

CITIZENS AND JOBLESS ENGAGED IN PITCHED BATTLE

SUFFS OPPOSED TO UNDERWOOD'S RACE FOR SENATE

PLAN STUMP CAMPAIGN AGAINST FLOOR LEADER

Owning Gun in a Campaign for Equal Rights in Alabama Brings Out Plans to Defeat Congressman Who Has Come Out Flatfooted Against Giving Women the Right to Vote—Dr. Shaw Is Present.

United Press Service

BIRMINGHAM, Ala., March 9.—Women suffragettes in the opening of a two days' conference here promised to take an open-handed swat at Representative Underwood.

They declared that his position against suffrage, and his pledging the democratic party against it, was a sufficient reason to keep him out of the United States senate, for which he is now a candidate.

This question, however, caused somewhat of a division in the ranks, for some of the members held that such an attack would not have an ill effect on his chances, inasmuch as the state is not yet strongly pro-suffrage.

Dr. Anna Howard Shaw and her cohorts from the national suffragette organization were on hand when the convention was called to order today. The doctor, despite a recent painful injury, promised to take a leading part in the conference.

The more radical delegates today thought that an active stumping campaign for Hobson as against Underwood would be the proper medicine to apply to the leader of the democratic majority of the house.

BIG BASIN SUIT IS FILED AGAIN IN THE COURTS

CHARLES THOMAS NAMED AS A DEFENDANT

Following Preparations by Defense to Transfer the case to the Federal Courts, Attorney for the Plaintiff Withdrew the Action, and Today Filed It With a Klamath Man as a Party to the Suit.

The suit of Mrs. Maggie Pearson against the Big Basin Lumber company for \$40,000 damages is again in the circuit court. A new complaint was filed this morning by Attorney W. H. A. Renner, representing Mrs. Pearson.

In the new action, Charles Thomas, who has a logging contract for the Big Basin, is named as a defendant also.

While in the employ of the company last month, Pearson met with injuries at the Keno logging camp that resulted in his death. The complaint alleges that there was not proper equipment for the handling of the logs, and that although the foreman knew that Pearson was not experienced, he sent him to do dangerous work.

This action was filed about a week ago. Upon the grounds that the concern was a foreign corporation, Stone & Gale, as its attorneys, made preparations to ask a removal to the federal courts. In order to hold the action to the local court if possible, Renner dismissed the former suit, and named a local man as a party defendant in the new one.

Unless Governor Ben Colquitt volunteers immediately to make a satisfactory report, President Wilson will personally telegraph him and demand such a report.

Wilson made it plain to the newspaper men that he will not consider the object of the raid. If the rangers invaded Mexico, he says, it may be necessary for the government to officially disavow the act, and rebuke those permitting it.

PHENOMINAL RUN OF CATTLE MADE

DESPITE THE DUMPING OF NEARLY 3,000 HEAD IN ONE DAY, PRICES DID NOT FALL, BUT KEPT RIGHT UP.

(Herald Special Service)

PORTLAND, March 9.—The cattle run Monday was the largest in the history of the yards, 2,700 head being received. Prices eased off but almost regained their former level Tuesday.

The receipts the latter part of the week were light. Best steers selling throughout the week at \$7.65 remain steady at this price.

Swine liquidation was also large, choice light stuff closing at slightly less than last week.

Tops dropped to \$5.50 and \$5.60 Monday in bulk, with three loads at \$5.70. The week's range averaged \$5.60, which is about ten cents under February level.

Sheep house activity was limited by a short run and the trade absorbed everything in sight greedily. Both wool and sheared stuff was offering, with prime fat wool lambs selling around \$6.80; wethers, 5.75; yearlings, \$6.00, and ewes, \$5.00.

A differential of 50 cents was made for sheared stuff. The sheep market has a decidedly upward trend.

ST. LOUIS, March 9.—Nineteen men are believed to be dead as a result of the fire which destroyed the Missouri Athletic Club early this morning. The fire started after midnight, and it spread so rapidly that escape was soon cut off.

The guests at the club crowded the windows in an endeavor to escape, and twenty reached safety by dropping to an adjoining roof, using a rope made of bedding.

The boatman's bank, in the ground floor of the building, collapsed, burying the safety deposit vaults. According to officials of the bank, these contained \$1,349,449.

KELLY, THORNE AND OTHER LEADERS JAILED

Militia From Nearby Towns Sent to Sacramento to Be in Readiness in Case of a Riot—Order for a Scattering Is Obeyed, and the Army Sealed the Fences of the Stockade. Are Worried in Skirmish.

United Press Service

SACRAMENTO, March 9.—The unemployed again returned to the lot, and shortly after noon assistance was asked of the fire department, to clear the stockade with the aid of hose. At first the angry mob refused to budge, and started to mix it with the officers, and a hand to hand battle followed.

After several minutes of fighting the mob started to retreat slowly. It then broke into a run until it reached Second street, where members of the retreating army paused long enough to throw bricks through several car windows, and continued on into M street.

After the crash several of the unemployed were found lying on the streets as the result of blows administered by the police. None was severely hurt, however.

Governor Johnson has refused to order out the militia, but 500 deputies finally succeeded in driving the army into the M street bridge, and thence across the river into Yuba county.

SACRAMENTO, March 9.—The police early this morning arrested "General" Kelly, Thorne and "Roughneck" Teeddale and about twenty members of the army of the unemployed, and charged them with vagrancy. The balance of the army at this time was not molested.

At about 11 o'clock the police again swooped down on the stockade, and ordered the army to scatter. The police started tearing down the tents and demolishing the camps.

The members of the army scrambled over the fence and scattered in all directions. Later the army returned to the stockade, and attempted to take an American flag from an agitator. They surrounded the policemen on duty at the camp, but other officers arrived, and by the free use of night sticks rescued the threatened officers.
