

"BIG SIX" WINS GAME IN TENTH

THREE TYPHOID CASES IN CITY ARE REPORTED

WATER CONTROVERSY IS AGAIN REVIVED

Conflicting reports are submitted by bacteriologists to whom samples of the city water have been submitted for analysis—doctors say some mistake bilious fever for typhoid at this time of year.

Reports of two cases of typhoid fever in Klamath Falls have been filed with county health officer Merriam. These are:

Water from Ninth street. H. A. ...

In addition, the young daughter of Mr. and Mrs. Zeno C. Kimball, on Crescent avenue, is suffering from the malady.

It is rumored that there are other cases, but so far these have not been verified.

Dr. Truax, city health officer, is inclined to believe the latter report.

"At this time of the year, typhoid is more prevalent everywhere," he said, "and many people who are affected by a gripe or a bilious fever common in the fall, are of the opinion that they are victims of typhoid."

In order to contract typhoid, the presence of colon bacilli is necessary. The other illnesses I spoke of will weaken a person, and leave them in a condition to easily contract typhoid.

The question of the condition of the city water has already been taken up with bacteriologists.

The following reports were submitted to Dr. Truax by Dr. Calvin I. White, state health officer:

"The four samples of water sent by you to this office for analysis on September, showed as follows:

"No. 1, Pelican Bay Mills—Total organisms 2 per c. c., and the absence of colon bacilli.

"No. 2, city water from spring pump—Total organisms 120,000 per c. c. and the presence of colon bacilli.

"No. 3, city water from hydrant, Eighth and Klamath—Total organisms 21,000 per c. c. and the presence of colon bacilli.

"No. 4, city water from hydrant, Spring street and Esplanade—Total organisms 420,000 per c. c. and the presence of colon bacilli."

September 16.—"The bacteriological reports that of the three samples sent by you all are high in bacteriological count, but he finds no colon bacilli. The Leavitt spring was lower

in bacteriological count than either of the other springs.

Dr. Truax received the following report from the Oregon Agricultural College:

"We have examined a sample of water sent to us recently from the well supplying your city with water.

"Examination does not show any age contamination. Therefore, to judge by the sample submitted the water is fit for domestic use."

The following was received from Prof. Gray of the department of pathology and bacteriology, University of California, by the California Oregon Power company:

"I beg to submit the following report on the samples of water which were submitted for bacteriological examination.

GAME IS PLANK-MATTY BATTLE

Neither Team Scores Until the Tenth Frame

"Home Run" Baker of Athletics Is Struck Out With Two Men on Bags

Scoreboard table showing runs, hits, errors for New York and Philadelphia.

EDDIE PLANK

United Press Service SHIBE PARK, Philadelphia, Oct.

Christie Matthewson, the veteran twirler, brought home the bacon for the New York Giants this afternoon in one of the greatest games in the history of the world's series contests.

The game was one of the hardest fought contests ever witnessed at Shibe Park, and for nine innings was a pitchers' battle between Matty and Eddie Plank, upon whom Connie Mack had pinned his faith.

The two pitchers fought neck and neck throughout the nine innings, but owing to his stick work in the closing canto, Matty has a slight edge on the veteran southpaw.

First Inning Giants—Herzog knocked a fly to Collins. Doyle went out on a fly to Strumm. Fletcher struck out. No runs.

For the Athletics, Murphy's drive to Doyle was fumbled by the second sacker and Murphy reached first. Oldring singled, sending Murphy to second, and a sacrifice by Collins advanced both men a base. With one down and a man on second and third, Baker struck out and McInnis was retired by a fly to right fielder Burns. No runs; 1 hit.

Second Inning For the Giants, Burles fanned; Mattheeson singled; Herzog banded to Plank; Wiltze, running for Snodgrass, run down between third and home. Doyle knocked a fly to Oldring. No runs; 2 hits.

Wiltze relieved Snodgrass at first for the Giants.

For the Athletics, Plant went out, Doyle to Wiltze; Murphy out, Mattheeson to Wiltze; Oldring was out, Herzog to Wiltze. No runs.

For the Giants, Fletcher went out, Barry to McInnis; Burns struck out; Shafer was safe on Baker's bad throw to first, but was put out attempting to steal second. No runs.

For the Athletics in this inning Collins went out, Mattheeson to Wiltze; Baker singled; McInnis was out, Doyle to Wiltze; Strunk walked; Barry forced Strunk from first and he was put out by Doyle, unassisted. No runs; 1 hit.

For the Athletics, Wiltze retired Murphy unassisted; Oldring went out, Fletcher to Wiltze; Collins singled to left field; Baker singled to right, and Collins was held on second; McInnis forced Collins out by Herzog unassisted. No runs; 2 hits.

For the Athletics, Wiltze retired Murphy unassisted; Oldring went out, Fletcher to Wiltze; Collins singled to left field; Baker singled to right, and Collins was held on second; McInnis forced Collins out by Herzog unassisted. No runs; 2 hits.

For the Athletics, Wiltze retired Murphy unassisted; Oldring went out, Fletcher to Wiltze; Collins singled to left field; Baker singled to right, and Collins was held on second; McInnis forced Collins out by Herzog unassisted. No runs; 2 hits.

For the Athletics, Wiltze retired Murphy unassisted; Oldring went out, Fletcher to Wiltze; Collins singled to left field; Baker singled to right, and Collins was held on second; McInnis forced Collins out by Herzog unassisted. No runs; 2 hits.

For the Athletics, Wiltze retired Murphy unassisted; Oldring went out, Fletcher to Wiltze; Collins singled to left field; Baker singled to right, and Collins was held on second; McInnis forced Collins out by Herzog unassisted. No runs; 2 hits.

For the Athletics, Wiltze retired Murphy unassisted; Oldring went out, Fletcher to Wiltze; Collins singled to left field; Baker singled to right, and Collins was held on second; McInnis forced Collins out by Herzog unassisted. No runs; 2 hits.

For the Athletics, Wiltze retired Murphy unassisted; Oldring went out, Fletcher to Wiltze; Collins singled to left field; Baker singled to right, and Collins was held on second; McInnis forced Collins out by Herzog unassisted. No runs; 2 hits.

CHRISTIE MATTHEWSON

Wiltze to McLean, and Barry took third on the play; Plank hit to catch Barry; McLean threw to Herzog, who returned the ball to Mattheeson, who tagged Barry out; Murphy went out, Mattheeson to Wiltze. No runs; 1 hit.

Tenth Inning John McGraw's pets woke up at this period, and proceeded to do things fantastic. McLean singled to right; Grant ran for McLean; Wiltze sacrificed to Plank, who retired him unassisted; Mattheeson singled, scoring Grant; Herzog hit to Collins, who threw wildly to Barry, allowing Herzog to take second and Mattheeson reached third; Doyle was hit by one of Plank's offerings. With the bases full, Fletcher singled over Baker's head, scoring Mattheeson and Herzog; Doyle held second; Burns struck out and Shafer knocked a fly to Murphy. Three runs; 3 hits.

For the Athletics, Wilson went behind the bat for McLean, who was hurt; Oldring went out, Herzog to Wiltze; Collins struck out; Baker was out, Doyle to Wiltze. No runs.

Electric Spankers in Use At Huntington, W. Va., two electric "spankers" have been installed in two of the city's schools. Superintendent Wilson M. Foulk declares that the "spankers," which work on the principle of vibratory massage, have been good persuaders. The schools in which the machines were installed were noted for the unruly discipline, but are now models of deportment.

There is a modern chateau in Norway, France, which is constructed in such a way that the brick work resembles intricate embroidery.

MAYOR REQUESTS OBSERVANCE OF CANAL OPENING

Following the adoption of a similar plan in all the wide-awake cities of the country, Mayor Nicholas has issued a proclamation calling for the suspension of business for five minutes on next Friday at the time of the explosion of the blast which will remove the last dyke in the Panama canal and open a waterway from one ocean to the other.

Church to Have Dance Hall

When the new Universalist church at Leroy, Ill., is completed it will have a dance hall in the basement. Rev. W. C. Holmes of Leroy said he took pleasure in serving as coach at the football games and as secretary of the fair association, and that he and his wife both enjoyed dancing. He believes churches should allow the young people to enjoy themselves under proper supervision.

Blow the Blast the Last Barrier Is Blown Away in the Canal Zone. News Will Be Announced by Ringing of Fire Bell and Blowing of Whistles.

Whereas, on Friday, October 10th, there will be removed the last remaining dyke in the Panama canal, marking the completion of this stupendous undertaking, and

Whereas, the completion of this gigantic task is an everlasting monument to the determination of the American people and the skill and ingenuity of the American engineers, and its completion is a matter worthy of much note throughout the world; and

Whereas, the Pacific coast, through the immensity of the marine trade to be opened by the use of the Panama canal is especially benefited through the reduction in rates brought about by the competition of steamers with railroads for transporting goods from the Atlantic to the Pacific, and the flood of desirable immigration that is destined to come to all parts of the Pacific Slope.

Now, therefore, by virtue of the authority in me vested as mayor of the city of Klamath Falls, I do hereby request the citizens of the city as a token of the city's appreciation of the American engineering triumph, and in view of the great benefits to accrue to this section through the completion of the canal, to suspend all business in the city for five minutes, following the ringing of the bells announcing the setting off of the blast.

T. F. NICHOLAS, Mayor of Klamath Falls, Ore.

An Open Letter To Taxpayers By The County Court

When the Skakiyou outlet is accomplished and the Central Oregon route improved through to Portland, the real value and benefits to result from the excellent system of highways in Klamath County for which the foundation and drainage has already been largely accomplished, will be apparent and greatly appreciated.

When the present County Court assumed office it had very few passable roads and a small and inadequate amount of machinery to work with. Such as was on hand was inferior and unsuitable to the task. The situation was like that of a man seeking to subdue wild sagebrush land with no tools and little money. In that case the only thing to do is always to get the proper tools and go to work with a will.

There was at that time a strenuous demand for road work in all

SAW HIS MONEY GO UP IN SMOKE

YOUNG MAN LEFT BURNING GARAGE IN SUCH A HURRY THAT HE LEFT HIS "ROLL" BEHIND HIM

Win McCoy, an employe of the Gordon & Baldwin garage of Lakeview, which was destroyed by fire a few days ago, lost quite a nice little "can of coin" at that time.

Win was filling the tank of an automobile with "gas" when in some way it became ignited, and in a flash the entire place was a mass of flame. The clothes he wore were blazing, and in his endeavors to escape from the place and extinguish the fire on his person he quite forgot to take his coat with him. The coat was hanging within a few feet of him at the time, and in the pockets of the garment snugly reposed over \$100 of good coin of the realm.

Win says that by the time he remembered the coin he didn't want it bad enough to try to get it.

Specialists curl and frill chrysanthemums before they are exhibited at shows, and in that way they are made to appear to the best advantage.

Mr. Brown left Klamath Falls this morning on his return to Yainax, where he has his vaqueros gather-

ing another installment of his fine beeves.

Who says these sons of the old time inhabitants are not proving their capacity for civilized industry? It is true that the Klamath reservation is today the finest grazing area on the Pacific Coast, but the Indians are not slow to take advantage of this fact, and it is well known that the cattle from the Klamath reservation are always top notchers in the market.

INDIAN SELLS STEERS

Brown Receives Over \$9,000 for 100 Head

Harrison Brown of Yainax substation, son of Mosenkose, who was in the early days the leading chief of the Sprague River Klamaths, and who was himself a young guard for Uncle Sam at Yainax in the Modoc War, has within the last few days sold about a hundred head of fine range steers for over \$80 a head, the sale aggregating over \$9,000.

Mr. Brown left Klamath Falls this morning on his return to Yainax, where he has his vaqueros gather-
