Testing New Device Which Will Save Wrecked Crews From Death

Tests have recently been made of a new device to save wrecked crews in the ocean where life boats or other means are not at hand. This bathing suit made water tight contains a lunch basket from which the victim may eat for a week or more. He may keep afloat for at least seven days, and remain warm and dry in that time.

Says Bad Watering
Causes Poor Lawns

WASHINGTON, D. C., May 25.—
Bad watering is the cause of almost
as many poor lawns as droughts, ac-
cording to the landscape gardener
of the U. S. Department of Agricul-
ture. Frequent watering of merely
the surface of the grass, makes the
roots of the grass grow near the sur-
face, and these roots should be made
to grow down as deep as possible in
order to secure a fine lawn that will
resist the hottest weather of summer.
The best method of watering the
grass is to apply a spray for from 6
to 12 hours, the stream being so
gentle that water will not collect in
sufficient quantities to run off. The
water will then sink down into the
soil and the roots will grow to a
greater depth. When this method is
used, the lawn should not be watered
often than twice a week and then
the ground should be soaked, so that
the water penetrates for several
inches beneath the surface. As a
general rule, watering once a week
is sufficient to keep a lawn in good
condition.
The man who enjoys watering his
lawn in the evening for a half hour
after returning from work will prob-
ably prefer this method to leaving the
stream on for a number of hours
once each week. If he will divide his
lawn area in 6 parts and confine his
attention to a different part each
evening, he will obtain practically the
same results in the long run. Hap-
pily watering every evening is not
advisable. He should be careful, also
to use merely a gentle spray, and not
continue watering to such an extent
that water runs off, as such water
does no good. In fact, it may do
harm, for it may remove loose dirt
from the grass roots and expose them
to drought. The strong stream of
a hose should not be used, as it helps
to expose the roots unnecessarily.
Many people wonder why drought
dries up their lawns in July after
they have taken what they consider
to be good care of them. The com-
bination of hot winds and dry weather

IN ONE MINUTE! CLOGGED NOSTRILS
OPEN—COLDS AND CATARRH VANISH

Stops Nasty Discharge, Clears Stuffed
Head, Heals Inflamed Air Passages
and You Breathe Freely.

Try "Ely's Cream Balm"
Get a small bottle anyway, just to
try it—Apply a little in the Nostrils
and instantly your clogged nose and
stuffed-up air passages of the head
will open; you will breathe freely;
dullness and headache disappear. By
morning, the catarrh, cold-in-head or
catarrhal sore throat will disappear.
End such misery now! Get the
small bottle of "Ely's Cream Balm"
at any drug store. This sweet, fra-
grant balm dissolves by the heat of
the nostrils; penetrates and heals the
inflamed, swollen membrane which
lines the nose, head and throat;
clears air passages; stops nasty dis-
charges and a feeling of cleansing
soothing relief comes immediately.
Don't lay awake tonight strug-
gling for breath, with head stuffed;
nostrils closed, hawking and blowing.
Catarrh or a cold, with its running
nose, foul mucous dropping into the
throat, and raw dryness is distressing
but truly needless.
Put your faith—just once—in
"Ely's Cream Balm" and your cold
or catarrh will surely disappear.

makes July undoubtedly the hardest
month for lawns, and when the roots
of the grass are encouraged to grow
near the surface by bad watering,
and the loose dirt is also removed
from them by a hose of strong water
power, the results are more disas-
trous than if the lawn had been left
alone.

MEAT CAUSE OF
KIDNEY TROUBLE

TAKE A GLASS OF SALTS IF YOUR
BACK HURTS OR BLADDER
BOthers—MEAT FORMS URIC
ACID

If you must have your meat every
day eat it, but flush your kidneys with
salts occasionally, says a noted au-
thority, who tells us that meat forms
uric acid which almost paralyzes the
kidneys in their efforts to expel it
from the blood. They become slug-
gish and weaken, then you suffer
with a dull misery in the kidney re-
gion, sharp pains in the back or sick
headache, dizziness, your stomach
sours, tongue is coated, and when
the weather is bad you have rheu-
matic twinges. The urine gets cloudy,
full of sediment, the channels often
get sore and irritated, obliging you
to seek relief two or three times dur-
ing the night.
To neutralize these irritating acids
to cleanse the kidneys and flush off
the body's urinous waste get four
ounces of Jad Salts from any phar-
macy here; take a tablespoonful in
a glass of water before breakfast for
a few days and your kidneys will then
act fine. This famous salts is made
from the acid of grapes and lemon
juice, combined with lithia, and has
been used for generations to flush
and stimulate the kidneys, also to
neutralize the acids in urine, so it no
longer irritates, thus ending bladder
weakness.
Jad Salts is inexpensive; cannot in-
jure and makes a delightful efferves-
cent lithia water drink.
