"WHERE THE LADIES SHOP"

In Ohio Doctors Tell the Cause of Death

United Press Service
COLUMBUS, Ohio, Feb. 13.—You can die in Ohio without having the doctor attach a fancy medical name to your death certificate. Dr. A. C. Holland of the state bureau of vital statistics, is authority for this statement.

"He lived several years beyond his natural life, and then just petered out," read a death certificate from Washington county. Another said: "He just faded away."

"Death came by visitation of God

in a natural way," was a Jefferson county contribution. A Pike county man died from "a postmortem hemorrhage." Cleveland sent in a certificate which read: "Stabbed on Sunday." Another one went into details. It read: "Died suddenly in the basement. History and appearance, heart diseased. Contributory cause, possibly sewer gas."

As the state spends thousands of dollars a year classifying causes of death, Dr. Holland today was busy returning the certificates for more specific explanations.

Sold Two Cars.

Two new Ford cars were disposed of Thursday by George Biehn of the Ford garage. One went to W. C. Dunning of Merrill, and the other to W. P. Johnson of the Klamath Falls creamery. Johnson, it is understood, will drive his new car to North Carolina and bring back a load of chinkapins.

To Grants Pass.

E. G. Argraves left this morning for Grants Pass to attend to business matters. He will be away a couple of days or so.

No one is expected to attend the dance at St. Cloud unless they have a personal invitation from the proprietor. 7-5t

Goes to City.

William Wagner, who was engaged in newspaper work here several years ago, but since in real estate, left on Thursday for San Francisco, where he has a fine offer from one of the papers. During his absence from the city E. M. Chilcote is attending to his rents, collections, etc.

Delhi has a population of about 236,000 people. The permanent population will probably be increased by the residence there of 3,000 or 4,000 government officials when the new government offices are ready.

Prince Edward Island silver-black foxes for breeding purposes sell as high as \$13,000 a pair.

They get results—Herald Want Ads.

HEATING PLANT FOR THE CHURCH

HOT AIR FURNACE WILL SOON BE INSTALLED IN THE CHURCH OF THE SACRED HEART, ON DONALD STREET.

Instead of relying upon stoves for warmth, the congregation of Sacred Heart church will soon enjoy the even heat furnished by a hot air furnace system.

The plant has just been purchased. It will be installed in the church in a very short time.

Sawmill for Crescent

George C. Cannon, a sawmill man from Yoncalla, Ore., was an arrival on the stage Monday. He is looking over conditions, and will undoubtedly decide to move his mill here within the next two months. The land opening and the near certainty of the railroads building into the Upper Deschutes the coming summer, Mr. Cannon thinks is sufficient to cause a large immigration into this section of the country, and he is determined to be in on the ground floor.—La Pine Inter-Mountain.

In round numbers 43,000,000 sheep are sheared in this country each year, yielding 289,000,000 pounds of wool, worth \$65,000,000.

The value of Hungary's agricultural returns does not depend on several large crops or on the products of certain specified branches of agriculture, but rather on the great diversity of its products, for there is probably no country in Europe in which so many branches of agriculture are carried on.

The Herald for news.

Formerly French was the most widely spoken language; today it is the mother tongue of only 4,000,000, as compared with 100,000,000 who speak German and 130,000,000 who speak English.

Russian poultry experts average about \$51,500,000 annually at present.

The Herald, delivered at your place of business or your home, for 50 cents a month.

Notice to Creditors

In the County Court of the State of Oregon, for Klamath County, in the Matter of the Estate of Henry W. Keesee, Deceased.

Notice is hereby given that the undersigned has been duly appointed administrator of the estate of Henry W. Keesee, deceased, by the county court of Klamath county, Oregon, and that all persons having claims against said estate are required to present the same to me at the law office of Rollo C. Groesbeck, in Klamath Falls, Oregon, within six months from the date of this notice, properly verified, as by law required.

Dated at Klamath Falls, Oregon, this 24th day of January, 1914.

GEO. CHASTAIN,
Administrator of the Estate of Henry W. Keesee, Deceased.

150 NAMED TO STOP TANGOES

CENSORSHIP COMMITTEE NAMED IN NEW YORK CITY TO WATCH AT BIG DANCE THIS EVENING IN MADISON SQUARE GARDEN

United Press Service
NEW YORK, Feb. 13.—There will be no tangoing, hesitation, gliding or grapevine waltzing at tonight's big dance to be held at Madison Square Garden, as the thirteenth annual charity ball of the Knights of Columbus.

Officers of the society today met with the "censorship committee" of 150, who will patrol the floor and eject anyone dancing the modern steps after they have once been warned.

The Knights of Columbus' ball is one of the biggest public social functions of the greater city's season, and it attracts thousands.

Town Topics

Is Better.

Miss Waltz, daughter of Jake Waltz of Dorris, who underwent an operation at Blackburn hospital on Thursday, is getting along nicely. The operation was performed by Dr. Grant Safely, Dorris' new physician, assisted by Drs. Hamilton and Morrow. Dr. Safely is a new arrival in Dorris, coming from the East, and he is acquiring a good practice.

No Services at Merrill.

Owing to the condition of the roads between here and Merrill, Rev. Wm. McMillan, S. J., will not celebrate mass there Sunday. Instead, services will be held here at the usual hours.

For Betterment of Street.

Those interested in the proposed improvement on the Third street hill are invited to be present at a meeting to be held this evening at 7:30 in the law office of E. L. Elliott. A general discussion of ways and means of hurrying the work, and outlining a plan to co-operate with the city "dads" in the matter will be part of the object of the meeting.

Some Joy Ride.

George Behn drove his Ford car to Dairy Wednesday, and now he claims the medal for endurance runs. The roads, according to George, are just a little bit worse than no roads at all. "Let some of the big cars make that trip with the roads in the same condition, and I'll hush up," said Mr. Behn.

Establishing Agency.

C. M. Purdy is in the city establishing an agency for the goods of the Firestone Tire and Rubber company. He is traveling out of the Portland branch of his company.

NOVEL LIGHTING AT EXPOSITION

VAPOR TUBES ARE TO BE USED, AND ELECTRICAL LABORATORIES ARE PLANNING NEW ILLUMINATIONS

(Herald Special Service)

SAN FRANCISCO, Feb. 13.—Illumination experts are hard at work in the electrical laboratories at Schneck, N. Y., experimenting to produce novel lighting devices for the Panama-Pacific International Exposition. Several original lighting appliances have been devised, and these are being perfected in the laboratories.

When developed these devices will add greater enchantment to the brilliant illumination of the exposition, and will contribute much to the magnificence and beauty of the palaces and courts.

One of these is a vapor tube, which will be used to illuminate the cascades in the Court of Abundance.

These tubes will be placed beneath the water, and when vari-colored lights are produced in them their delicate shades will glow through the seething waterfalls, throwing dainty shadows over the vines and evergreens along the cascades.

Another striking illumination feature being perfected will be used for the Palace of Horticulture, and will make this huge palace a scene of grandeur and splendor. A battery of searchlights will be placed beneath the large dome of this building, and their rays will be made to pass through a revolving screen of various colors.

Rear Admiral Cottman Returns

United Press Service
WASHINGTON, D. C., Feb. 13.—Rear Admiral Vincendon Cottman, U. S. N., today automatically retired from active service.

Irrigation Bulletin Issued

United Press Service
WASHINGTON, D. C., Feb. 13.—With a view to giving quick and accurate information on special irrigation investigations, the geological survey has adopted the plan of issuing short bulletins upon completion of such work. The first bulletin, issued today, holds that vegetables, certain fruits, alfalfa and other field crops can be raised profitably in the vicinity of Wichita, Kans., through the use of "ground water." This is a supply which may be obtained through wells, as an aid to agriculture in the Kansas droughts.

TO RENT—Seven hundred acres in Poe Valley; all under fence; about 400 acres under cultivation; nearly 200 acres now summer fallowed, to be seeded in the spring; plenty of water; house and barn; good roads; close to school. Terms easy. Apply to Tassie Stewart, box 296, Milton, Umatilla county, Ore. 2-13-2wks*

If it's worth having, it's worth insuring. See Chilcote, 625 Main street

For Thirty Years He Hasn't Drank--Water

United Press Service
DENVER, Colo., Feb. 13.—Denver has a man who has not had a drink of water for thirty years. He says so himself. His name is J. C. Lehner, a restaurateur.

"Water has only one use," said he today. "That's washing. I have not tasted water since I was 14 years old, and I tasted very little before that."

As a resident of Hungary, France, Germany, Egypt, England and Italy

he has become accustomed to the use of beer and light wines. Not until he passed the age of twenty, when he first went to New York, did he see water served with meals.

"But it never influenced me," he said, as he sipped a glass of Bordeaux. "And I've always been healthy and energetic. I attribute it all to avoiding water. I never eat without eating, and I never drink without eating. I have never felt the slightest desire for a drink of water."

Good Comedy at Star Theater.

The vaudeville attraction at the Star is way above the ordinary road turns. Some of the monologue hits, told in new phrases, smack, nevertheless, of Kolb and Hill. The singing is good, and, what is better, the songs are modern.

The Japanese contemplate exhibiting Oolong tea of Formosa production at the exposition in San Francisco.

It's Queer, Too

People do incomprehensible things—several million stay in the East all winter, when Oregon is here all the time.—La Pine Inter-Mountain.

Road Work Starts

Work on paving the Central Point-Medford road will begin within the next few days, and be completed within sixty days from time of beginning. The pavement will be four inches of reinforced concrete, with granitoid surface, sixteen feet in width. The work will be done by the county under direction and supervision of the state highway engineer. The base

rock and the sand will be furnished by the Medford Concrete Construction company. The granite for surfacing will be quarried by the county at Gold Ray.—Medford Mail-Tribune.

Going Back

It is a sad commentary on the dramatic taste of Medford when a cheap 10-20-30 cent production will park the Page night after night and a really artistic production like that staged last night and tonight by local artists has vacant seats. Medford has evidently degenerated in a theatrical way.—Medford Mail-Tribune.

Deer, Deer

Stanley Woods of Noltan has reported to Game Warden Harris that there are several herds of deer in the foot hills of the Stikivous along Thompson Creek, which are being killed at the rate of two or three a day by bands of coyotes. A band of coyotes numbering over twenty was seen the other day following a herd of deer, and a little later some mounds came across four carcasses. The deer are in good condition, and are eating the grass and shrubs on the south sides of the hills for fodder. It seems hard that coyotes can live on deer meat when a human being who lives in the Happy Camp district cannot buy fresh meat at any price, and has no such privilege. He must live on bacon and salt meat.—Yreka Journal.
