

As Socialists View the War

Local Party Gives Stand on Patriotism

Capitalists Owning Everything of Value in That Country Are Responsible for the Trouble, Say Socialists

Because the socialists are opposed to the Mexican war they have been accused of being unpatriotic; and for that reason members of Local Kwanza, No. 2, of the socialist party of Klamath Falls wish to make the statement of their views in regard to war and patriotism.

The socialists maintain that war is one of the great evils resulting from the capitalist system. That war is the result of the clash of economic interests between nations. That war furthers capitalist interests but destroys the working class, from which the armies are recruited. That the workers always fight the battles and the capitalist reaps the benefit. As proof of the causes of the present Mexican war we will give statistics taken from the March Review of Reviews of 1914, an absolute and reliable authority. The following figures are taken from an article entitled, "Who Owns Mexico?"

Of railroad stock in Mexico, American capitalists own \$644,000,000 worth. English capitalists own \$168,000,000 worth. Mexicans own \$137,000,000 worth. In mining stock American capitalists own \$249,000,000 worth, English capitalists own \$1,300,000 worth, and Mexicans own \$14,000,000 worth. In timber lands, American capitalists own \$8,000,000 worth, English capitalists own \$10,000,000 worth, and Mexicans own \$5,000,000. In the oil industry American capitalists own \$15,000,000, English capitalists own \$1,000,000, and Mexicans own \$650,000. In the rubber industry, American capitalists own \$15,000,000 worth. Of the total wealth of Mexico, American capitalists own \$1,557,000,000, English capitalists own \$321,000,000, and Mexicans \$793,000,000. Other foreign nations together own about as much as Mexico. From a knowledge of the ownership of property in Mexico, it is easy to understand whose interests would be benefitted by a stable government, and why foreign capitalists are insisting on American invasion.

President Wilson, knowing the foreign capital has been the cause of Mexican troubles, has, until recently, hesitated from using the military forces of the United States to suppress the trouble, but was finally forced into the matter. It seems that President Wilson has gained his information of the true state of affairs in Mexico from William Bayard Hale, a special correspondent. In the April issue of the World's Work,

Mr. Hale makes the following statement:

"As American army would have no physical trouble in getting out of Mexico. The difficulty would be that greed and false sense of honor would do its utmost to keep us there permanently occupied. Nobody can predict how the influence of the American investments in Mexico, which would be greatly enhanced in value by being brought under the American flag, would render withdrawal of the army impossible. Central American revolutions are promoted from Europe in a regular way of business, exactly as real estate schemes are promoted in America."

In the face of these facts as shown by the article in the Review of Reviews and the direct observations of President Wilson's special correspondent, William Bayard Hale, how can anyone deny that the socialists' contention that the Mexican war has been brought on simply by and for capitalist interests, is not true. As the armies engaged in fighting the battles of a war are members of the working class, it is that class who would bear the sufferings caused by the war. Thousands of both American and Mexican working men would lose their lives upon the battle field, and thousands more would be maimed for life. As an incident in preparing for war, 800 coffins were shipped to Mexico on one American transport. A firm in Canton, Ohio, has communicated with a lieutenant of the Oregon militia offering to supply grave markers in advance, for the sum of \$15 apiece. Just think how many sons of American mothers would occupy these coffins and would need the grave markers as marks of identification.

"War is hell," says General Sher-

man. The capitalists have always used the occasion of war to increase their profits. We have only to remember that during the Spanish-American war more American soldiers were killed by eating embalmed beef of American Packing Company's than by Spanish bullets.

The only way the socialists would be in favor of the war would be that the capitalist class who receive the benefits of the war do the fighting. Let John D. Rockefeller and the rest of the American capitalists interested in Mexico provide themselves with machine guns and fight it out with the capitalists who are backing Huerta. Let the workers of America and Mexico stay at home and shout patriotism and defend the flag.

The socialists are accused of not respecting the American flag. The flag was originally intended to represent liberty, justice and unity. At the present day the forces of the government have been used to suppress labor. Recently in West Virginia, Michigan and Colorado, the capitalists have employed gunmen and have used the state militia to shoot down the working men when they are striving for better living conditions.

Since the forces of the government have been used to suppress labor and to take away their liberty, and that government is represented by the flag, how can the working men be expected to respect that flag. The socialists' desire is that the working man, by peaceful methods, shall acquire the powers of government, and these powers shall be used to further the interests of the working class. The socialists are not fighting the principles the flag represents, but they want to make those rights and privileges, liberty, justice and unity, enjoyed by all.

Cleveland Changes From Central to Eastern Time

CLEVELAND, April 20.—Amid blasts of factory whistles and city-wide celebration, Cleveland at midnight tonight will turn her watches forward one hour, signaling a change from Central to Eastern time. A score of other cities in Northern Ohio will also make the change.

Instead of going to work at 7 o'clock tomorrow morning, thousands of workers will really answer factory whistles at 6 a. m. (Central time), and will cease at 4 p. m. The primary purpose of the change, brought about by Cleveland city officials, is to give workmen an additional hour of daylight.

Some confusion is expected in the

announcement of railroads that, temporarily at least, schedules will continue to operate on central time. Thus a traveler may arrive at 7, prepare his toilet, eat breakfast and take the 7 o'clock train with plenty of time to spare.

Others, unfamiliar with the change may arrive an hour early at the railroad station and be forced to wait. A few adjacent cities will not adopt the change with Cleveland. Railroad tariffs destined to those cities will in this case make the run in less than nothing—so to speak—from a standpoint of Eastern time prevailing in the city of departure.

Mayor Newton D. Baker issued a proclamation several days ago, calling on every citizen to observe the formal change by setting forward the hands of his watch and clock, or clocks, and take part, if possible, in the general celebration.

The desk telephone and electric light have been combined by a New York inventor in one stand in such a way that the light shade collects the sound of the voice and leads it to the transmitter.
