

ANOTHER STORM IMPEDES SHIPS SEARCHING LAKE

THE LIST OF DROWNED WILL GO OVER THREE HUNDRED

Wreckage of Three More Large Steamers Found Today—Boats Were Five Days Overdue, but Officials of Their Company Believed They Had Found Refuge—Present Gale Wrecks Another Boat

United Press Service CLEVELAND, O., Nov. 14.—Another strong gale blowing on Lake Superior has forced to port all vessels that have been doing rescue work since the storm of the first of the week.

This second gale last night caused the wooden steamer Major to sink off Whitefish Point. The crew of eighteen was saved.

The list of fatalities from Sunday's storm is increasing hourly. It is now estimated that 200 are dead, and the bodies found may exceed this number.

It is known that 181 men perished on eleven vessels.

Sixteen of the biggest steamers are known to be lost. Each carried a crew of at least twenty. Besides, there has been found the wreckage of at least a dozen smaller craft.

Wreckage of the Argus, Hydrua and Scott was found today. Each vessel carried a crew of 23 to 25.

The boats were five days overdue. The owners believed that they had harbored in safety.

MRS. HOOVER IS ALSO RELEASED

EVIDENCE INTRODUCED DID NOT PROVE THAT HOOVER OR WIFE HAD FORGED A CHECK ENDORSEMENT

Following the dismissal of the charge of forgery against Frank Hoover, a Klamath Indian, Friday, Justice of the Peace Gowen dismissed the same charge resting against Mrs. Hoover.

The evidence introduced failed to show that Hoover had endorsed a check given to Kildy Chiloquin last March by Lee Denton. This check was cashed at a local store, after its payment had been stopped.

Hoover was dismissed upon motion of his attorney, W. H. Shaw. H. W. Keese, who appeared for Mrs. Hoover, also asked for a dismissal, and this was recommended by prosecuting Attorney Irwin.

Big Basin Has New Camp

Concern Has Leased Ackley's Railroad at Keno

(Herald Special Service) KENO, Nov. 14.—A new logging camp has been established near here by the Big Basin Lumber company, and a big crew of men is at work getting from the forests to the water the embryo houses.

The company has taken a lease on the railroad owned by the Ackley Brothers Lumber company. This extends from the river a distance of three miles into the mountains.

A donkey engine and twenty head of horses are used to draw the logs from where they are felled to the

U. S. G. S. ACTIVE IN THIS COUNTY

HYDROGRAPHER FROM PORTLAND OFFICE WILL ESTABLISH GAUGING STATIONS FOR THE INDIAN SERVICE

For the purpose of going over the work in Klamath county, Hydrographer Randall of the Geological survey is here from Portland. He will remain a couple of weeks.

While in the county Mr. Randall will establish gauging stations on Sprague River and Sikan Creek on the Klamath reservation. These are for the benefit of the Indian bureau, which is building a project to irrigate a large acreage.

TAFT LOSES 100 LBS. IN WEIGHT

FORMER PRESIDENT CALLS AT THE WHITE HOUSE AND WOODROW SHOWS AWAY EVERY OTHER CALLER

United Press Service WASHINGTON, D. C., Nov. 14.—William Howard Taft, 100 pounds lighter than when he left the White House, called at the executive offices today to pay his respects to Woodrow Wilson, who immediately side-tracked every one else and welcomed the visitor, who remained but a brief time.

Taft, who is here to lecture at the National Geographical Society meeting, warmly congratulated Wilson on the success of the administration.

FAMOUS JOCKEY HIT BY A TRAIN

TOMMY BURNS, TEN YEARS AGO THE PREMIER JOCKEY OF TWO CONTINENTS, KILLED TODAY IN GOTHAM

United Press Service NEW YORK, Nov. 14.—Jockey Tommy Burns was killed this morning by an elevated train in Brooklyn.

In his pockets were found a contract to ride at the Berlin races, \$500 in American money and considerable German currency.

Burns was at one time the crack jockey for the Whitney stables, and in 1897 he rode 261 winners.

It was impossible to determine whether Burns committed suicide by jumping in front of the train, or fell by accident.

Blanquet, Right-Hand Man of Huerta

If President Huerta of Mexico fails, General Blanquet, who was in charge of the troops who invaded the National Palace in the bloody days which led to the end of President Madero, may succeed him. This is a photograph of Blanquet in the field with his troops. He has taken a seat on a log for the moment to figure out a military maneuver. Blanquet is believed to be as desperate as is Huerta, though he may lack the cunning and the calmness of the presidential candidate. He is a rough and ready soldier, who believes—as do many of the Americans who have investigated—that the only way to govern Mexico is with the mailed fist. The methods of Porfirio Diaz, according to him, are to be employed in the same way.

"THE SHASTA" CHANGES HANDS

F. J. PIGGRAS SELLS OUT TO MEN WHO HAVE BEEN IN THE SAME LINE OF BUSINESS FOR SOME TIME AT ROSEBURG

A deal that has been under way for several days was closed Thursday when D. H. Lenox and A. E. Kent purchased from F. J. Piggras the Shasta candy and ice cream parlors.

Mr. Lenox is an experienced man in the candy business, having conducted a candy kitchen in Roseburg for six years. Mr. Kent has had many years experience in the cigar and tobacco business, which will be a valuable asset in the new enterprise, as the Shasta carries a complete line of cigars and tobacco.

Both gentlemen are favorably impressed with Klamath Falls and are confident of its future.

Frank J. Piggras, the retiring proprietor, will assist the new owners for a week or so till they have full grasp on the business, after which he and his family will go to California for the winter.

SCHOOL KIDS IN FOOTBALL GAME

WINNER OF TODAY WILL BE ENTITLED TO SECOND HONORS IN THE SCHOOL FOOTBALL TOURNAMENT

Two picked teams from the Central school are holding a gridiron contest this afternoon on the Modoc Park grounds. This contest is to decide the honors for second place in the grades football league. The teams will kick off in the following line up:

- Lester Sparks Team: Center, Robinson; Left guard, Dow; Quarter, Shipley; Right guard, Bodenhamer; Right tackle, Wright; Left tackle, Arnold; Left end, Hygeck; Right end, ...

DICTATOR WILL RESIGN, STATES THE PRESIDENT

ADMINISTRATION REMAINS RETICENT STILL

Dispatches Received From American Representatives in the Southland Are Said to Declare Huerta Sees the Futility of Trying to Hold the Fort in the Face of the Powers Making Objection

United Press Service WASHINGTON, D. C., Nov. 14.—President Wilson and Secretary Bryan are still reticent regarding the Mexican situation.

They say they are well satisfied with the way plans are working. A premature publication of some developments, in their minds, would prove a boomerang.

Government officials are confident that Huerta will retire. Nothing will be divulged as to how and when this will be finally brought about.

Dispatches from O'Shaughnessy and Lind indicate that the dictator has decided that it is impossible for him to defy the powers.

It is believed that he will agree to mediation and an armistice, pending a nation-wide election.

An Open Letter

By the County Court

Up to this time we, as a County Court, have discussed the question of good roads exhaustively. We have reviewed thoroughly the work we have done and have pointed out the new way that such work may be accomplished.

We have told you about the excellent plan the last Legislature provided, namely that of the bond issue, which is much better than the old way of building roads by the warrant route. We have spoken of the outlets that the county needs and the plan we think should be adopted in order that Klamath County may retain her position in the front rank of counties throughout the State in the matter of road construction. It is not possible to do more at this time.

The County Court of its own volition can not put this question of bonds on the ballot or call a bond election. The people themselves are the only agents who can accomplish this. There are two ways in which it can be done.

First—A petition to the County Court signed by one-twentieth of the registered voters as numbered at the last election, stating the amount of money to spend, the roads upon which it is to be spent, etc. Upon presentation of this petition, the County Court MAY put the matter up to a vote and call a bond election.

Second—Upon presentation of a petition signed by 25 per cent of the legal and registered voters of the county, the County Court MUST put the question on the ballot and call an election.

The County Court can do nothing until you direct, and we now await your pleasure. We feel that we have done our duty in discussing from every viewpoint and angle this great question of road construction. If you wish us to follow the new method we shall be more than glad to serve you and shall await your expressions of desire and commands.

We are only your servants and can proceed only as you direct. The matter now is entirely in the hands of the people of Klamath County.—Advertisement.

A record session of chess was held recently in a game between Frank J. Marshall, the American champion, and O. Duras, the Bohemian champion. Marshall won after a ten hours contest, in which the loser took forty-eight minutes for the consideration of one move.

A youth named Abdul Latif was arrested at Calcutta for having climbed up a water pipe 120 feet long in order to hold converse with his sweetheart.

The British government is considering an auxiliary motor boat reserve for service in case of war.

FOOTBALL GAME TOMORROW P.M.

MERRILL AND KLAMATH COUNTY HIGH SCHOOL ELEVEN WILL MEET FOR THE SECOND GAME THIS SEASON

Some hard fought football contest will be the spectacle at Modoc Park tomorrow afternoon, when the Merrill high school eleven marches on the field in an endeavor to revenge themselves on Klamath county high school.

A few weeks ago K. C. H. S. invaded the Alfalfa city and gave the locals a bad drubbing. For this they asked a chance to even matters, and this was granted.

Both teams have been practicing hard for the game.

SAYS HE CAN CHANGE SEXES

SCIENTIST IN REPORT GIVEN OUT TODAY DECLARES HE HAS PROVEN THIS WITH HIS EXPERIMENTS

United Press Service VIENNA, Nov. 14.—That he has succeeded in changing the sex of animals through transplanting certain glands from the male to the female, and vice versa, was the somewhat startling announcement made today in a public address by Professor Steinach.

In other words, Professor Steinach says he has made female animals into males and male into female.

To prove his statement he showed animals which he declares he has changed the sex. He declared that placing the male glands into female animals, changed the entire nature of the latter, and vice versa.

He believes that similar operations are possible on human beings.

TRIAL DIVORCE IS THE LATEST

SWEDISH LAWMAKERS PLAN TO MAKE MEN AND WOMEN HAVE EQUAL RIGHTS UNDER NEW LEGISLATION

United Press Service STOCKHOLM, Nov. 14.—To bring divorce within the reach of the poor, and to place women on an equality with men in the marriage relation are the principal objects of a new marriage bill today submitted by the United Parliamentary committees of Sweden, Norway and Denmark, to the respective parliaments.

The measure provides for a sort of "trial divorce." Each divorce must be preceded by a period of legal separation.

Various conditions are laid down whereby it will be found convenient and expeditious for candidates for matrimony to provide themselves with medical certificates.

Minors may not marry without the consent of both parents, and no girl under 18 years of age may marry.

Aviator Killed MANILA, Nov. 14.—Lieutenant C. Perry, a wealthy aviator attached to the Philippine Scouts, while hydroplaning about the Asiatic squadron, anchored in Manila bay, fell into the water and was killed.

A lighthouse on the south coast of the Isle of Wight has been equipped with a revolving light of 15,000,000 candle power.

The British government is considering an auxiliary motor boat reserve for service in case of war.

PRESIDENT ASKED TO TAKE ACTION IN ESPEE STRIKE

SOUTHERN SENATORS SAY IT MEANS RUIN

Executive Assures Texans That Department of Labor Will Do Everything Possible to Bring About Settlement—Union Men Say Strike Will Spread All Over the Southern Pacific System.

United Press Service WASHINGTON, D. C., Nov. 14.—Senators Randall and Thornton of Texas today appealed to President Wilson to take immediate action toward settling the strike on the Eastern division of the Southern Pacific.

The senators told Wilson that if the strike continues for any length of time, the industries of the state of Texas will face ruin.

The president informed the Lone Star legislators that the department of labor will do everything possible to bring about a quick settlement.

United Press Service HOUSTON, Nov. 14.—Union men today intimate that the strike will spread all over the Southern Pacific system unless there is a quick settlement. They say they will not mediate now, and insist that the company deal with them as the United Brotherhood of Railway Trainmen.

The company is preparing to operate trains with office men who have risen from the ranks. Strikebreakers and supplies are being secured.

A single train has left here since the strike started. The strikers are drawing \$40 and \$50 monthly benefits.

HECTOR OPENS A STORE AT AGENCY

INDIANS DRIVING CATTLE TO WINTER PASTURAGE — WILL CRUISE TIMBER—OTHER NEWS OF RESERVATION

(Herald Special Service) KLAMATH AGENCY, Nov. 14.—G. M. Hector of Klamath Falls is now keeping a store here. We wish him luck and success in his new location.

Don W. Ryan and wife were visitors on the reservation Saturday. They came down in their auto, returning home the same day.

J. M. Bedford, forest supervisor on the reservation, leaves Monday with (Continued on page 4)

Indians Get Good Cows

Five Hundred Head of Durhams and Herfords Sold

(Herald Special Service) KLAMATH AGENCY, Nov. 14.—Superintendent Edson Watson, with the assistance of Mr. Miller and men representing Bill Hanley, Thursday completed the distribution of the latest shipment of blooded cattle to the Indians on this end of the reservation.

There were 500 head loaned out to the local Indians. These are all the best strains of Durham and Hereford.

The largest number taken by an individual Indian was fifteen. The others mostly took five cows. The Indians who received cattle in the distribution will pay for them in seven years time.

The Klamath reservation farmers now have as fine cattle as will be found any place, and the additions just received will soon make the livestock industry one of the leaders here.

The steers from the reservation have always been noted for their size and good condition. They are all fattened on grass, with no other kind of feed.

In addition to the cattle distributed here 500 head have been sent to Yainax sub-agency to be distributed in that section. Superintendent Watson and assistants and a government inspector went there last night to give out the cattle.
