

# 'Spugs' to Wage Big Campaign This Year

NEW YORK, Nov. 14.—A country wide appeal for the abolition of the useless Christmas gift and a plea for intelligent and thoughtful giving instead were voiced recently by Mrs. August Belmont, president of the Spugs, at the opening meeting of the 1918 campaign to be waged by that organization against insincerity, competition and waste in Christmas giving. At this meeting the membership rolls of the Spugs—the Society for the Prevention of Useless Giving—were thrown open to all residents of the United States who might want to enroll against the foolish Christmas gifts.

Mr. J. Borden Harriman presided at the meeting. Mrs. Belmont was the orator of the evening. The original purpose of the society, she said, was to prevent compulsory giving by girls in stores and factories to their employers, the custom of collective giving which the girls felt they could not afford, but which they could not

avoid without embarrassment and positive loss of their positions.

This was one of the chief objects of the society, she added, but not the only one. Another prime end sought, she said, was a general cultivation by all classes of givers of more thoughtfulness and expression of personality in making Christmas gifts.

"We do not disapprove of collective giving when it is done on the spur of the moment," she said, "or for some particular cause, because then it means that you have collected a sense of human fellowship of which the money collected is but an expression. We do approve of it when it is for the man lower down instead of a man higher up.

"Some persons think that we oppose giving. Far from it. We do not oppose giving, but we advocate intelligent giving, if that is done with the Christmas spirit of good will, as distinguished from giving that is compulsory, from fear or with the hope of obtaining reward."

## Banker Is Sued for Big Sum

George G. Hays, the New York banker, holds the distinction of having been sued for more alimony than any one else in many years. Mrs. Hays demanded \$75,000 a year from him. He answered that he was un-

able to pay it because his funds had been depleted by the extravagances of his wife when they lived together. It has been reported, if Mrs. Hays obtains her divorce, Mr. Hays will remarry at once, but no announcement has been made.

For a state containing no seaboard, Arizona has a wider range of altitude than may be generally supposed. The highest point is San Francisco peak, 12,511 feet above the sea, and the lowest point is on Colorado River at Yuma, where the elevation is but 100 feet.

## No Inland City Has Started Out Under More Favorable Conditions as Has Klamath Falls

We have a lumber industry which alone is sufficient to support a city of one hundred thousand. We have enough first class agricultural land to make ten thousand 100-acre farms, much more than is keeping up some of the large cities of the Middle West. We have a fast growing dairying industry which will eventually make Klamath county the largest producer of dairy products in the state. Then we have our railroads, now under construction, which will, when completed, make this city the heart of a vast network running north, south, east and west. Klamath Falls will grow, property values will double before you realize it. Buy now. It means money to you.

#### A Good Showing

Dr. Patterson informs us that he has taken an option on 400,000 shares in the Hess mining property. He will probably take an option on another large block of stock. Dr. Patterson has sampled the mine at the different levels and had them assayed. The assays make a splendid showing, and if the lead reaches a depth, which now seems probable, the Hess will prove one of California's greatest producers. At the 215 foot level the ledge is ten feet wide, and the quartz appears to improve as depth is reached.—Alturas Plain-dealer.

#### At National Show

The Rogue River Valley will be represented at the Spokane National Apple show by a tea box display of prize Newtons from the Buckeye orchard, owned by Houston Brothers, in the Talent district. This is the second time the Houstons have shown their public spirit by a display at Spokane, and they set an admirable example for other orchardists, who, as a rule, are shy on making displays unless paid for by Commercial clubs.—Medford Mail-Tribune.

PAYTA, Peru, Nov. 14.—The American "commercial expedition" arrived here today on board the steamer LaMarri from Panama. The members, made up of delegates to the recent Southern Commercial Congress at Mobile, were accorded a royal welcome by the government officials and loyal citizens' committees. The expedition will leave for Eton and Pacas mayo late today.
