HUERTA MUST SALUTE U.S. FLAG

IF NOT DONE BY 6 p.m. SUNDAY "WAR NEWS" WILL BE IN ORDER

NEW DEVELOPMENTS CALL THE PRESIDENT BACK A-FLYING FROM GOLF LINKS; NO MORE PARLEYING

WILSON IS READY TO TAKE THE MATTER BEFORE CONGRESS MONDAY

All Hope for a Peaceable Settlement Has Been Practically Abandoned by the Administration—Further Naval Orders Send Ships and Marines South From Other Naval Supply Bases.

United Press Service WASHINGTON, D. C., April 18.—Unless Huerta fires the salute by 6 o'clock tomorrow night, America's arms of force will compel him to do so. This announcement was made at the White House this afternoon, and Wilson added that if Huerta hasn't decided by that time, Wilson will take the matter personally to congress.

As Wilson has gone on record as saying he will ask congress to authorize the use of the army and navy against Huerta, the statement today means at least an armed blockade against the Mexican ports, which, it is agreed, would be a tantamount declaration of war.

The following statement was issued by the White House: "Huerta is still insisting upon doing something less than has been demanded, and something less than what is considered would constitute an acknowledgement that his representatives were entirely in the wrong in the indignities they have put upon

the government of the United States. The president is determined, if General Huerta has not yielded by 6 o'clock on Sunday afternoon, he will take the matter to congress on Monday."

It was stated that nothing further would now be given out for publication, and that the administration is now awaiting Huerta's reply.

O'Shaughnessy expected to deliver the ultimatum to General Huerta this afternoon. In view of the facts, it was stated, no action can be taken until congress meets Monday.

President Wilson tonight will go to White Sulphur Springs. When he returns to Washington he will bring with him Mrs. Wilson, who is convalescing from a recent illness. He will reach the resort early Sunday morning, and start back for Washington Sunday evening.

Arrangements have been made to keep in touch with the president during his absence by special wire service.

United Press Service WASHINGTON, D. C., April 18.—With copies of the latest O'Shaughnessy messages, Bryan and Tumulty this afternoon rushed to the suburban links where Wilson was golfing. Wilson stopped almost in the middle of a stroke and rushed back to his office.

United Press Service TORREON, April 18.—The following statement was made by General Villa of the rebel forces today: "It is a question whether the Amer-

Huerta, whose dilatory tactics regarding a salute to the United States flag has brought his country close to a war with a force somewhat larger than the Constitutionalist army.

Local Woman Featured. The current issue of the Youth's Companion devotes some attention to Mrs. Louis Bath, Klamath Falls'

"Bird Woman," who has done much for the feathered inhabitants of this section, and who is a deputy game warden.

ASSAILANT OF MAYOR IS TO BE INDICTED

WILL PROBABLY BE SENT TO MATTEAWAN

Mayor Mitchell Thinks That the Attempt on His Life Was the Result of Dementia—Was a Characteristic Product of Cheap Whiskey and Life in Cheap Lodging Houses—Might Be Given Twenty Years for Crime

United Press Service

NEW YORK, April 18.—It has been learned that the aged man who yesterday attempted the life of Mayor John Puroy Mitchell is William Mahoney.

He will probably be indicted by the grand jury on Monday, and the probabilities are that on account of his condition he will be sent to Matteawan, New York's asylum for the criminal insane. Should it be considered that he is responsible, and realized the gravity of his act, however, he is liable to a twenty-year sentence in Sing Sing.

Mayor Mitchell thinks the man is insane, and he is described by District Attorney Whitman as "a rum-soaked hobo, sodden and embittered, and in all probability insane. Except for his advanced years, he is a characteristic product of the lodging houses and cheap whiskey bars. He might be imprisoned for twenty years, which in this case would mean a life sentence. It will be better to send him to an asylum."

FIRE PREVENTION DAY IN 'FRISCO

FIRE PREVENTION METHODS TO BE USED ON PANAMA-PACIFIC EXPOSITION GROUNDS DEMONSTRATED TO INSURANCE MEN

United Press Service

SAN FRANCISCO, April 18.—Today was observed throughout California as "Fire Prevention Day," and more than a thousand prominent insurance men were guests of the Panama-Pacific exposition officials.

The visit of the insurance men to the exposition grounds marked the recovery of San Francisco from the disaster of 1906, and was an "eight-year-after" celebration.

All the means of fire prevention to be used on the fair grounds were exhibited, and a demonstration of the municipal high-pressure system was also given under the direction of Fire Chief Murphy.

CUP DEFENDER IS LAUNCHED TODAY

ONE OF THE BOATS THAT WILL BE IN THE TEST RACES AS A POSSIBLE DEFENDER OF THE AMERICA CUP

United Press Service

BRISTOL, R. I., April 18.—Mother Ocean today took to her bosom one of the yachts which will battle among themselves for the honor of representing America in the defense of the America's cup against Sir Thomas Lipton's Shamrock IV next September.

The ocean racer launched today is the Resolute, the Herreshoff's entry. It was the first of the American defenders to take the water. The ceremonies today were elaborate.

On the Sick List. Claude Alexander is confined to his home today by illness.

Mrs. Jack Donnelly was a county seat visitor today from her home in Langell Valley.

KIDS SEE SHOW FREE; KLAMATH IS CLEAN CITY

J. V. HOUSTON IS HOST TO THE CHILDREN

In Return for Their Work of Making Klamath Falls "Spotless Town," Youngsters Are Giving a Movie Matinee—City's Teams Have Their Work Ahead of Them in Hauling Garbage.

If the Klamath Falls kids remain as good always as they are today, the passing of the present generation of grownups will witness also the passing of penal institutions, for since John V. Houston announced a free matinee for the good children who worked to clean up the city, the crowd of angels has grown until the number rivals the "just-before-Christmas" attendance at the Sunday schools.

Long before the Temple theater opened, the kids were on hand with notes from parents saying that they had worked.

Mr. and Mrs. J. V. Houston enjoyed the children's matinee more than any other two children at the show. Their pleasure and enjoyment was gained by watching the little "City Beautiful" tots bringing in their notes from parents, stating what the bearer had accomplished in the way of cleaning up the city, and using these notes as passes into the show.

As a special concession to the little ones, Mr. Houston put such pictures on the screen as could be easily understood and appreciated by the younger ones.

The Temple was comfortably filled in a few minutes after the show started, and in a very short time many of the older ones who came to watch the tots had to content themselves with standing room.

"This must be the cleanest city in the land," said Mrs. Houston, as she fondly glanced over the aggregation of youthful workers.

Johnson's Returning.

Mr. and Mrs. Robert A. Johnson are expected home this evening from Oakland, where they spent several weeks.

Mother, a "Coke" Fiend, Orders Her Young Son to Beg for Drug

This photograph illustrates the fact that she cannot even buy any more of it. The boy, who had never become addicted to the drug, is old enough to see what it has done for his mother. Nevertheless, exercising the little parental authority she still holds over the lad, she orders him into the street to beg for money to buy more. The case is one of thousands. "Coke" and heroin, a cheaper drug, have so many victims that those who have deeply investigated have become alarmed at the growth of the habit.

Escape Almost a Miracle

Upper Lake Mariner Has Harrowing Experience

Drugging submerged through the water at a rate of ten or twelve miles an hour, clinging desperately to a pinner attached to a motor boat, and just a few inches from the propeller blades that would hack him to pieces, Captain H. E. Calkins of the mail boat Spray escaped a watery grave in Upper Klamath Lake Friday afternoon by almost a miracle.

The Spray was making its usual trip to Upper Lake ports, and after the last passenger had landed at Odessa, Calkins started alone in the big launch for Harriman Lodge. When he was several miles from Odessa, and some distance out in the water, Calkins, on the front deck of the Spray, slipped on a box in some manner, and was precipitated into the water.

There was nobody to shut off the engine, and as the boat sped by him Calkins grasped the front tie rope. The speed of the boat through the water pulled the mariner under the surface and beneath the boat, and his feet were so close to the whirling propeller blades that the heel was cut from one shoe.

With this danger beneath him, Calkins, with the strength that comes close to the edge of despair, laboriously and slowly worked his way against the current caused by the speeding boat, until he was at the boat's side, and out of danger.

Owing to his weakened condition he had difficulty in clambering again to the deck of the boat, but he finally accomplished this, and finished his daily run.

Newspaperman Expires

P. H. McEnery, Well Known Here, Dies at Cornelius

According to a telegram received this morning by Circuit Judge Henry L. Benson, Patrick H. McEnery, formerly connected with Klamath Falls newspapers, died of heart failure Friday. Death occurred at Cornelius, where McEnery was publishing the Cornelius Tribune.

In the death of McEnery, the Pacific Coast loses one of the most gifted men who ever wrote for the newspapers. To say that McEnery was a brilliant writer is stating it but mildly, and he was fighting a lone fight to "come back" stronger than ever when "thirty" was announced for his earthly labors and he was called to an overlasting assignment in the realm beyond.

A native of Ireland, McEnery was reared on the Emerald Isle, and was graduated from Trinity college at Dublin, one of the world's leading educational institutions, with highest honors. For a while he was employed on newspapers in Wexford county, but his genius was such that he was sought out by the London Graphic, and given important assignments for that world-famous journal.
