

Klamath Falls May Get Woolen Mill

HUERTA GETTING READY TO LEAVE MEXICO CAPITAL

ASKS IF HE WILL GET THROUGH U. S. LINES

Unconfirmed Rumors State That the Dictator is Already Flying From the Country—Dispatch From Puerto States That German Steamer is Unloading Munitions of War There for the Federals

United Press Service
VERA CRUZ, May 27.—It is reported that Mexico City authorities have asked General Funston if Huerta will be welcomed within the American lines.
Funston would not comment upon this when asked.
There are unconfirmed rumors afloat that Huerta is on his way to Puerto Mexico to take refuge on a German ship. Citizens from the capital expect him to flee sooner or later.

United Press Service
WASHINGTON, D. C., May 27.—American consular officers report from Puerto that the German steamer Ypiranga has landed ammunition there for the Huerta forces.

United Press Service
NIAGARA FALLS, May 27.—The first steps were so favorable that it is believed that another full conference, probably tomorrow, will pave the way for an early settlement of the Mexican trouble.
It is practically certain, though, that unless Carranza approves the list from which Huerta's successor is to be selected, the conference will be a failure.
Carranza will not be included in the list, as he is willing to let his own candidacy await the general election.

Returns to Eugene
Robert B. Kuykendall, who has been reading law in the office of Kuykendall & Ferguson for the past year, left this morning for his home in Eugene. After spending the summer in the forestry service, Kuykendall will attend the Columbia University law school. Kuykendall, who is a brother of D. V. Kuykendall, made many friends while in Klamath Falls.

Seventy thousand rifles were recently landed at Larns, Bangor and Donagahadee for the Ulster unionists. They were unloaded from the steamship Fannie, having been shipped from Hamburg.

Party Chairmen Make Predictions for Campaign

FRANK P. WOODS
Representative from Iowa, Chairman of the Republican Congressional Campaign Committee.

WILLIAM H. HINEBAUGH,
Representative from Illinois, Chairman of the Progressive Congressional Campaign Committee.

FRANK E. DOREMUS
Representative from Michigan, Chairman of the Democratic Congressional Campaign Committee.

If the republican and progressive chairmen of congressional campaign committees are to be believed, the democrats will lose control of the house of representatives this fall. They do not believe the public will uphold President Wilson—not the legislation passed by the democratic majority in congress since March 4, 1913.
This is what Frank P. Woods, representative from Iowa, chairman of the republican congressional campaign committee, has to say about the situation:
"I believe the people are disappointed with the democratic administration, both legislative and executive. It has afforded none of the benefits promised, and has certainly wrought much of the damage feared. It has injured agriculture everywhere and stagnated all productive and industrial activity. It has been destructive and discouraging, and not constructive and encouraging. Both its foreign and domestic policies have been vacillating and un-American; it has cared for the interests of everybody except the American citizen. I feel sure that the American people will show their disapproval this fall by electing republicans to congress in many districts now represented by democrats."
William H. Hinebaugh, representative from Illinois, chairman of the progressive congressional campaign committee, said this of the situation:
"The progressive party is pursuing a straightforward course, perfecting its local and state organizations in every northern state and in many of the southern states. It has become a national party rather than a sectional party, and after the 1914 campaign will at once clear the decks for action in the greater battle of 1916. Reports from our various state organizations clearly indicate that our delegation in congress will be more than doubled in the next congress. Hundreds of progressives will be elected to legislative and county offices throughout the nation, and our organization will then build from the bottom upward. Since 1910 the republican party has lost 125 members of the lower house of congress. It is conceded by all who know the facts that the republicans are bound to lose five senators in the coming election from the states of Pennsylvania, Ohio, Illinois, Kansas and California. A political revolution is on, and revolutions never go backward."
Frank E. Doremus, representative from Michigan, chairman of the democratic congressional campaign committee, has this to say:
"The revision of the tariff, the new banking and currency law, the income tax, the development and extension of

the parcel post, and numerous other constructive measures have increased the confidence of the people in the democratic party, and have formed a record of constructive legislation unparalleled in the history of the country. What will it profit the people to return the republican party to power? What constructive program has it to announce? How much of the great work of this administration will it undo? The American people have confidence in Woodrow Wilson. They rejoice in his patriotism and unselfish devotion to duty. They will in the coming election return a democratic congress to support him in his constructive policies of progress and reform. They will not elect a republican congress that for two years would only embarrass, harass and antagonize him in the great work of restoring this government to the people."

They will not elect a republican congress that for two years would only embarrass, harass and antagonize him in the great work of restoring this government to the people."

Stay in the Old Home

Chamber of Commerce Quarters Is Unchanged

The Klamath Chamber of Commerce headquarters will not be moved from the Loomis building on Fourth street, between Main and Pine. This was decided by the directors at their meeting Tuesday.
It was argued that while a Main street location might be better for displaying products, etc., the greater part of the organization's work was by correspondence, and that the Loomis building location was larger and roomier, and at a lower rental than the McDonald building, proposed as the new location.
At this meeting the Chamber of Commerce directors also accepted an invitation from the Grand Army to participate in the Memorial Day exercises. The directors will take part in the procession.
During the summer months the directors of the Chamber of Commerce will meet on alternate Tuesday evenings, instead of every Tuesday, as heretofore.

INJURED MAN HAS A LONG JOURNEY

THROWN AND HURT, J. H. BECKLEY DRIVES CAR SIXTY MILES TO REACH MEDICAL ASSISTANCE HERE
Suffering from a fractured rib and a badly bruised hip, J. H. Beckley, accompanied by his wife, drove the sixty miles from his Klamath Marsh ranch to Klamath Falls Tuesday, to secure medical aid. He is resting easier today.
Beckley, who reached the Marsh a few days ago from Portland, was on horseback, chasing a steer, when the cinch on the saddle broke, throwing him to the ground.
A \$52,000 armory is being planned for Eugene.

WILL TRY TO PASS BY SPECIAL RULE

FRIENDS OF IRRIGATIONISTS ARE TRYING NEW TACTICS TO GET THE BILL FOR EXTENSION OF PAYMENTS THROUGH HOUSE
WASHINGTON, D. C., May 27.—The house irrigation committee has decided to urge that a special rule be brought in to pass a bill objected to on unanimous consent, extending the time for payment of irrigation projects from ten to twenty years.
The bill has passed the senate. A committee consisting of Taylor of Colorado, Baker, Hayden, Stout and Johnson of Utah, was named to see the president and secretary of the interior, the speaker and chairman of the rules committee, Representative Henry, and try to get the rule.

FREIGHT SCHEDULE IS SUSPENDED

RATES ON AGRICULTURAL IMPLEMENTS FROM CALIFORNIA POINTS TO POINTS IN NORTHWEST ARE HELD UP
WASHINGTON, D. C., May 27.—The interstate commerce commission has suspended from May 25 until September 22 the operation of schedules containing an increase of rates applicable to the transportation of agricultural implements from San Francisco, Stockton, and other California points to points in Oregon, Washington and Idaho.
A movement has been started in Lincoln county to establish a minimum wage of \$60 per month for teachers.

MAY HEAT RECORD BROKEN IN EAST; SEVERAL DEATHS

FIVE FATALITIES REPORTED IN OHIO

Crowded Districts in the Big Cities Are Scenes of Misery—Ice Companies Are Swamped With Orders. Weather Forecasters Are Unable to Promise the People Any Immediate Relief From the Heat.

United Press Service
CLEVELAND, Ohio, May 27.—Five deaths were reported from Canton as due directly to the hot wave sweeping over the state, and from other points come reports of numerous prostrations. Light showers this morning brought temporary relief, but at noon the thermometer was again climbing toward the top, with no relief visible. Ice companies are swamped with orders.

United Press Service
WASHINGTON, D. C., May 27.—The entire East is suffering from the effects of a hot wave, with the thermometer endeavoring to break records at New York, Philadelphia, Baltimore, Washington and Charleston. The center of humidity is at this point with unusual heavy fogs at points along the Atlantic coast.

United Press Service
NEW YORK, May 27.—At 10 a.m. the thermometer was at 85, and going up. The East Side is the scene of much suffering. Yesterday was the hottest day in May since 1882, while it is predicted that today will be still hotter.

United Press Service
PHILADELPHIA, May 27.—At 11 o'clock the thermometer registered 91. Forecaster Bliss predicts 45 for this afternoon.

Official denial has been made by the German emperor that Germany intends to expel all French from Alsace-Lorraine. Permits of certain undesirable persons will not be renewed when they expire. It is intimated that if the Paris press continues its anti-German attitude there will be more expulsions from the conquered provinces.

HEAD OF BANDON PLANT TO REACH HERE TOMORROW

CHAMBER OF COMMERCE DIRECTORS MEET

Klamath Organization Has Been Negotiating With the Coos Bay Manufacturer for Some Time, and It is Possible That the Plant May Be Moved to Klamath Falls Before Long.

There is still a possibility that a woolen mill, with its payroll, may be one of the enterprises operating in Klamath Falls.
A telegram has just been received from R. E. L. Bedillion, manager of the Bandon woolen mills, stating that he is on his way here to take the matter up with the Klamath Chamber of Commerce. He is expected tomorrow night, although it may be a day or so more before he reaches here.

The directors and the manufacturers committee of the Klamath Chamber of Commerce are holding a meeting this afternoon to consider the matter. At this, they will decide whether or not a site is to be offered, etc.

Earlier in the year the Chamber of Commerce began work to secure a woolen mill here, as one of the boosts to the local payroll. There has been extensive correspondence with the Coos Bay concern, culminating in this visit.

According to Klamath Falls men who have seen the Bandon plant, it has new, up-to-date machinery, and it furnishes employment for nearly 100. It is possible that after it is moved here a shirt factory might be started, giving additional employment to the young women of the city.

Getting Better.
The many friends of Miss Fanny Virgil will be pleased to learn that the young lady is gradually improving, and her recovery is now hopefully looked forward to.

After May 30 persons under 40 years of age will be shot if found smoking opium at Chengtu, province of Sze Chuen, China. Those more than 40 years old will be sentenced to penal servitude.

Says Cut Grass Long

Expert Also States That Raking Is Very Injurious

(Herald Special Service)
WASHINGTON, D. C., May 27.—Grass should be cut "long," so that the roots will be protected after the cutting. This means, says the department of agriculture's landscape gardener, that the lawn mower should be set just as high as it will go.
Lawns should be cut frequently, and in ordinary cases, where the cuttings are normal, they should be left where they fall, notwithstanding the contrary opinion of the energetic person who follows up his cuttings with an iron rake.
Lawns should never be raked with an iron rake, except to prepare them for the sowing of grass seed, for such raking harrows up the soil. Neither should they be swept.
If the diligent caretaker of a lawn must follow up the cutting by some other operation, only a wooden rake should be used. Even this should be employed carefully, so as not to disturb such of the grass clippings as have sifted down around the roots.
These grass clippings that settle around the roots afford them a very important protection, and will do much to keep the lawn in fine condition when there is lack of rain later in the season, for they will hold the moisture and act as a shield from the sun.
In fact, the grass cuttings are generally needed about the roots, and should not detract from the looks of the lawn, for they soon shrivel, dry up, and work their way down, so that they are no longer noticed.
Grasses are naturally cool-weather plants, and are liable to be burned by the hot sun about the roots.
