

"No Men Allowed" Is Sign at This Saloon

United Press Service

PITTSBURGH, March 4.—Dustless brooms, smokeless powder, painless dentistry, tuneless songs, pointless stories, jokeless comedies, hopeless hopes and wireless telegraphy have all come, made their little hit or gone to come again, and why, therefore, may not the manless beer saloon?

It is the "Pittsburgh idea" de Luxe, conceived by Director Charles S. Hubbard of the department of public safety. The new saloon would be a place of glint and glass, with manicures, free lunch, chiropodists, pretzels and

other fixtures. There would also be a female bartender, two and several lady waiters, pictures of many handsome women gowned in the height of fashion, perhaps, but at least gowned. Director Hubbard would have swinging door and a conspicuous sign, "Cafe, for Ladies Only—Bar."

Director Hubbard declared that he was very serious about it, and even had some plans drawn and introduced. He said he thought it might go a long way toward eliminating certain questionable "hotels" and houses ill reputed.

TECHNICALITIES AWARD CONTRACT

PAPER WITH THE SMALLEST LIST OF SWORN SUBSCRIBERS IS NAMED AS OFFICIAL COUNTY NEWSPAPER

Late Tuesday afternoon the county court named the Merrill Record as the official paper of the county in which to publish the proceedings of the court.

The sworn subscription list of the Republican, Northwestern and Merrill Record had been filed. Although the lists of both of the former papers were greater than that of the Merrill Record, the court refused to consider them on the advice of the district attorney, who objected to the technical wording of the affidavits.

The sworn affidavit of the Record gives that paper 501 subscribers, although there are only 489 names on the list. Three hundred and ninety of these reside at Klamath Falls, Merrill and in the southern part of the county.

The entire northern part of the county, which is two-thirds of the area of the county, is covered by a total of six subscribers. One of those is County Commissioner Hagelstein, who lives at Algoma. Out of 200 residents and taxpayers who receive their mail at Fort Klamath, four are subscribers to the Record.

The entire Western part of the county is represented by one subscriber at Keno. Hildebrand, one of the largest settlements in the eastern part of the county, has not a single subscriber, while Dairy has only four.

The number of subscribers to the Record and the respective postoffices are as follows: Merrill, 217; Klamath Falls, 135; Malin, 32; Lorella, 18; Olene, 29; Fort Klamath, 4; Dairy, 4; Midland, 2; Bly, 1; Tule Lake, 4; Swan, 0; Hildebrand, 0; Bonanza, 28; Langell Valley, 11; Klamath Agency, 0; Chiloquin, 1; Algoma, 1; Keno, 1.

FORMER KLAMATH MAN IS ACCUSED OF DISLOYALTY TO COMMISSION AND MAKING FALSE REPORTS TO GOVERNOR

SALEM, March 4.—Acting on the advice of W. L. Finley, now in charge of the educational and biological division of the work, the State Game and Fish Commission dismissed L. Alva Lewis, employed on biological work being done by the state and government cooperation.

The cause given was "disloyalty to the commission and the making of false entries and malicious statements."

Finley said Lewis had written false statements to the governor about the work of Finley and R. E. Clanton. Lewis went to the biological survey work from Klamath Falls. He has resided here a number of years, and was deputy district game warden prior to the appointment of Carey M. Ramsby.

The construction of buildings for the Panama Exposition at San Francisco have so far progressed that it is possible to see the outline of the great plan. PARIS, March 4.—Prefect of Police Hennion today opened his much heralded school for Paris policemen. The basic principal of all courses will be to train policemen to act according to common sense rather than always following explicitly the rigid rules set down in the Paris police manual. All present members of the Paris force of police will attend, after which recruits will have to attend for three to six months before becoming eligible for membership on the force.

school brought her domestic science class over to attend the short course.

"The Chief Soil Types of Klamath County—Their Qualities, Uses and Handling," was the topic discussed by Max A. McCall, at the beginning of the third day's session of the Klamath county short course in the assembly room of the high school. Mr. McCall used a colored map of Klamath county in this lecture, the different soils of the county being represented by different colors. With this map before them, the farmers could see just what localities contained the different soils.

In a comprehensive talk the speaker told of the methods of treating and handling each kind of soil for the best results; how to protect the land and guard against the many pitfalls into which some of the farmers are in the habit of falling.

McCall was followed by Professor E. B. Fitts, who talked on "Breeding, Feeding and Management of Sheep." Mr. Fitts outlined the successful way of handling sheep from a standpoint of both meat and wool production.

Suitable housing for sheep in winter was strongly urged, and the speaker took occasion to impress on the farmers the necessity of having all barns, sheds and outbuildings warm and comfortable for all animals and to keep the buildings painted as a protection against vermin.

Business in Mexico Is "Irregular" These Days

United Press Service

MEXICO CITY, March 4.—There's no use in trying to do business in a regular way in irregular war times. One young American here who has an auto agency got the inspiration to sell automobiles to the men who had newly grown wealthy in the Huerta regime. The new officials listened to him willingly and ordered lavishly. One of his best cars went to the private secretary of a leading general, upon order, and, two days later, he went to the man's office for the \$15,-

000 (Mexican money) check. "Oh, that auto was not for me," said the Mexican. "I sent it up North to Captain Ro-and-So, who is fighting Villa. You must go to him for your money." Though the young American sees the auto every day in the boulevards with the Mexican official riding in it, he doesn't dare to say anything in protest and he knows that a court action would be worse than useless, for it would only get him into trouble with the administration. He's one of the few Americans here who want intervention.
