

Millinery Ready for Easter

We have exceeded all our past efforts in supplying the ladies of Klamath Falls with the choicest and largest selection of Millinery for the Easter trade. The styles this season are much more becoming than ever before, and our prices are so reasonable that there is no reason why every woman in Klamath Falls should not be happy on Easter by owning one of the delightful new creations.

CITY HALL PLANS OPEN TO PUBLIC

ARCHITECT VEGHTE WILL SOON MAKE A PERSPECTIVE DRAWING FOR EXHIBITION IN A BUSINESS HOUSE

Some time this week, Earl B. Veghte, architect, expects to finish a perspective of the new city hall and place it in the window of the K. K. K. Store. Mr. Veghte has the plans completed, and these are open to the public at his office in the First Trust and Savings bank building.

The plans are for a building to cost \$30,000. There are to be full basement, two stories and a tower, in all seventy feet high.

The basement and foundation are to be of concrete, the front of pressed brick and artificial stone and concrete fluted columns, and the interior of wood. Heating plant, vacuum system of cleaning, and other modern conveniences are provided for.

The basement is to be used as the jail, with provisions for men and women prisoners, heating plant, storage vault, etc. In the first floor there is shelter for the fire department apparatus, living quarters for the fire chief and offices for the city attorney, street commissioner, city engineer and the chief of police.

The office of the police judge and city treasurer and the council chamber will be located on the second floor. Here also will be a club room for the members of the fire department, besides the mayor's office, a private office for committee sessions, etc.

Sleeping quarters for the fire department are to be in a floor above this one, with windows opening on the roof.

RECOGNIZE THIS ASSOCIATION

BOTH DELEGATES FROM THE KLAMATH SPORTSMEN ASSOCIATION ARE PLACED ON COMMITTEES AT STATE MEET

Klamath County and the Klamath Sportsmen's Association were properly recognized at the convention held Monday in Portland for the organization of the Oregon Sportsmen's League, as both delegates from the local organization were given places on committees.

C. F. Stone was selected as chairman of the committee on constitution and by-laws, while C. M. Ramsby was given a place on the committee on names.

China's famous iron mine, the Tayeh, the foremost in the Far East, is especially notable for the ease with which it is worked. It stands peerless in the world in this respect, excavation requiring no machine power.

It has been figured that no less than 50,000 birds are killed annually in England alone by dashing themselves into lighthouses during night flights.

Laundry to Open

After a delay of several weeks, the balance of the machinery for the Superior Laundry will arrive within a few days. After such time we will be able to furnish first class work and service. The date of opening will be announced in a few days.

Housekeeping rooms, near bridge.

UNITED STATES PREPARED FOR WAR

(Continued from page 1)

iring has been lately introduced.

The heaviest obtainable type of automobile trucks that can carry several tons of provisions, arms, ammunition, etc., have added much to the speed with which supplies, and consequently troops, can be moved overland. These trucks are capable of making twenty miles an hour under adverse conditions, and over smooth, level roads, could possibly make thirty miles an hour if such speed were necessary.

Motorcycles have been furnished, and these have greatly shortened the time required for establishing wireless camps, signal service camps and caring for aviators and aeroplanes.

The army at present is sadly lacking in field artillery batteries, that being its most striking deficiency, but on the other hand the signal corps is far in advance of other armies, as here will be found every one of the very latest discoveries in wireless telegraphy, telephony and telegraph.

Our battleships along the Gulf coast could effect a perfect blockade of every port within twenty-four hours.

The troops now stationed here and other points in Texas could be gotten to any section of the Texas border within less than twenty-four hours, while those sent out from here for Mexican Gulf ports on the transports would reach their destination anywhere from thirty-six to sixty hours after embarking.

The large army transports now in Galveston harbor can accommodate an average of 3,000 men each, carrying on board rations for eighteen days and they are already stored with these necessary rations.

On the whole, the land fighting force of the United States today, while somewhat small, is admittedly the flower of all armed bodies ever raised by this country. With militiamen to the number of 122,000 ready for call, and countless thousands of volunteers available, all the men necessary could be sent into the field within six months, in prime condition, and ready for fighting against the best trained soldiers of any country.

Use Your Dictionary every Day

Writing an article entitled "Treasure in Books" in April Woman's Home Companion, Laura Spencer Porter gives the following excellent advice about the advantages to be gained from the study of words:

"The study of words: It may sound to you a dry thing, yet I promise you it is not, very far from it.

"And this brings me to suggest that the habit of one of the great writers of studying carefully from a good dictionary each day is one from which we might all of us get a good deal of profit. Or, take a good book of synonyms, for instance, and learn from it each day five words somewhat similar, comparing and weighing carefully the meanings and values of them. Notice the degrees of force in the following: To dislike, to hate, to loathe, to detest, to abhor—each note stuck is a little stronger, higher, we might say, like an ascending crescendo scale. So, to instruct, to teach, to educate are each quite different in meaning with great nicety of difference. So, rebuke, reprimand, censure, blame, are all of one color, but of how different shades of meaning. So, too, misfortune calamity, disaster; so, weak, feeble, decrepit; and what delicate difference between fame and renown, or feminine and womanly and womanish."

Town Topics

Mills Addition Dance. A social dance will be given at Mills Addition hall Friday night.

In From Tule Lake.

George E. Bradnack, who has a homestead just over the line near Tule Lake, is here attending to business matters.

Hill at Star is Good.

One of the best acts that has appeared at the Star theater this winter and a splendid program of wild animal films is the offering at the Star theater tonight. Clark & La Vere have an act that is brimful of clean, bright humor, and it keeps the house in roars.

Reception for New Members.

There were about 150 present at the Christian church last night to extend the hand of welcome to the new converts that came into the church during the Putnam meetings. There was no set program carried out, but during the evening there were piano selections and vocal solos, and many short speeches suitable to the occasion. Professor Dunbar presented those who came by primary obedience with an appropriate certificate of baptism. Refreshments were served by the ladies of the church.

Cannery in Sight

The committee having in charge the investigation of the cannery proposition of R. D. Hoke of Central Point, report that there is enough acreage signed up in tomatoes, etc., and that the banks of the city will take up at once the matter of financing the proposition.—Medford Sun.

Wireless telegraphy is being successfully made use of in surveying such countries as the Belgian Congo, Sudan, and similar inaccessible places.

Fire Drill Scores

The value of fire drills in the schools was proven this morning at the West End Public school. While there was no danger and the blaze was quickly extinguished with practically no damage, there was real cause for serious alarm and excitement, for smoke filled the building. But the children were very cool and collected. They formed in line and marched out without any confusion.—The Dallas Chronicle.

Hart Timber Sold

The first step in a gigantic lumber deal was consummated yesterday when the Hart tract of 6,000 acres near Butte Falls was sold to Owens brothers of Eau Claire, Wis., and Portland, Ore. The deal has been pending for some time, and it is probable that the Harkness tract of about the same area will be transferred in the near future. The near future. Although no price for the Hart tract was made public, it is estimated at \$180,000.—Medford Sun.

Going Up

The first consignment of brick from the Jacksonville kiln for the new Elks' Temple on North Central avenue arrived yesterday afternoon, and are being hauled to the ground. The work of laying the brick will begin next week.—Medford Mail-Tribune.

Eugene After the Fly

The meeting of the students of the Geary school in the interests of the coming swat-the-fly campaign was highly successful. The Fourth, Fifth, Sixth and Seventh grades of the Patterson school offered their services, and it is evident that Eugene will experience the most thorough and effective clean-up in the history of the city.—Eugene Guard.

New Dancing Instructor

Madam Garouette of San Francisco, a teacher of all the very newest dances, including the tango, will arrive in Klamath Falls Thursday evening, the 19th. A large class has already signified their intention of improving this opportunity of becoming familiar with this present popular amusement. Madam Garouette will remain in Klamath Falls indefinitely, and will give notice through the papers after her arrival here when and where she will organize her classes.
