LABORITES ARE AT SEATTLE

(Continued from page 1)

that capital would take advantage of such legislation, and make the minimum standard also the maximum. This contention was answered by the claim that only by setting some standard can women workers gain a fair wage under the present labor conditions.

Growth of the Industrial Workers of the World movement did not alarm the leading delegates, and they declared that this new labor sect, preaching syndicalism rather than persuasion, had not assumed dangerous proportions, and had interfered only in some instances with workers who preferred to join unions. President Gompers and the executive council today presented to the convention a report of work in the past year and recommendations for the future.

Leaders present today from the Washington headquarters were President Gompers, Secretary Frank Morrison, President James O'Connell of the Metal Trades department; Secretary A. J. Borres of the Metal Trades department; Secretary T. F. Tracy of the Union Label Trades department, and President John Golden of the Textile Workers Union.

WORK ON LIBRARY WILL VISIT IN THE OLD COUNTRY

CARPENTERS ARE BUSY ERECTING FORMS FOR THE CONCRETE—IS TO BE UNDER ROOF THIS WINTER

Work on the \$24,000 Carnegie library building was started in earnest this afternoon, when a force of carpenters commenced the building of the forms for shaping the concrete walls of the structure.

This work is to be pushed forward with all possible speed. It is the intention of the county court to have the building under a roof before the bad weather sets in. This will make it possible for carpenters, etc., who would otherwise be idle, to be employed all winter long.

Will Visit City.

Mrs. J. Granis, who has been troubled with carache for some time, is much improved, and will leave the later part of the week for a visit with relatives in San Francisco.

ALFRED CARLSON AND FAMILY RETURN TO THEIR OLD HOME IN SWEDEN FOR A LENGTHY VISIT

Alfred Carlson left Sunday for Portland, where he will join Mrs. Carlson and daughter. From there they will go to Sweden, their former home. Mr. and Mrs. Carlson expect to be away two years or more.

For several years Mr. Carlson has been millwright at the Big Basin Lumber company's West Side sawmill. He has a fine residence on West Main street.

A recent estimate places the total number of miles of single track railroad in the United States that have been changed from steam to electricity operation at about 1,600, and the same authority finds that approximately 1,500 miles of single track railroad will probably during the next few years be subjected to the same change.

 Mrs. S. C. Campbell.

October 21—I have just called on Dr. Gray at the Hotel Hall, and took the Vitalized Air, and he extracted several very bad teeth for me, which I have been dreading for years. I can truthfully say that I felt no pain at all, and no bad effects afterward, and I gladly recommend this wonderful painless method to all.
 Mrs. Alice A. Lindsay.

November 3—Dr. Gray extracted some very bad teeth for me, using Vitalized Air. I felt no pain at all during the entire operation, and gladly recommend him to all.
 Harry E. Polts.

October 29—I just called on Dr. Gray at the Hotel Hall and had eight very badly broken and sore teeth extracted by the use of Vitalized Air, without the least pain. It was really more pleasure than a dread. I can cheerfully recommend his painless system.
 Mrs. Annie Doak.

This Year's Grain Crop in Klamath County Is Estimated at One Million, Two Hundred Thousand Bushels

One-third more grain has been produced in Klamath County this season than has ever been produced before. This has been due mainly to the fact that we have in the last twelve months had quite an influx of new farmers. Within the next year there will be a great many more farmers coming into this county. This will mean increased business in the city of Klamath Falls. More business houses will be required to cope with the increase of trade. More workmen will have to be brought in. These workmen will require homes to live in. Property values will increase with the increased business. We have some choice locations which can be bought at a reasonable price on easy terms. Why not buy one of these lots, build on it and assure yourself of from 15 to 20 per cent interest on your investment? This is an opportunity to let your money make money. Why not take it? Call at our office for information as to good building locations.

The Oregon House is the most home-like place in Klamath Falls, and it isn't necessary to say a word about the table.
