Eighth Year—No. 2,888

KLAMATH FALLS, OREGON, WEDNESDAY, APRIL 29, 1914

Price, Five Cents

Colorado Strike Causes Picket in New York by Socialist Writer and Others; Arrests

PRICE IS PLACED ON HUERTA'S LIFE BY MADERISTS

UPON DICTATOR'S DEATH, VILLA GETS THE MONEY

Seventy-Five Thousand in Gold is the Amount Posted by Relatives of the President Who Was Assassinated by Huerta—Mexican Prisoners Attempt to Get Away on the Border, but Are Caught.

United Press Service

SAN ANTONIO, April 29.—The day Huerta meets a violent death the Madero family will pay to General Villa 75,000 in gold.

That may seem like a strong statement to make, but I know that it is a true one. I do not say that General Villa has agreed to kill General Huerta; that is not the proposition at all.

The business man who made these statements is reputed to be one of the best informed men in the Southwest, and the statement, coming from such a source, carries some weight.

SAN DIEGO, April 29.—Fifty-seven Mexican soldiers who have been held prisoners at Fort Rosecrans, escaped early today.

The Mexicans took advantage of a small guard and a blinding rain storm to sneak away. They escaped by digging a tunnel seventy feet long from the tent in which they were confined to the quarantine station yard.

AMERICANS LEFT IN MEXICO CITY PREFER TO STAY

CONDITIONS IN THE CAPITAL ARE QUIET

Believed That Troops Will Be Landed Today—Mediators Are in Almost Constant Session at the Argentine Legation—Returning Refugees Are Believed to Be Bringing Disease.

United Press Service

VERA CRUZ, April 29.—General Funston and Admirals Badger and Fletcher are in a conference today. It is believed that they will decide to land the troops and withdraw the marines.

Mexico City dispatches indicate that the Americans there are in no danger, and they are free to leave if they wish to.

Huerta, it is reported, is strengthening his troops, and is negotiating with Zapata, the guerrilla leader.

United Press Service

WASHINGTON, D. C., April 29.—The Mexican situation apparently has evolved into a diplomatic riddle. The mediators are in almost constant session at the Argentine legation.

They privately admit that their task is a hard one, but they are hopeful of a solution.

Official dispatches state that there are 300 Americans left in Mexico City. Most of these are expected to take a chance and remain.

Fifteen hundred Americans, Germans and English left the capital on a refugee train last night to go to Puerto, Mexico. A British warship will protect them until a transport arrives.

Secretary of the Treasury McAdoo has asked for an appropriation of \$100,000 to be used by the department of public health to prevent epidemics from those returning. This results from the discovery of smallpox, typhoid and yellow fever among the refugees at Galveston.

The immigration inspectors at that port are overwhelmed by the influx of refugees. Extra inspectors have been rushed there.

The transports and colliers on the West coast are reported to be loading refugees. Especially are they busy near Mazatlan, where the Chinese and Japanese colonies are seized with a panic.

American Troops May Take General Scott's Old Route to Mexico City From Vera Cruz

Should it be determined by President Wilson to send troops on to Mexico City, Huerta's capital, to take it, the undertaking will be one of the most difficult.

The Mexican railway, a standard gauge and modern, is described as the "southern route of Mexico," which alone explains its disadvantages.

There are bridges, curves, tunnels on the interoceanic railway of the National Railway system; but as it follows much the same route as the ancient highway, it is supposed that the advance would be made over that way.

At sea level up as high as 5,000 feet to Mexico City. Only trails made by many hundreds of years of the mule trains over the old military road can be followed, and that means a constant harassing by sharpshooters in the mountains.

DEATH TOLL CLOSE TO THE 200 MARK

186 ARE STILL IN COAL MINE, AND THERE IS NO HOPE OF SAVING THEM—RESCUED ARE BADLY BURNED

At least 200 miners are dead as a result of the explosion in the mines of the New Rivers Collieries company yesterday afternoon.

The entrance to the tunnels are all filled with debris, and there is much gas all through the mines.

To prevent misuse of automobiles, a device has been invented that prints within a locked box a record of the time and duration of every stop made by a car to which it is attached and the distance and speed between stops.

The total eclipse of the sun in August will be used by the British Association for the Advancement of Science as an occasion for studying the propagation of electric waves in connection with wireless telegraphy.

"Soulless, Rapacious Corporations" of This City Are Fully Exposed in All Their Iniquity by a Candidate

The following epistle, teeming with "inside dope" on local conditions, is the platform of Dan Corcoran, candidate for mayor, being circulated as a letter.

In view of the fact that I have declared myself a candidate for the mayorship of this city, it is only fair and just that I should let the people know what policies I intend to pursue, if elected.

I have always taken a deep interest in municipal affairs, as I have studied these conditions since I graduated from college.

I will endeavor to explain as lucidly as possible what the people of Klamath Falls need in the rebuilding of their city.

the people to get free delivery of mail; but this should all be done with economy and be compatible with the financial conditions of the city.

"Oregon Dry" Club Now Prohibition Organization Breaks to City Politics

At the Christian church last night the temperance advocates of this city met and formed an "Oregon Dry" club with twenty-nine charter members.

The meeting was called to order by C. E. Widdoes, acting as temporary chairman, while A. R. Wilson was selected as secretary.

It was suggested that the membership roll be opened, and that those who desired could enroll as members of the club.

Twenty-nine of those present signed the rolls, and the meeting was opened for business.

It was decided by the club that it was better for the interest of the movement that the club proceed under the direction of an executive committee, instead of officers, and a committee composed of C. C. Hogue, Rev. Richards, W. H. Shaw, J. B. Mason and Mrs. Boyd was appointed as a nomination committee.

After some consideration they submitted the following names to the club: F. M. Upp, chairman, Rev. Harlan, Maude A. Carlton, E. M. Chilcote and Arthur B. Wilson.

After a brief talk by the chairman concerning the objects of the club, during which he reviewed the work of the temperance forces of the county and explained the financial situation, he stated that to him it seemed an easy matter to bring the membership roll up to date.

United Press Service DENVER, April 29.—Troops B and H of the Twelfth cavalry passed through here this morning from Fort Russell, going to Canyon City, in charge of Captain Parker.

There is rejoicing everywhere that the regulars have been sent to the strike zone.

NEW YORK, April 29.—Upton Sinclair and four women this morning established a "mourning picket line" in front of the offices of the Standard Oil company.

Sweet potatoes are exposed to the attacks of about a dozen serious insects.

It was suggested that the membership roll be opened, and that those who desired could enroll as members of the club.

Twenty-nine of those present signed the rolls, and the meeting was opened for business.

May Fiesta at Church

Series of Entertainments Is Arranged by Ladies

A unique series of entertainments and special services has been arranged by the Ladies' Aid Society of Grace M. E. church for the week commencing Sunday.

The opening number of the series will be the Sunday services at the church. The evening service will be a platform meeting, the theme being "The Young People's Church," and laymen will address the congregation on this important theme.

Tuesday, from 6 to 8 p. m. a dinner will be served by the Ladies' Aid, and the fame of a "Methodist dinner" is far spread.

An illustrated lecture on "The Construction Work of the Reclamation Service" will be Wednesday's attraction.
