## Items of Interest to Shippington Residents

**(Herald Special Service)**  
SHIPPINGTON, Oct. 27.—Captain Wickstrom of the Modoc and his wife are among our most interesting neighbors. They are people who have traveled much. To hear the madam talk is like listening to the recitation of a romance. In company with wealthy parents she has visited the great capitals of the old world; has walked through the aisles of Westminster, through Notre Dame de Paris, been at Naples, on the Arno, on the Alps, far-away Tasmania, New Zealand and the islands of the sea. Mrs. Wickstrom has twice visited Jerusalem and the Holy Land, her first trip being made on the back of a camel. She has many interesting pictures of that land sacred in story and song.

At last the powers that be hint that shooting in the city limits must cease. This hint is almost too good to be true, but if there is no mistake about it the people along the Buena Vista water front will thank the wardens and lay aside the pieces of old smoke-stack in which during the past five falls they have crawled for safety on Sundays.

It is asked that things go a little further, and there is a talk of a petition to Sheriff Low, asking him to

hang the criminal who shoots up the signs and guideboards on all sides of the town. Anybody mean enough to do such things ought to be hanged.

Red McCoy, the veteran marshal of Sisson, is now a resident of Shippington. Mr. McCoy has two young sons employed in the box factory at this place, and he has taken up his residence here, so as to be near them. McCoy was marshal of Sisson when it was one of the toughest towns on the Pacific Coast.

### Raising fine fruit.

H. Snowgoose, justice of the peace for Plevna Precinct, and one of the county's substantial pioneer citizens, came in from Keno Monday to attend to business matters. The Judge ingratiated himself with the Herald staff by presenting a liberal quantity of sugar prunes, raised at his place near Keno. The fruit is splendid in appearance, and for flavor it surpasses anything that has ever been imported from other places. Besides the prunes, Judge Snowgoose also raises with success apples, pears, cherries and plums.

## Clever Dancers at the Star Theater

Lee and Chandler, the merry pirouettors on the boards of the star theater this week, last night "Texas Tommed" their way straight into the hearts of the largest that ever crowded into the Star theater. Their work is snappy and full of ginger; their songs are tuneful and their dialogue stuff comes smooth and spontaneous. Their act changes tomorrow night

with the pictures, when they give an interpretation of the Tango dance. Saturday night they do the prettiest of all the new terpsichorean stunts—the dainty bare-foot dance. Miss Chandler has appeared here before, and always pleases her audience. Miss Lee is filling her first engagement in this city, but her work is such that insures her a hearty welcome here in the future.

## Town Topics

**W. C. T. U. Meeting.**  
The regular meeting of the W. C. T. U. will be held at 2:30 Tuesday afternoon at Mrs. Luella Stearns, on West Main street. A cordial invitation extended to all.

**To Portland.**  
Judge George T. Baldwin has gone to Portland to attend to business matters.

**Home From Trip.**  
Fiscal Agent C. C. Hogue of the

reclamation service and Mrs. Hogue returned Sunday from a fortnight's visit to Portland, Albany, Salem and other Willamette Valley points. Both appear to be greatly benefited by their vacation. Mrs. Hogue left here some time ago, visiting relatives in California cities.

**Three Men in a Boat.**  
Charley House, proprietor of the United Iron Works, Andy Collier, bookkeeper in the First National bank, and Warren Duhl of the Herald cruised the Upper Klamath Lake Sunday in the "Speed King," the fast motor boat built by Mr. House. The party made Eagle Ridge Tavern late

Saturday night, where they remained till after an early breakfast Sunday morning, leaving shortly after for the duck shooting in the rules at the mouth of Williamson River. Unlike the "Three men in a Boat" in Jerome K. Jerome's story, this party did not have to resort to muskrat stew, for they motored back to the Tavern and feasted on roast duck with wild plum sauce. Collier claims to be the best shot of the party in that he made the ducks fly faster than the others could. The "Speed King" made the trip from the tavern to lower landing in record time, and at no time on the trip did she give the slightest trouble.

### Visiting Schools.

Superintendent Fred Peterson left today for Crescent and La Pine on an inspection tour of schools. He will go by way of Port Klamath and look after the school work there.

### Mitchell Man Here.

C. L. Howe, secretary of the Mitchell-Lewis-Staver company of Portland, is in the city today conferring with W. T. Lee, local agent of the Mitchell car.

### Auto to Tule Lake.

Mr. and Mrs. Leland Mosier, Claud Maxwell and Philip J. Sinnott comprised an automobile party that journeyed to the government headquarters on the Adams canal enlargement work near Tule Lake Sunday. After a few hours of duck hunting, the party enjoyed dinner as the guests of Engineer Willard Smith and wife.

### It's a Boy.

An eight-pound son arrived last night at the home of Mr. and Mrs. O. R. Meissner. Mr. Meissner is connected with the Farmers' Implement and Supply House, and the family resides in Mills addition.

### No Woman Policeman

Owing to the fact that the city has no funds available, the council has decided that it can not add a woman policeman to the force. A number of the ladies of the W. C. T. U. appeared before the officials, and with Mrs. Wolfe as spokesman, asked that a police matron be provided. The council listened in silence, and after the women were gone decided that funds were not available.—Corvallis Gazette-Times.

When the doors are thrown open November 18 at the great Chicago land show, the Rogue River Valley will be prepared to show the multitudes an exhibit second to none of her annual harvest of fruits and vegetables.—Medford Sun.

## This Year's Grain Crop in Klamath County Is Estimated at One Million, Two Hundred Thousand Bushels

One-third more grain has been produced in Klamath County this season than has ever been produced before. This has been due mainly to the fact that we have in the last twelve months had quite an influx of new farmers. Within the next year there will be a great many more farmers coming into this county. This will mean increased business in the city of Klamath Falls. More business houses will be required to cope with the increase of trade. More workmen will have to be brought in. These workmen will require homes to live in. Property values will increase with the increased business. We have some choice locations which can be bought at a reasonable price on easy terms. Why not buy one of these lots, build on it and assure yourself of from 15 to 30 per cent interest on your investment? This is an opportunity to let your money make money. Why not take it? Call at our office for information as to good building locations.
