New Volcanic Island Is Still Unchristened

United Press Service

TOKIO, April 13.—The baby island of the Bouin group, which came into existence following the eruption of Sakurajima, has not yet been christened. As the island appeared during the coronation year of the present emperor, there were many suggestions that it be given his name, Taisho. It has been found, though, that the new island now occupies the exact position of a similar island which appeared several years ago and has since disappeared, so official circles have de-

cidated that it would be better to wait until it shows some signs of permanence. It is considered that it would be very inauspicious for an island bearing the emperor's name to sink into the sea. The island covers several square miles, and appears to be composed of lava and sulphur. Though an official expedition has reported on its appearance, no one has landed on it owing to the fact that it is still hot and subject to frequent earthquakes.

Heard on the K.C.H.S. Campus

"Efficiency" was the subject of Rev. J. S. Stubbfield's address in chapel this morning. He made the students a very instructive and interesting talk and was given the closest attention.

Miss Viola Santimaw, Miss Fern Wood, Miss Dorothy Darling and Miss Ethel Winters, first section stenographers in the business department, have been selected for duty in Principal Faught's office for a few days' special work.

Professor E. L. Morrison, in charge of the business department, is getting to be a regular fiend for making pictures. He has planned a trip on the Upper Lake this evening to make views to add to his collection.

Editor Haines has received the covers for the "Boomer." The paper is dark brown, with a black "K" in a circle of black.

"I own a fish," said a fair co-ed, when Forrest Peil returned from Spencer Creek at 10:20 last night and presented her with a nice rainbow trout.

Nice Workout.
 A number of the players who expect to make the baseball team had a nice workout at Modoc Park Sunday afternoon. In fact, the practice game was so enthusiastic that it was decided to meet again this evening at 6 o'clock for another spell. During the game Bill Hurn stopped a hot grounder with his leg, causing a very painful bruise.

Million Lost in Labor Strikes in Great Britain

United Press Service

LONDON, April 13.—Eighty-seven million dollars in wages have been lost by the workmen of the United Kingdom in the past ten years on account of stoppages due to industrial disputes of all kinds, according to statistics prepared from the government board of trade returns, supplemented by details furnished by union leaders in the principal trades.

But against this figure is placed a net gain in wages as the result of

such disputes of \$12,600,000. Also, it is estimated that the laboring class as a whole has secured advances in wages in the same period aggregating \$75,000,000, but the greater portion of these have been obtained through the medium of working agreements and conciliation.

Fifty per cent of the strikes of the past ten years have been won by the employers, 25 per cent by the workers, and the other 25 per cent has been compromised.

HAVE your feet "clay feet"? Have you grown up, hugging the fetish that a comfortable shoe must be an unfashionable shoe? It's time to outgrow it. It's time to stop buying clumsy, "clumpy" shoes made on blunt, ugly "lasts" in the misbelief that "I am kind to my feet." Listen—

Present day fashion pivots upon comfort—soft suits, soft shirts, soft collars, soft sweaters, soft hats—softness and naturalness through all and all through. For shoe comfort, you don't need ungainly shapes but soft leathers tanned with "give and take" and made with foot-floping, curve-chamming, true-to-size precision.

All these are yours in Regal Shoes, which, while interpreting the pre-advanced fashions, surrender not one iota of comfort. Every foot, as well as every occasion, has its Regal "last" and leather—yours.

You, who are "foot-tender"—get comfort with fashion, and without price-penalty at this exclusive Regal Agency.
