Greatest American Dreadnought and Her Admiral Sail for Mexico

The greatest battleship ever built in the United States, one of the very greatest in the world, the New York, just placed in commission, has gone to Vera Cruz on the first voyage she has ever taken. In fact, the engines of the great vessel had never moved

her till they started her on the journey to Vera Cruz. They had been tested while she was on the ways, and had been found to work perfectly. But her makers were so sure they had built a perfect ship they had no fear of the engines without official tests.

This photograph shows her steaming under the Brooklyn bridge, 100 feet below. No fewer than 1,300 men are under the command of Rear Admiral Cameron McRae Winslow, a larger number than sailed on any battleship to Mexico. The New York was the

third battleship to be built at the New York navy yard in the last ten years. Her keel was officially laid on September 13, 1911. Her length at the water line is 565 feet and her promised speed is not less than 21 knots. Her displacement is more than 27,000 tons and she carries the following guns: Ten 14-inch 45 calibre rifles, four submerged 21-inch torpedo tubes, 21 rapid fire .51 calibre guns, four 3-pounder saluting guns, two 1-pounder semi-automatic guns for boats and two machine guns. The cost of the ship, exclusive of guns and armor, was more than \$6,999,000.

Singers Well Received

A packed house gave a warm welcome to Abrams & Budnick, harmony singers, at their opening appearance at the Star theater last night. Their

duets are exceptionally good, and seemed to please the audience much better than some very good solos. They will be at the Star until Wednesday night.

El PASO, Tex., May 4.—Heavily guarded by the Twentieth infantry, 800 Mexican federals, interned at Fort Bliss, entrained today for Fort Wingate, in New Mexico. They were conveyed in a train of forty-seven coaches.

The men were marched from their barb wire enclosure to the train through lines of infantrymen. Their women, weeping and burdened with their children, clothing and cooking utensils, followed their sullen husbands.

The remaining 4,000 will start this week.
