from that city to New York.

United Press Service NEW YORK, Sept. 11.—Mayor Gaynor sailed Thursday for a short vacation in England. He and his son Rufus went aboard the Baltic secretly, owing to the attempt made to kill him when he started on an ocean voyage in 1910.

Death was immediately due to heart failure. The primary cause was the bullet, which is lodged in his neck.

This caused constant coughing, and Gaynor gradually weakened until the collapse came.

Following the strain and excitement of his nomination by the people of New York this week to run independently against the two machine-controlled candidates, Gaynor rapidly weakened. He decided to go on a voyage for his health, and he was rapidly falling when the vessel left.

Bank Messenger Struck Down and Robbed in Chicago Street While a Crowd Looks on; Thugs Escape

CHICAGO, Sept. 11.—One of the most daring robberies in the history of this city took place today, when four men attacked a fifth, took a valise containing valuables from him, and escaped, while a large crowd watched.

The robbery occurred in broad daylight, in the presence of a number of passersby.

Warrington McAver, messenger for the Garfield Park Savings bank, was attacked by four men, who, after fol-

lowing him, took the valise he was carrying, and fled.

They made their escape in an automobile before the spectators realized what had happened.

The valise contained \$4,600 in cash and \$50,000 in checks.

The audacious attack, and the well-planned escape leads the police to believe that the men have been watching the bank messenger for some time and had worked out every detail of the episode in advance.

State Fish and Game Commission Will Establish New Hatcheries on Klamath and Odell Lakes Soon

United Press Service PORTLAND, Sept. 11.—At its present session, the state fish and game commission increased the bounty on timber wolves and cougar, and established two new hatcheries. The commission expects that their action will result in increased activity of farmers and hunters in ridding the community of the "varmints" which have been causing much destruction to domestic animals and wild deer.

The new hatchery which is proposed for Odell Lake will prove valuable, because of its geographical position. Hitherto it has been necessary to transport young trout many miles over a rough country to reach the headwaters of rivers and lakes in the Coast and Cascade mountains.

State Fish Warden Finley expects that the new hatchery will turn out two or three million trout next season.

A new hatchery will be established at Klamath Lake, from which the supply of young trout will be sent out to the nearby streams and lakes.

The war against the cougar and wolf will be relentless, it is expected, as the result of the increase in bounties. The cougar bounty has been increased from \$10 to \$25.

The bounty on the timber wolf is now \$25 instead of \$10. One dollar has been added to the bobcat bounty, making \$5.

The commission has raised 2,500 China pheasants on the state game farm at Corvallis this season. One half of this number has been placed in Southern and Eastern Oregon.
