

ADAMS RAISES A BUMPER CROP ON LAND TAKEN FROM HIM TWENTY-FOUR YEARS AGO BY WATERS OF TULE LAKE

LOWERING OF LAKE LEVEL SIX FEET HAS UNCOVERED THOUSANDS OF ACRES

Survey is Now Being Made by Reclamation Service to Determine the Amount of Uncovered Land That Can Be Rented or Leased for a Period of Years—Will Some Day Be Thrown Open to Settlement.

Success of the method adopted by the reclamation service for the reclaiming of 25,000 acres of land covered by Tule Lake has been proved by the fact that with a lowering of the water level six feet there have been uncovered several thousand acres of land.

Included in this is a tract of over 2000 acres, belonging to J. Frank Adams, which was farmed by him prior to 1889. After that time the waters of the lake, gradually raising, covered the entire tract.

The sowing of the reclaimed land was not completed until the fore part of July of this year. This fall the grain raised on it averaged better than forty bushels to the acre.

The reclaimed shore land is outside of the first unit of the Klamath project, so Mr. Adams rented water from the reclamation service for its irrigation.

There have been a number of inquiries at the local land office of the reclamation service regarding leasing of the government lands uncovered by Tule Lake, especially by residents of the Malin Bohemian colony. With a view to allowing water users to lease these fertile acres, Engineer Cleghorn is making a survey for the service, to determine the extent of the area uncovered.

As soon as this data is secured, the reclamation service will take steps toward advertising to secure bids for the leasing of these lands for a term of years. Later this is to be thrown open to settlement.

The lands being reclaimed have been covered with water by the gradual raise of Tule Lake. By diverting the flow of Lost River into Klamath River, the reclamation service is lowering the water level of the lake.

The lands uncovered are exceptionally fertile, and are easily tilled, there being no tules or marshy places to be eradicated. Cultivation can start with no preliminary preparations.

Liberty Exposition Starts PITTSBURGH, Pa., Oct. 22.—Under the auspices of the East Liberty Business Men's Association, the East Liberty Exposition was opened today in Motor square Garden. The exposition will continue until November 1st.

An instrument resembling a watch has been invented in Hungary whereby it is possible instantly to compute the interest at any rate on any given sum of money for any length of time.

DEFICIENCY BILL LAW

Abolishes Commerce Court, and Ousts Officers

WASHINGTON, D. C., Oct. 22.—President Wilson today signed the strict deficiency bill, which abolishes the commerce court and re-joins from office over a thousand deputy revenue collectors, providing more funds for the Panama canal and other federal enterprises. "I am convinced after a careful examination that the offices of deputy

SCIENTISTS TO ORGANIZE HERE

MEETING WILL BE HELD THE LATTER PART OF THE WEEK, WHEN CHURCH OF CHRIST MAY BE INSTITUTED

A Church of Christ Scientists may be added to the religious organizations of this city, as efforts toward forming a congregation have been started by followers of Mrs. Eddy.

A meeting will be held later in the week, when organization plans will be discussed.

There are quite a number of Christian Scientists in Klamath Falls.

SHERIFF'S JURY CALLED BY LOW

INFREQUENT PROCEEDING IS DEMANDED BY PARTY TO AN ATTACHMENT SUIT, BUT MATTER WAS SETTLED AMICABLY

For the first time, perhaps, since cattle rustlers were summarily dealt with, a sheriff's jury was empaneled this morning by Sheriff Low, through Deputy Brewbaker.

The venire was summoned at the request of J. W. Newhart, defendant in an attachment proceeding instituted last night by J. E. Dodge. The jurors, prominent business men, were ordered to appear at the court house at 2 o'clock today.

Before the time set for the hearing, though, the suit was settled.

TEACHER'S FAVOR APPROPRIATIONS

AT INSTITUTE THEY VOTE AS ONE TO STAND BY THE STATE UNIVERSITY IN ITS FIGHT; ALSO FAVOR ANHILATION NORMAL

The teachers of Klamath county at their annual institute voted unanimously to stand by the University in its fight for the appropriation that is held up and which is to be voted upon November 6th.

The teachers also went on record as favoring the re-establishment of the Ashland Normal School. It was felt that Klamath county is in need of trained teachers, and that Southern Oregon is entitled to one school for training teachers.

Will Develop Radium Mines

The announcement of T. Coleman du Pont that he will develop what are believed to be radium mines in Colorado has interested her citizens. Mr. du Pont is head of the largest powder company in the world. He is the backer of the great building project on the site of the burned Equitable structure in New York.

H. G. C. Thofehru, a radium expert of Paris, who is in Denver as the representative of Mr. du Pont, said:

"Mr. du Pont intends to produce radium and by-products for philanthropic purposes only, and will put the material in reach of all the people. Colorado stands a chance of producing a large part of the world's supply. In fact, it is actually one of the main producers now."

"I have seen at the shaft house of the German Belcher mine at Central City more than 140 tons of high grade pitchblende ore. This mine, with the Wood mine and others, has been bought by Mr. du Pont. He intends to build a plant to produce radium close to his mines."

DRY FARMERS IN OKLAHOMA TODAY

THREE FOREIGN NATIONS REPRESENTED AT BIG CONGRESS; BIG DISPLAY FROM ALL OVER AMERICA.

TULSA, Okl., Oct. 22.—Thirty-three foreign countries, together with the United States and Canada, were represented by exhibits today when the eighth annual International Dry Farming Congress opened to continue through November 1st. The premium lists aggregated approximately \$15,000.

At its last session Congress appropriated \$20,000 for a complete exhibit by the United States Department of Agriculture, particularly with reference to work in the western states. Governors of twenty states have accepted invitations and President Wilson and the governor-general of Canada were invited to attend.

Tulsa has made arrangements to entertain 10,000 accredited delegates and 100,000 visitors during the eleven days of the exhibition. Several new hotels were built to accommodate the influx of delegates and visitors. All Oklahoma has rallied to the support of Tulsa in holding the big exposition and nearly every county in the state today is participating in the event.

China has an exhibit under the supervision of Minister of Agriculture C. S. Ashan, and Russia, South Africa, Australia, Turkey and several other foreign countries named special delegates to take charge of the respective exhibits.

A knife with six blades radiating from a hub, pressed down by a handle governed by a spring from a supporting bracket, has been invented for cutting pies evenly in restaurants.

MARSH LAND MEN WILL MEET SOON ON GATE CLOSING

ENCOURAGING LETTER RECEIVED FROM SINNOTT

As Soon as Drafted Form of Bond is Received, President Mason Will Call a Meeting of the Members of the Association, at Which Time Action Will Be Taken Regarding the Closing of the Headgates

Members of the Lower Klamath Marsh Land Owners' Association feel greatly encouraged, following the receipt of a letter from Congressman Sinnott, stating that he and Baker have taken the question of closing the gates up with the department of the Interior.

The letter follows:

"Judge Baker and I yesterday had a two hours' conference with Acting-Secretary Jones, W. C. King, attorney for the reclamation service, and Engineer Davis of that service, relative to securing the closing of the gates you wrote me about on September 5th. I am encouraged over the result of this conference, and I think it will result in modifying some of the harsh restrictions in his proposition to your association on July 21st.

"The acting secretary expressed a willingness to permit the gates to be temporarily closed against the coming high water, but he suggested that a bond be given to save the government from any damage which may possibly be done to the Van Brimmer ditch and the riparian owners; and requested that Judge Baker and myself co-operate with Mr. King and Engineer Davis in drawing a suitable bond to protect the government from the above mentioned damage.

"From the attitude of the acting secretary, Judge Baker and I are very hopeful of securing some substantial concessions in the matter of closing the gates. You may rest assured we shall do all in our power to expedite an early conclusion of this matter."

"As soon as the form of bond is received I will call a meeting of the members," said President Mason of the association today. "If we find the conditions to be what we think they should be, we will sign the paper, and have the gates closed."

An Open Letter to Taxpayers

By the County Court

Up to this time we have dealt, in this series of letters, with the proposed plan for a system of good highways in Klamath County. We have outlined what roads we consider necessary for the proper and logical development of Klamath County. We have mentioned the benefits that will accrue to Klamath County from the improvements of her highway system—both economical and social. As most everyone realizes, this has been preliminary to the proposal of a bond issue under the new law in order that the people of Klamath County may realize these benefits we have been talking about, through the improvement of the particular highways we have been talking about.

This series of frank talks was to lay the foundation for the proposal that we vote bonds and is in line with the policy of the County Court to discuss frankly with the taxpayers of this County what it has in mind so that the people who put us in office to represent them may know exactly what we are planning to do before we do it.

We had intended to launch our definite campaign for a bond issue with the letter that appears today. But we deem it best to digress a little at this point to tell you some things that perhaps all of you do not understand and to clear the atmosphere, as it were, of much dry rot that has been carefully thrown into the air in an effort to injure the efforts of the members of the County Court in their plan of permanent improvements in

Alfred Lawson, Aeroplane Commuter

Alfred W. Lawson, publisher of New York, has come to the conclusion that he ought to reach his New York office from his home in Long Branch in less time than the railroads have been in the habit of carrying him. So, like Mr. McCormick of Chicago, he learned how to aeroplane. Then he bought a hydro-aeroplane and started for New York city.

With his mechanic, Mr. Lawson got comfortably seated in his flyer, gave the motor a shove, and was off for the city. In six seconds, he says, the boat left the water. Rising immediately to a height of 1,000 feet, this lone commuter of the air was speeding along at a pace of 55 miles an hour. Then he rose another 1,000 feet and passed over the Narrows like a streak.

He dropped a thousand feet as he neared Manhattan, and shot up the North River. He intended to go to the Home Boat Club at 141st street. The machine reached Seventy-ninth street, when, bang! the propeller broke and the machine began to settle, but soon under control, it glided gracefully to the surface of the water.

MERRILL MAN IS OPERATED UPON

DR. HAMILTON ASSISTS RESIDENT DOCTOR IN REMOVING APPENDIX OF AUGUST COCKA THIS MORNING

(Herald Special Service) MERRILL, Oct. 22.—Dr. Patterson, assisted by Dr. R. R. Hamilton of Klamath Falls, this morning operated upon August Cocka, aged 27.

The operation was to remove the young man's appendix. This afternoon the patient is in a serious condition.

The case developed suddenly, and when Dr. Patterson was called this morning he found it at an acute, dangerous stage. He hastily summoned Dr. Hamilton from the county seat.

WILL SPEAK AT MILLS ADDITION

MRS. WHEELER DELIGHTS AS WELL AS IMPRESSES AUDIENCE AT GRACE M. E. CHURCH, MERRILL TOMORROW

Mrs. Eva Wheeler, national W. C. T. U. lecturer, intermingled fun and facts in a delightful harmony at Grace M. E. church last night, the result being a telling broadside into the ranks of the Demon Rum. A large audience attended.

This evening, she will hold a meeting at Mills Addition hall. Tomorrow she goes to Merrill to carry on work.

Out Distributing Supplies. Sheriff C. C. Low, accompanied by his wife, Judd Low and Mrs. Stella Low, left today for northern Klamath county to distribute election supplies. He will go as far as Crescent before returning.

Big Dance Coming. Dancing will not be the only form of amusement at the Halloween party to be given by the Ladies of Sacred Heart church in Moose hall. Cards will also be played, and refreshments will be served. The Tindall orchestra will furnish music.

MEXICAN VOTING WILL BE FARCE, SAY FOREIGNERS

HUERTA WILL CONTINUE TO DOMINATE, THEY SAY

Bloody Dictator's Henchmen Are in Charge of the Various Offices in Connection With the Election. Anti-Foreign Feeling Said to Be Growing, and Huerta is Thought to Be Secretly Stirring It.

United Press Service MEXICO CITY, Oct. 22.—The vote at Sunday's general election will be extremely light, say foreigners who have studied the situation. Huertista troops are in control of all the election machinery.

United Press Service

WASHINGTON, D. C., Oct. 22.—Government officials expect the Mexican elections will be farcical to the extreme. They believe that by holding them, Huerta is adding to the dangers besetting the foreigners.

There is some apprehension that none of the candidates will receive a constitutional majority. There are five seeking the presidency.

In this event it is believed that Huerta will continue as dictator. Such a result might precipitate a demonstration sufficient to demand immediate action.

Wilson's policy of non-interference will be changed only in case of serious outrages toward foreigners.

Dispatches indicate that the anti-American feeling is still growing, and emphasize the extreme gravity of the situation. Secretary of State Bryan shows his apprehension by frequent conferences, and he states that a complete line of action has been decided upon. This plan has not as yet been announced, but it has been learned that if necessary the army and navy can be ready at a moment's notice.

United Press Service

VERA CRUZ, Oct. 22.—Feliz Diaz arrived in this city this morning, and was greeted at the pier by a large crowd. There was no demonstration, however, as the crowd had been warned that any undue demonstration would be checked by bullets from Huerta's troops, which command the wharf.

Wetterberg Better.

Herman A. Wetterberg, who has been ill for several weeks with typhoid fever, is convalescent to the stage where he is able to be up for a short time each day. Mr. Wetterberg is wire chief for the local telephone company.

Archie Henline, the photographer, and Chas. Mashburn of the Golden Rule Store, autographed Yalnaz Tuesday, where Mr. Henline has a number of photos to deliver. Mr. Mashburn, like the coon preacher, "took his gun along," and expects to "shoot himself some very nice quail and one po' moassy bar."

The contour of a new German hydro-aeroplane closely resembles a racing motorboat.

THAW CASE UP IN N. Y.

New Governor Orders Investigation of His Escape

United Press Service NEW YORK, Oct. 22.—Governor Glynn today formally ordered a grand jury investigation in New York county of the escape of Harry Thaw from the Matteawan asylum for the criminal insane.

Attorney General Carmody has re-appointed William Travers Jerome as a special deputy attorney general. Supreme Court Justice Gavigan

administered the oath to the grand jury, and Prosecuting Attorney Whitman plans to sidetrack everything in order to rush the probe to an end.

It has been asserted that the plot which succeeded in accomplishing the escape of Thaw from the asylum was hatched in a West Side saloon, and forty or more witnesses have been subpoenaed to appear before the inquisitorial body.
