IF KIDNEYS ACT BAD TAKE SALTS

SAYS BACKACHE IS A SIGN YOU HAVE BEEN EATING TOO MUCH MEAT, WHICH FORMS URIC ACID

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well known authority. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood, and they become sort of paralyzed and laggard. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels; removing all the body's urinous waste, else you have backache, sick headache, dizzy spells; your stomach sours, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scalds and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days, and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness.

Jad Salts is a life saver for regular meat eaters. It is inexpensive, cannot injure, and makes a delightful, effervescent lithia water drink.

What the Tariff Will Do for Us

A Careful Study of the New Measure by an Expert

By BOND P. GEDDES
(Staff Correspondent of the United Press)

WASHINGTON, D. C., Nov. 17.—"Diet wise," and soon, too, to the new income tax, whether you are among the favored few with an annual income of over \$5,000 or not. This is the advice of the treasury officials today. Their net to cash in on the new tax is now being spread. It may cost you money if you don't understand and obey the provisions of the new law, even though you yourself may be exempt from its taxation. Most people believe that because they don't earn as much as \$5,000, they needn't pay any attention to the new law. This may prove a costly mistake. It affects vitally thousands of persons and business firms, in addition to the small minority with "swollen fortunes," who must pay the taxes.

For instance, if you rent a farm or a building for your business upon which the rental is over \$2,000, you, not the owner of the farm or building, are directly, financially liable to Uncle Sam for payment of part of the landlord's income tax every year. You must pay this tax to the government. You are held personally liable for it by Uncle Sam. You must "hold out" on your landlord the exact amount of the tax from your rent and pay it to the district internal revenue collector. This is a feature to which federal officials are attempting to direct popular attention today. They are not worrying about "tax dodgers." They do not fear that they will overlook or miss any taxes coming to your Uncle Samuel. But they do wish every person to know what he may be personally responsible for payment of some part of the new tax upon his landlord's rents or profits, even though the tenant himself is not taxable for one cent.

Today—right now—thousands of internal revenue collectors all over the country are compiling lists of persons who are probably liable for an income tax. The law provides that after November 1 persons who pay rentals, etc., aggregating over \$2,000 a year must begin to "hold out" the proper income tax of their landlord for 1913. This year taxes run from March 1; that is, the income tax is to be assessed for only ten months of 1913. Hereafter, the tax must be paid for the full calendar year. Here is how it will be collected:

Corporations, firms, partnerships, etc., must file sworn statements each year before March 31 of the fixed term salaries, wages, dividends, and the profits paid to each person during the preceding year in excess of \$3,000. Before June 1, the district internal revenue collectors will notify every firm, etc., of the exact amount of the taxes which must be paid before June 30, subject to the penalty of 5 per cent of the tax and 1 per cent additional monthly if further delayed. Three thousand dollars for a single person and \$4,000 for a married couple is exempt from taxation. That is, if you are a bachelor and earn \$3,600, you must pay 1 per cent taxes upon \$6,00—not upon \$2,600. If you are married and living with your wife or husband, as the case may be, you must pay 1 per cent upon all income over \$4,000—not on the first \$4,000. If you are on a fixed, stated salary, monthly or annually, your employer must deduct 1 per cent taxes on all income over the \$3,000 "bachelor" or \$4,000 "wed-

ded" exemption amounts. The penalty for failure to make a return by anyone who is not exempt is a fine of \$20 to \$1,000. A fine up to \$2,000 and imprisonment for not exceeding one year are the penalties for making false or fraudulent returns.

Uncle Sam will deal directly with the individual, too. Each person having a taxable income (less exemptions) must secure a blank form from the revenue collector's office, and, under oath, state his net income. He will be notified of the proper tax by the collector. Notices warning all persons whose incomes are over \$2,000 to secure the printed blanks will soon be posted in every postoffice and federal building. To ascertain whose incomes are taxable, the collector will check up by having access to bank and corporation books, with sworn statements of dividends from corporations. The collectors are now compiling lists of "prospects"—persons believed to earn over \$2,000. Tenants, corporations, firms, etc., who "hold out" taxes "at the source of earning" are responsible only for the flat, straight rate of 1 per cent upon all incomes over \$3,000. The added tax rates upon incomes over \$20,000 must be disclosed by the individual himself. Each person with an income of over \$20,000 subject to the "sliding scale" of increased taxes upon big incomes must make a personal, sworn statement to the collector. Corporations are not responsible for taxes in excess of 1 per cent. Uncle Sam himself will see to collecting the extra taxes on the bigger incomes.

But most of us "should worry" about paying income taxes. Framers of the law figure that only 500,000 persons get into that class. Of these, it is estimated that 75,000 receive between \$2,000 and \$4,000; 125,000 between \$4,000 and \$5,000, and 175,000 between \$5,000 and \$10,000.

They calculate that 2,500 lucky ones receive between \$100,000 and \$250,000; 550 between \$250,000 and \$500,000; only 350 between \$500,000 and \$1,000,000, and only a skimpy 100 over \$1,000,000. By the time the new law gets into full effect in 1915, with every income taxpayer corralled, it is estimated that \$83,673,000 will be received annually from the income tax and \$40,000,000 extra from the 1 per cent tax upon corporations' earnings. Foreigners who reside and earn money here must pay the new tax, while "expatriates"—Americans living abroad—must also pay the tax upon dividends and other profits received upon investments here.
