Defends London Militants

Mrs. Norman Whitehouse, who is
known to society in several cities of
the United States, believes there is
great provocation for the work of the
militant suffragettes of London. She
has just come from there and had
given some time to the study of their
aims and methods.

When she was asked about the
mutilation of the "Rokeby Venus," a
painting worth \$250,000, in the Na-
tional art gallery, she said:
"We don't understand the condi-
tions over there, and the English wo-
men have more provocation for their
acts. The conditions in America and
England are very different."

But Mrs. Whitehouse leans consid-
erably in favor of woman suffrage.

Interest in dairying is springing up
in many parts of the state. Requests
for literature on better herds and silo
feeding are pouring into the Exten-
sion office of the Agricultural College.
The vision of large and profitable
dairy industries seems about to be
realized.

WEEK'S MARKET
WAS NOT HEAVY

SPARSE RECEIPT OF BEEF, PORK
AND MUTTON STOCK WERE
FEATURES OF LAST WEEK'S
MARKET ACTIVITIES

(Herald Special Service)

PORTLAND, March 30.—Fairly
heavy receipts of cattle the early part
of the week, with a few loads of extra
choice steers going at a good 25c bet-
ter than the preceding week. Very
light offerings Thursday and Friday,
and the market 10c to 15c lower.

Receipts of hogs during the week
were not heavy. Buyers forced the
price down about 10c. Extreme tops
sold around \$8.85 at the first of the
week, closing at \$8.75 at the end.

A moderate run of mutton for the
week's business, with a strong de-
mand for top grades. The market
continued about in line with the
prices of the previous week. Prime
lambs brought \$6.50 to \$7; yearlings
\$5.75 to \$6; ewes \$4.50 to \$5, and
shorn stuff 75 cents less.

IF BACK HURTS
BEGIN ON SALTS

FLUSH THE KIDNEYS AT ONCE
WHEN BACKACHE OR BLAD-
DER TROUBLES—MEAT FORMS
URIC ACID

No man or woman who eats meat
regularly can make a mistake by
flushing the kidneys occasionally,
says a well known authority. Meat
forms uric acid which clogs the kid-
ney pores so they sluggishly filter
or strain only part of the waste and
poisons from the blood, then you get
sick. Nearly all rheumatism, head-
aches, liver trouble, nervousness,
constipation, dizziness, sleeplessness,
bladder disorders come from slug-
gish kidneys.

The moment you feel a dull ache
in the kidneys or your back hurts, or
if the urine is cloudy, offensive, full
of sediment, irregular of passage or
attended by a sensation of scalding,
get about four ounces of Jad Salts
from any reliable pharmacy and take
a tablespoonful in a glass of water
before breakfast for a few days and
your kidneys will then act fine. This
famous salt is made from the acid
of grapes and lemon juice, combined
with lithia, and has been used for
generations to flush clogged kidneys
and stimulate them to activity, also
to neutralize the acids in urine so it
no longer causes irritation, thus end-
ing bladder disorders.

Jad Salts is inexpensive and can-
not injure; makes a delightful effe-
rescent lithia water drink which all
regular meat eaters should take now
and then to keep the kidneys clean
and the blood pure, thereby avoiding
serious kidney complications.

Average Dairy Cow
Pays \$66.66 a Year

CORVALLIS, March 30.—The av-
erage income per cow in Oregon as
shown by reports from 3,609 cows
was last year \$66.66, as reported in
the Agricultural College survey. Only
direct income from the sale of milk
or cream is included in the item. In
reality allowance should be made for
the value of skim milk in addition.

Many herds show a much higher in-
come. An average of the highest
herds reported from each of several
counties is slightly in excess of \$100
per cow.

In Clatsop county three herds of
fifty cows in all averaged \$118.59 per
cow. The three lowest herds reported
show an average income of \$29.26
from eighty-three cows.

In Tillamook county the three high-

est income producing herds show an
average of \$114.86 each for sixty-one
cows. The three lowest producing
herds showed an average of \$27.61
for seventy-one cows.

A select herd of Jerseys in Lin-
coln county produced an income of \$141
per cow for the year 1912, and \$150
for the year 1913.

A report from Benton county shows
an income of \$150.84 for March, 1913
for butter fat sold in a creamery from
a herd of fifteen cows. Milk and cream
for a family of four adults was also
used on the farm.

The averages show what is actually
being done by the many, and the
higher incomes of the few show what
it is possible to accomplish by testing
cows and selecting only the best.
