

LOW WINS CASE IN THE SUPREME COURT OF STATE

LOWER COURT IS REVERSED BY THE DECISION

Action Filed by Howard E. Davis to Foreclose Mechanic's Lien for Carpenter Work Done for Defendant Is Taken to Higher Tribunal, and an Opinion, Reversing Local Judge Is Returned.

The supreme court has reversed the ruling of the local circuit court in the action of Howard E. Davis against C. C. Low and Lena Low. Attorney H. M. Manning, who appeared for Low, is in receipt of a copy of the court's decision.

The action was to foreclose a mechanic's lien. Davis performed carpenter work for the Lows to the extent of \$172.50. The contract for the work was made by Low with Mr. Bodach for \$705, and Davis was employed by Bodach.

The defense held that the property upon which the work was performed was the Low homestead, and so not subject to a mechanic's lien. They also held that Davis was a partner of Bodach.

A decree granting a lien was given by the circuit court. From this the appeal was made to the supreme court.

BALLOON TO GO UP BETWEEN 4, 5

T. M. SHERMAN WILL TRY TO HIT LAKE EWAUNA IN HIS DROP FROM THE GASHAG, 3,000 FEET IN THE AIR

The daily balloon ascension during the county fair will take place between 4 and 5 o'clock each afternoon. The balloon is all in readiness for the fair.

T. M. Sherman, who is the aeronaut engaged, will attain an elevation of 3,000 feet or more in the gasbag before cutting loose the parachute. He plans to alight in Lake Ewauna if atmospheric conditions are favorable.

This is initiation night at the Elks Lodge, and there are several candidates who will be given the work. Lunch is to be served after the meeting and a large attendance is expected.

COMMISSIONER VISITS

Chance Is Here to See to Labor Conditions

W. B. Chance, deputy state labor commissioner, arrived in Klamath Falls last night from Ashland, and will devote a week or two to Klamath and Lake counties, posting both employers and employes on the Oregon laws for the protection of labor.

Commissioner Chance, whose jurisdiction includes every county south of Marion county except the eastern edges of Lane, Douglas and Coos counties, has had a strenuous time of it in most of the cities visited on this trip, especially in Grants Pass, Medford and Ashland.

In Grants Pass the majority of arrests were for violation of the law relative to the employment of women, the big department store of Coe & Co. being one of the offenders. In Medford the commissioner found numerous restaurants openly disobeying the ten hour law for women, and several arrests resulted.

When Mr. Chance reached Ashland he found that the manager of the municipal power plant was paying not the least attention to instructions

TENNESSEE'S LEGISLATURE IN A BIG RIOT

TROOPS MAY BE SENT TO THE HOUSE

Attempt of Governor to Get Through Laws for State-Wide Prohibition May Result in Bloodshed—Members Searched for Weapons Today. Situation Is Identical With Kentucky's Celebrated Goebel Affair.

NASHVILLE, Tenn., Sept. 25.—Bloodshed and rioting in the Tennessee legislature are greatly feared today as a result of the attempt of Governor Hooper to force rigid laws for state-wide prohibition.

All his members were searched for weapons as they entered the house today. Special officers have been detailed to prevent any disorderly conduct on the floor of the house.

It is possible that before night the militia will be called out to guard the state house and the executive mansion.

The situation here is similar to the trouble in Kentucky some years ago, which resulted in the shooting of Governor Goebel.

The trouble is due to the governor calling a special session of the legislature. At this time he seeks to have passed laws authorizing him to rigidly enforce state-wide prohibition.

MALIN MAY GET CREAMERY NEXT

THE BOHEMIAN FARMERS HAVE GREATLY INCREASED THEIR DAIRY HERDS DURING THE PAST FEW MONTHS

A creamery for Malin is one of the new enterprises for the county, according to persons residing in that section of the county.

The farmers comprising this flourishing Bohemian colony have made great strides toward transforming that section into a dairying center, and in the last few months they have more than doubled their dairy herds by the introduction of blooded animals. In view of this and other additions to be made in the near future, they believe the time is nearly ripe for them to establish a creamery in that vicinity.

COMMISSIONER VISITS

Chance Is Here to See to Labor Conditions

that had been given him by the state commission some time previous in regard to observing the law concerning public or municipal work. Commissioner Chance gave the manager of the power plant twenty-four hours in which to call a special meeting of the city council, at which meeting they empowered the manager to employ a sufficient number of men to conform to the eight hour clause in the law governing municipal work.

The Ashland power plant had also been enforcing a rule of their own, making one man of the day shift sleep at the power plant, so he would be handy in case of extra work in locating trouble on any of the lines. This rule was abolished by the commissioner.

Commissioner Chance, who, by the way, is an uncle of the "Peerless Leader" Frank Chance, is also factory inspector for this district. He will visit the mills of Klamath county on a tour of inspection this week, to see if the machinery and erection are in accordance with the laws.

Klamath Products in Other Shows

This Exhibit in September, 1907, Won Trophy for Best Forage Plants

The above photograph, taken at Sacramento in September, 1907, shows one of the first exhibits sent out of Klamath county to compete with other sections.

The occasion was the Interstate Exposition of Irrigated Land Pro-

ducts held at Sacramento, at which there were big exhibits from all parts of the West.

One of the biggest competitions was for the big silver trophy offered for the best exhibit of forage plants grown on irrigated lands. This was awarded to Klamath county, and the

trophy has since been on display at the Baldwin Hardware company.

Besides the forage plant honors, the Klamath county exhibit pictured above captured many other prizes at the Sacramento show. The county secured much desirable publicity as a result.

RODEO STUNTS AT THE BALL GROUND

CASH IS OFFERED FOR ANY UNTAMABLE STEEDS BROUGHT IN DURING THE DURATION OF THE FAIR

Any person whose possessions include one of these horses styled as an "outlaw," a beast whose aversion to saddle and rider is so great that it unseats all attempting to ride it, has a chance, during the next three days, to make this animal earn a little money toward paying for the fodder he consumes.

Bill Sims and Love Chandler, who are staging a Wild West show at the ball grounds, are looking for just such horses. They will pay big prizes for any horses that some of their twelve buckaroos cannot ride.

The show was to have been staged at the fair grounds, but late Wednesday it was decided to hold it closer to town. Wild horses, bucking and roping contests, trick riding and rope spinning comprise the program, which begins every afternoon at 1 o'clock.

WILL GIVE THE ROADS HEARING

BILL PROPOSES SWEEPING POWER FOR INTERSTATE COMMERCE COMMISSION IN REGARD TO RAILROADS

WASHINGTON, D. C., Sept. 25.—The house sub-committee on interstate commerce matters today announced it will hold a series of hearings on the proposed bill for railway regulations.

The new measure grants to the Interstate Commerce Commission full power to regulate the operation of interstate trains, to limit the speed, specify the proper safety devices to be used and require steel coaches.

"Moral Policy" Wins Says President Wilson

WASHINGTON, D. C., Sept. 25.—President Wilson believes that his "moral policy" toward Mexico has borne fruit. He regards it in this light owing to the acquiescence of Huerta to two of the demands made through Special Ambassador Lind.

These are the assurances of Huerta that there would be an open election for the presidency, and that Huerta

would not be a candidate. It was announced this afternoon upon high authority that the nomination of Foreign Secretary Gombos by the Catholic party would be satisfactory to the administration.

Whether the constitutionalists participate in this election or not, America will regard the election of any president as fulfilling the demands made, providing he is chosen at the open election.

TEAM TO STAY UNTIL SUNDAY

"MULLIGAN STEW" IS TITLE OF CLEVER SKIT TO BE PRODUCED THIS EVENING AT THE STAR THEATER

The management of the Star theater secured today the consent of Young and Manning to remain for the rest of the week and put on an Irish act with the euphonious title of "Mulligan Stew," which will be shown tonight for the first time.

These two made such a hit with their blackface work that Manager Houston cancelled an engagement with a troupe of artists whose act would undoubtedly not measure up with the class of stuff put over by Young and Manning.

A modern beet sugar factory is being built at Harbin, Manchuria, at a cost of \$825,000.

Each woodpecker in the United States is worth \$20 in cash, when the value is estimated on the value of the good that this bird does to trees.

In the densest parts of Bombay there are 740 persons to the acre. New York has 1,000 in the same area.

W.A.A. TO HANDLE 'ROUND THE LAKE ENDURANCE RACE

THE LOCAL AUTOMOBILISTS ARE JUBILANT

Race Around Upper Klamath Lake for Stock Cars Begins to Loom Up as One of the Big Features of the Auto Contests for the Coming Year—Much Publicity Will Result From This Great Event.

Some time ago a movement was started toward arranging for an endurance contest for stock cars to be run around the Upper Lake, the meet to be held in August of next year.

The business men in general and the automobile dealers in particular went right to bat in the matter, willing to the proper parties for such information as would help in getting the race scheduled and properly advertised.

They are now much gratified at the time of a letter from the Western Automobile Association regarding the proposed race, received by W. T. Lee.

The Western Automobile Association handled the Panama-Pacific road race July 4th, the Santa Monica road race August 9th, and will handle the Los Angeles-San Diego-Phoenix road race November 3d.

With the W. A. A. back of and managing the "Round-the-Lake" race is bound to prove one of the big meets of 1914.

Notice of the race will fill columns and columns of space in the newspapers of the United States and Canada, and the event will prove a big thing for Klamath county in a publicity way.

Mr. Harold Ostrom, field manager for the W. A. A., in writing to Mr. Lee, says in part:

"As to the management of the event, the Western Automobile Association has handled several very successful races, and we will be very glad to handle this event for you, and can assure you of our utmost endeavors to make it the success you desire. With best wishes for the success of the race, we remain, W. A. A., per Harold Ostrom."

HETCH HETCHY BEFORE SENATE

THOSE BOOSTING THIS VITAL SAN FRANCISCO MEASURE SAY IT WILL GO THROUGH INSIDE OF A WEEK

WASHINGTON, D. C., Sept. 25.—The Hetch Hetchy bill was reported in the senate today.

The bill went on the calendar, and there is a prospect that it will go through in a week as a democratic measure.

DELZELL IS NAMED

Nomination for Local Postmaster Before Senate

WASHINGTON, D. C., Sept. 25.—The nomination of W. A. Delzell as postmaster of Klamath Falls, Oregon, was sent to the senate this morning by President Wilson.

All there remains to be done in connection with the naming of Postmaster Clyde Brandenburg's successor is the confirmation by the senate of President Wilson's nomination.

Since a message was received the other day from Congressman Willis C. Hawley to the effect that Delzell was appointed, the announcement that his

EXHIBITS POUR IN FOR DISPLAY ON MAIN STREET

ALL PARTS OF THE COUNTY ARE REPRESENTED

Booths Between Fourth and Sixth Are Being Rapidly Filled With Exhibits, the Products of Agricultural Endeavor in Klamath County. Much Fruit Is to Be Seen, and There Are Good Individual Booths

At the rate the Klamath county farmers are bringing in the products of their ranches, the exhibit booths along Main street, between Fourth and sixth, will be filled to their capacity by this evening.

Every section of the county is represented in the displays, and the quality and variety of products shown exceeds that of any other year.

There were some exhibits placed yesterday, but the greater portion arrived today. These are constantly coming in.

The fruit exhibits this year are exceptionally good. R. W. Tower of Keno has more than twenty-five varieties in his exhibits, and Frank Armstrong and other horticulturists have equally good displays.

In addition to the display of Klamath county stock and produce during the three days, a Wild West show will be given at Modoc Park each afternoon, and a balloon ascension and parachute drop will be a daily feature.

SOCIALISTS GET AT JUDGE; NABBED

NINETY-NINE WRITE HIM LETTERS DEFYING HIS ORDERS. HE HAS THEM HELD ON CONTEMPT CHARGE

SEATTLE, Sept. 25.—Signed by ninety-nine socialists, a letter defying the anti-street speaking order was received today by Judge Humphreys. The letter said the party intended to make the order a farce.

The judge has ordered the arrest of the signers on contempt of court charges.

Chief Judge Edgar M. Cullen of the New York court of appeals, is presiding at the trial of William Sulzer, governor of New York state, who was impeached by the assembly, the lower house of the legislature. Judge Cullen has long been a member of the court of appeals, and has stood high in the estimations of lawyers and the laity.

This country consumes annually about one-third of the world's output of lead and copper.
