

# Hammond's First Sale

## CLOSING OUT ALL WINTER GOODS

Store  
Open  
Evenings

Follow the crowds. They are all going to Hammond's First Sale. Wherever people congregate Hammond's First Sale is the topic of conversation. Those who have been here are telling their friends of the mammoth bargains. Any reduction whatever from our regular prices constitutes bargains, because our regular prices were very reasonable. We did not mark the goods up before marking them down. We have no special sales manager. The 10 per cent he would get is taken off the goods and you get the benefit. Come and see what a real genuine sale means in the way of buying opportunities.

This big stock of new winter goods is not going to be carried over.

### GLASS OF SALTS CLEANS KIDNEYS

IF YOUR BACK IS ACHING OR  
BLADDER BOTHERS, DRINK  
LOTS OF WATER AND EAT LESS  
MEAT.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salt which removes the waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active. Drink lots of water—you can't

drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days, and your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urine so it no longer is a source of irritation, thus ending bladder weakness. Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia water drink which every one should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.

### McReynolds Outlines Busy Year of Work

WASHINGTON, D. C., Dec. 10.—Trust dissolutions which shall be real dissolutions, removing the same set of men from control of separate parts into which a trust is dissolved, is the aim of the new administration, Attorney General McReynolds announced today in his annual report.

"My fixed purpose is to oppose any plan of dissolution which would leave the separate parts of the unlawful combination under the control of the same set of men," he declared.

That the department of justice will follow this plan, adopted in dissolving the Union and Southern Pacific railroads, was asserted.

"In actual practice the plan is working successfully," he said. "The plan effectually prevented the Union Pacific company or its stock holders, who were parties to the combination in control of the Southern Pacific."

"Alleged violations of this law (the Sherman anti-trust statute) are being constantly reported, and an organization is being perfected which substantial complaints may be promptly investigated and violations vigorously and speedily dealt with," was the attorney general's "trust busting" promise. He said district attorneys will be freely used in the anti-trust work. He did not advocate any specific legislation by congress to supplement the Sherman law, but said an average of thirty-six complaints a month of its alleged violation had been received.

That there are now pending forty-nine anti-trust prosecutions was recited in the report. During the new democratic administration eight new cases have been instituted.

Suppression of "white slave" traffic was pointed to prominently by the attorney general.

"Since the passage of the white slave act," he said, "to September, 1913 (about three years) there have been 533 convictions, more than one-half during the last twelve months of that period. There have been but ninety-three acquittals, and there were pending in October 177 cases of

defendants under indictment. Enforcement of the act has been vigorously carried on under the supervision of the special commissioner, and also a corps of local white slave officers who are stationed at most of the principal cities."

McReynolds said \$75,000 of \$475,000 given the department for "detection and prosecution" of crimes has been set aside exclusively for the "white slave" squad.

"Effort is being made to utilize this money to the best possible advantage in the prosecution of interstate white slave cases which involve the element

James G. McReynolds

of traffic or commercialism. The department feels that material progress has been made during the past year in suppressing the most vicious features of the traffic."

The attorney general recommends that if a federal judge fails to avail himself of the right to retire when he reaches 70 years of age after ten years service, that the president be authorized to appoint a "senior judge" to insure having an official active and able to discharge the duties. He also recommends that clerks of United States courts be appointed for specified terms, and be

### "Safety First" Show Being Held in Gotham

NEW YORK, Dec. 10.—Safety for the workers of the United States and what it means to their families and employers, the relationship between employer and employe, welfare benefit and compensation work, were some of the topics to be considered at the first International Exposition of Safety and Sanitation, which opened here today.

Men and women prominent in these lines of work in every state in the Union were present today.

All forms of sanitation and hygiene

subject to removal by the president for cause.

Prosecutions for customs frauds during the last year the attorney general reported, has resulted in fines of \$280,000 and convictions of thirty-one persons in criminal prosecutions.

That the criminal anti-trust prosecution of the "Shoe Machinery trust" is being held up until after the civil suit is settled, was stated in the report.

How a great "rogues' gallery" of finger print and Bertillon records of criminals all over the world is being built up by the department was disclosed in the report. The attorney general stated that there are now on file in his office 36,093 Bertillon records and 52,449 Bertillon records of which 2,577 identifications were made in this country during the last year, including 1,294 by the finger print system.

Twenty convicts have been pardoned during the last year. Sentences of 100 others were commuted and 75 pardon applications denied.

#### Notice
