Part of Tampico Waterfront, Which Was Neutral Zone in Battle of Dec. 14

When the battle between the Mexican factions began Sunday, December 14th, at Tampico, Admiral Fletcher, in charge of the United States warships which had been hurried to the scene from Vera Cruz, declared a part of the waterfront neutral, so the foreigners who feared the attack on the city by the constitutionalists would endanger them, would be safe. Americans—those who had not been taken aboard the battleships—and other foreigners, thronged the beach till the constitutionalists were driven out.

No Murder Unless the "Deed Is Did"

United Press Service
PARIS, Dec. 26.—Because, under the French law, it is no crime to employ persons to commit murder unless they actually accomplish it, or, in other words, "deliver the goods," Professor Etienne Rouquette of Stanislas College, Clamart, today was set at liberty.
According to the evidence a few days ago he accosted a couple of young men from the country, named Billard and Gavelle, in a Paris cafe, and besought their help in getting ride of his mother-in-law. They accepted the job, and the professor paid them \$50 on account.
First of all, the two countrymen

spent the money in riotous living, then they went to the police and told their story. When Rouquette was arraigned he denied the story, and later not only admitted the truth, but said he had instructed the young men to break up the furniture and steal any valuables they might want, in order to give the impression that the crime was committed for burglary.
In spite of this confession, Professor Rouquette got off on the plea of his attorneys that his act constituted no crime in France. It was not until today, however, that a higher court handed down a formal decision favoring the arguments of the defendant's lawyers.

Attacks Monroe Doctrine
Before the American Society for the Settlement of International Disputes at Washington, William L. Hull of Swathmore, Pa., attacked the Monroe Doctrine, saying it should be cast aside as worn out. He declared its consequences to be appalling and that Latin-Americans fear it. He says that because of sensitiveness over the doctrine, this country has entangled itself with Germany and Japan.

Would Repeal Oleo Tax
Representative Buchanan of Texas has introduced a bill in congress to remove the tax of a quarter of a cent a pound on white and 10 cents a pound on colored oleomargarine. He says that oleo is "the poor man's butter." The bill imposes a fine on any one knowingly purchasing oleomargarine packed in violation of requirements of law.

Roosters to Be Banished
Cincinnati councilmen say they will pass an ordinance presented by Jerome B. Howard to prevent the keeping of roosters in the city. A fine of \$50 will be assessed against any person having a rooster on his premises. The ordinance will exempt commission men.

THIRTEEN
Thirteen parties have purchased instruments lately at Shepherds Piano Depot, next door to the post-office. Low prices and easy terms always did bring home the bacon.

Hens Have Laid Over Billion Dollars for Us

United Press Service
NEW YORK, Dec. 26.—A \$10,000 hen that lays every day during the "regular season" a \$10 egg was perhaps the most interesting feature of the twenty-fifth annual poultry show conducted by the New York Poultry and Pigeon Association, Ltd., which opened today in Madison Square Garden to continue through December 31st. "Cheap" fowls, both hens and roosters, worth merely \$25 or \$125 and on up to a paltry \$150 a pound, were shown in profusion. Fowls to a total value of approximately \$50,-

000 were on exhibition when the show opened.
Charts prepared by W. E. F. Price, of Illinois, an egg expert, were handed about today showing that the lowly (?) American hen for the year just closing will have laid eggs to the value of \$1,000,000,000. In addition to exhibits of domestic fowls of all kinds, there was an interesting exhibit of fancy and foreign aquatic water fowl and rare terrestrial birds. These were shown in an artificial jungle. There will be a series of educational lectures delivered by renowned experts on practical poultry breeding and farming.

A. Alford, duly seconded, resolve that it is the intention of the common council of the city of Klamath Falls, to change the grade that has been heretofore officially established at the intersection of Seventh street and Walnut avenue, in said city, to an elevation two feet higher than the present elevation of the established grade at such intersection; and that this resolution shall be kept of record in the office of the Police Judge, and shall be published for ten consecutive publications in the city official newspaper, according to the provisions of Section 3 of Article III of the Charter of said city; and it further appearing that the city engineer has furnished the council information and data relative to such change of grade, which information and data is in words and figures as follows:

City of Klamath Falls, Oregon, do hereby attest the foregoing to be a true and correctly enrolled copy of a resolution adopted by a majority of the members of the common council, and approved by the Mayor.
