## JACOBS CHOSEN MEDFORD'S MAYOR

CASHIER OF BANK IS ELECTED  
BY THE CITY COUNCIL TO FILL  
UNEXPIRED TERM—HE WON'T  
TAKE THE PLACE

MEDFORD, Sept. 19.—The city council by a unanimous vote on Tuesday night named Lee L. Jacobs, cashier of the Farmers and Fruitgrowers bank, to fill the unexpired term of the late W. W. Elbert. The choice was a complete surprise. A petition signed by 400 of the leading business men and property holders of the city was not acted upon, and rests in the pigeon holes of the city's records without the slim grace of being formally acted upon.

The selection of Mr. Jacobs was accomplished after a conference of the council in the afternoon, received the entire vote of the council. The new mayor is highly popular, well known, and a prominent member of the Elks. The selection was made with the view of uniting all factions of the city political herd, being of executive ability, and of a personality given to peace and progressiveness. He has a large following.

Jacobs last night announced his intentions of declining the position. The pressure of other business, and the fear that his health would be affected by the over-work were the principal factors in his declination, and his friends say that the fact that the amendment to the city charter passed last winter, stripping the mayor of all power influenced him also. The choice of Mr. Jacobs was received with favor, and the news of his declination caused regret.

The ladies of the M. E. church will serve lunch at the library building, consisting of coffee, sandwiches, pie, baked beans and home made candy, Friday, September 26.

I have three policies, a total of \$20,000.00. I figure that I have saved at least \$200.00 a year, net cost, my having this insurance in the Mutual Life.

C. E. Mitchell,  
President Citizen's National Bank.  
Alamogordo, N. M.  
I carry insurance in three companies, and the Mutual Life is always ahead in benefits to the policy holder.  
Geo. A. Raglin,  
Asst. Cashier White Co. Bank,  
Carmi, Ill.

From an experience of three policies extending over 25 years, I can heartily recommend the Mutual Life of New York as the best company for the policy holder.

Henry Lemline, Portland, Ore.  
F. M. PRIEST, Agent

According to an Italian scientist a square mile of the earth in six hours of sunshine receives heat equivalent to the combustion of more than 2,500 tons of coal.

## News of Our Neighbors

Gossip and Progress of Nearby Communities as Chronicled in the Press.

### Success From the Start

The farmers' market did a thriving business for a few hours this morning, and wagon loads of garden truck were disposed of. Buyers were numerous, and especially brisk was the demand for butter and eggs. Tomatoes were plentiful at 25 cents the box, and water melons were offered in any quantity and reasonable rates. Work of remodeling the building standing just north of the present market place is now going on, and as soon as it is completed the farmers' market will be moved into permanent quarters. Arrangements for displaying products will be adequate, giving opportunity for better service than is now enjoyed in the open air. It is believed that when the market is permanently located that it will be found desirable to increase the number of market days each week, in order to supply the constantly growing demand for farm products.—Roseburg News.

### Get Busy Right Away

Major H. L. Bowly, state highway engineer, arrived in Medford Wednesday and met with the county court to rush matters in connection with the paved highway, bonds for which were voted last week. The court formally accepted the official returns, and approved the advertisement calling for bids on the bonds. Advertisements for bids on the grading of the road over the Siskiyou will be prepared within a day or two. "I am anxious to start to work at once," said Major Bowly, "and only await the completion of the survey to start things. The Siskiyou mountain stretch will be graded before winter, if our present plans do not miscarry."—Medford Mail-Tribune.

### A Busy Man

Capt. J. P. C. Nash, who is interested in mines in Humboldt, was in Yreka last week, and reports that he has only twelve feet more to tunnel before he ought to strike a ledge. The indications of the rock he is passing through show strong signs of a ledge. While prospecting his property last spring he found a good ledge carrying free gold. He dropped down the hill a little over a hundred feet and started a tunnel which he has driven in several hundred feet. The property he is working is the "Old Flag," one of the noted paying mines in Siskiyou in early days. Mr. Nash also owns a five-stamp mill, which is operated by water.—Yreka Journal.

### Quick, Watson!

The beautiful weather is here, and everyone should spend a day out in the woods and see what Nature's paint brush is accomplishing. Drive along the road by the splendid ranches, hear the hunk of the mowers as they cut the third crop of alfalfa, see the splendid fields of corn, barns filled with alfalfa hay, the ground covered with golden pumpkins and melons, the orchards laden with peaches, pears, apples and prunes; take a glance at the sheep, cattle, fine horses and fat hogs; notice the large number of chickens, turkeys and ducks; watch the busy bees as they sip the golden nectar from the flowers around the neat rural homes; camp along the banks of one of the beautiful streams, land a few trout, smell the camp fire. \* \* \*—Medford Sun.

### A Little Sport

A paper is being circulated among the business men and others to raise \$500 as purses for three days horse racing during the fair next month. We have the grand stand, the judges and a mighty good half mile track. Subscribe to this, as there are some good horses here, and a fair without races is not worth much.—Lakeview Herald.

# Ashland Council Would Shut Out Power Plant

ASHLAND, Sept. 19.—The city council has passed a resolution ordering the Ashland Electric Power and Light company, a subsidiary corporation of the California-Oregon Power company, to cease selling electric light in the city, and to start removing its poles from the streets and alleys within the next ten days. Attorneys for the city were instructed to enforce the commands of the resolution if not voluntarily obeyed. E. A. Reames of Medford has been engaged to assist the city attorney in the case. Should the order of the city council be strictly obeyed, it is understood that nearly half of the citizens will be without light and power, as the city plant is said to be overloaded. Bonds were asked last December in the sum of \$25,000 for an auxiliary municipal plant, but the citizens voted down the proposition.

## LETTERS FROM THE PEOPLE

What Is the Constitution Among Friends?

Editor Herald:

In view of the recent happenings in our postoffice, the above saying, which has now become famous, might be changed to read: "What is the civil service among friends?"

According to the rules of the civil service a person cannot be removed from office unless there are good and sufficient reasons for such removal. Mr. Brandenburg has served as our postmaster for about two years, or about one-half of the term he was appointed for. His services may or may not have been satisfactory. It does not matter, for the people of this city were not consulted when he was appointed, nor did they have a chance to vote for his successor.

Personally I have not heard any kick on Mr. Brandenburg. It is also stated that his rating has been good until the last report, and as the assistant postmaster general, in calling for his resignation, does not state any reason why he should resign, nor prefer any charges against him, we must infer that there is no valid reason why he should resign—only, his political views are not of the same hue as those of the present administration.

Now, I have no objection to changing postmasters, but if Mr. Brandenburg has done his duty while in office he should not be ousted. If he has not done his duty the public has a

San Diegoan on Two-Year Tour  
United Press Service  
SAN DIEGO, Sept. 19.—Otto Bhand of the Young Men's Christian Association of San Diego, today has a good start on a tour that will cover two years. Bhand is traveling exclusively by motorcycle, and expects to cover 25,000 miles before he returns here some time in September, 1915, in time for the finish of the International Exposition to celebrate the opening of the Panama canal in 1915.

A German vacuum ice machine of convenient size for household use does away with the need of using dangerous acids, and can be operated by hand or by a small electric motor.

Today's news in The Herald.
