This was decided today, when Presiding Judge Cullen refused to entertain the challenge made by the defense as to Frawley's fitness to act.

LOCAL INVENTOR GETS A PATENT

NEW BED INVENTED BY TOM CALMES IS BEING MANUFACTURED AT SAN FRANCISCO, AND IS BEING SOLD

Oakley Welch, a real estate man of Merrill, has secured a contract from Tom Calmes of San Francisco for selling a folding camp bed, which can be used as springs on beds for household purposes. Mr. Welch secured the agency for the disposal of the newly invented folding bed a few days ago, and will canvas Klamath County.

Mr. Calmes, the inventor, recently lived in Merrill, at which place he was engaged in the cinder hauling business. During such time as Mr. Calmes was not hauling cinders from the Lava Beds he busily engaged himself in studying the new invention. A few months ago he secured a patent for the new device.
A firm in San Francisco is now manufacturing a great number of the beds, and already one dozen have been sent to Mr. Welch for disposal. It is understood that Chester Hoyt of the Alfalfa town is assisting the inventor in the Bay City.
Should the device prove as substantial and useful as Mr. Calmes claims it will, no doubt the patented bed will net him a comfortable fortune.

MOVIES MAKE GOOD SAILORS

MACHINES AND FILMS ARE USED ON SHIPBOARD, AND THOSE VIOLATING RULES CAN'T SEE PICTURES

United Press Service
PARIS, Sept. 19.—A report of the navy department published today shows that the movies have entered seriously into the republic's naval regime. The movies are used to maintain discipline—at least to aid in maintenance of discipline. Several engineers on battleships in the Third squadron have cinematograph machines of their own construction.
They give daily performances on board ship, to which the sailors are very fond of going when off duty.
The officers have found that one of the most severe punishments they can inflict on the sailors for infractions of rules is to forbid them from attending the ship's moving picture exhibitions.
Since the advent of the movies on shipboard there has been a marked decrease in the number of minor offenses.
Charles Ager was here from Midland Thursday on a business trip.

"The grain crop in that section is much heavier than usual, and the grain is of fine quality," said Mr. Peterson. "There are two threshing outfits at work there, and they have all they can do."
According to Peterson, the schools are all well started on the year's work. He reports an increased attendance in nearly every district.
Interest in the county fair is great, he says. There will be a number of exhibits brought in from there, not only for the school fair, but for the county fair competitions.

YOUNG ENGLISHMEN START A CRUSADE FOR THE GRANDIOSITY COURTESY OF A FEW CENTURIES BACK

United Press Service
LONDON, Sept. 19.—Deploping the present day disregard of manners a league of young men has been founded in London whose object is to attempt to revive the courtesy of the past in "the grand style." The league today commenced business in picturesque style.
Whenever they passed the statue of a great Englishman the members raised their hats and bowed profoundly.
Standing bareheaded, the members of the league naturally attract considerable attention in the crowded streets, and when a crowd had gathered, they are supposed to address a short homily to the assembled throng on the pressing need of retaining the courtesy and respect to greatness which were so characteristic of a past age.
Some of the members find their courage fall them at this point, but others conscientiously carry out their missionary duties.
"We are hoping that our little acts of courtesy in the street will do much

United Press Service
SAN FRANCISCO, Sept. 19.—"A man whom I think was my husband, shot me down before I knew of his presence. He then leaned over and kissed me, and asked if I was badly hurt. He then shot the two men."
This is the statement alleged to have been made today by Mrs. Kate Coulson, who was probably fatally shot while eating an early morning lunch at the Atlas garage with Wm. Acker, chauffeur, and Night Clerk George Kovak.
Acker and Kovak were killed instantly.
When aid reached her, Mrs. Coulson said she knew who shot her, but refused to reveal his identity. Knowing that she and her husband have been estranged, the police ordered a general search for A. R. Coulson, who is a prominent chicken fancier of Petaluma.
Late today, Mrs. Coulson is alleged to have made a confession to Eugene Ross, a clerk in her husband's employ, in which she named her husband as her assailant. She is mortally injured, and Ross alone has been allowed to see her.
All efforts to locate Coulson have been in vain.
The police believe he committed suicide after the tragedy.

SAYS HEALTH IS RUINED AS A RESULT

SAN FRANCISCO, Sept. 19.—"A woman left the courtroom and men and women blushed and shuffled their feet this afternoon, while Clio Barker made a recitation of her alleged relations with George Bixby. Bixby stared at the wall during the whole time.
Attorney Kieth for the prosecution asked the girl the nature of Bixby's assaults, and after a hesitation, she replied that they were unnatural, and ruined her health.
The attorney then demanded a detailed description, and dropping her chin on her chest and closing her eyes, she started her terrible recitation.
The defense confined its cross examination to questions regarding the alleged payments of money.
Miss Barker admitted that she, Jeanette Ellis and Marie Brown-Levy, also "Jocull Girls," all of whom had filed damage suits against Bixby, decided to take legal action together. They denied that any attorney had prompted them in this.

Insane Man Gets Into Bed; Daughter Also Killed

United Press Service
BLOOMINGTON, Ind., Sept. 19.—Mack Hurst, aged 55 years, who was recently adjudged insane, and was awaiting commitment to the state asylum, last night tied several sticks of dynamite to his body, ignited the fuse, and crawled into the bed occupied by his two daughters, Maude, 16 years old, was instantly killed by the explosion, and Elizabeth, aged 6, was fatally injured. Hurst himself was blown to bits.
His wife and two sons, in adjoining bedrooms, were uninjured.
The supposition is that Hurst intended to kill his wife and himself, but his unfeeling mind led him to make a mistake in the bed room, and the daughters were the victims.
