

Russian Dreadnaught Launched at Odessa

United Press Service
ODessa, June 5.—The third stage in Russia's ambitious naval program for the Black Sea was concluded today with the successful launching of the dreadnaught Ekastorina II at the Nikolaioff navy yard.

The two dreadnaughts already launched and soon to go into commission are the Empress Maria and the Alexander III. The fourth, Ivan the Terrible, is to be laid down on the ways vacated by the Ekastorina II. The six destroyers and the six submarines, included in the new program, have already been completed, and two armored cruisers are building. There is also being constructed one of the largest floating docks in the world, capable of carrying a vessel of 40,000 tons. It will cost over \$2,000,000.

Notwithstanding this formidable force, naval experts say that Turkey would have a decided advantage on the Black Sea in the event of a war between the two countries, as the Russian dreadnaughts are to be armed with only 12-inch guns, as against the 16-inch guns of the Turkish cruisers recently acquired by the Turkish government, one from Brazil and the other now completing in England. The longer range of the Turkish guns would, it is believed, more than counter balance the greater aggregate tonnage and armament of the new Russian craft.

Polo Interest Gets Livlier These Days

NEW YORK, June 5.—Britishers, however, neither can class with Lockett. Neither can hope to stop the Waterbury boys anywhere near as effectively as even Lockett did, unless they have improved 80 per cent—and the English enthusiasts don't think either have grown that much.

The American Four look very good. There will be, undoubtedly, the three veterans, Larry and Monte Waterbury and Devereaux Milburn, galloping, but neither can class with Lockett. Neither can hope to stop the Waterbury boys anywhere near as effectively as even Lockett did, unless they have improved 80 per cent—and the English enthusiasts don't think either have grown that much.

Reason for the change of gloom, which can be cut with a knife wherever English poloists meet to discuss the outlook is that Captain Vivian

SOME AMERICAN CANDIDATES

Lockett will not be at No. 3 position when the fracas opens.

It was the dashing, slashing defense and attack of Lockett who met every American catapulting attack with the same sort of goods, that stopped the Big Four temporarily on several occasions last year, and made them begin all over again. It was Lockett's work, more than the work of any two men on the English team, which kept the American score down and the English tally up.

To replace Lockett the invaders will have either Lord Wodehouse or Lord Wimborne. Both are great players, but neither can class with Lockett. Neither can hope to stop the Waterbury boys anywhere near as effectively as even Lockett did, unless they have improved 80 per cent—and the English enthusiasts don't think either have grown that much.

Average Prices for Butter, Etc., Reached

The crop reports of the bureau of statistics (crop estimates) of the department of agriculture, show the average prices paid to the farmers in various states for butter, eggs and chickens on May 1, 1914, and as compared with the similar estimates on May 1, 1913. Apparently farmers are obtaining on an average less for their butter and slightly more for their eggs and chickens.

The average price paid to the farmer for butter on May 1, 1914, was 23.8 cents, or 3.2 cents less a pound than the average price paid on May 1, 1913. In the New England states farmers of New Hampshire seem to have received on an average 32 cents, or 1 cent more a pound, while in Connecticut they were paid 30 cents, or 8 cents less a pound; in Vermont 29 cents and Rhode Island 32 cents, or 6 cents less a pound; in Massachusetts, 37 cents, or 3 cents less a pound and in Maine 30 cents, or 1 cent less. In New York and Pennsylvania and adjoining states, the average price was 28 to 32 cents, or from 7 to 4 cents less. On the coast from Maryland to South Carolina, the prices were either the same or 1 cent higher, ranging from 25 cents to 28 cents. Georgia farmers, receiving 26 cents, seem to have gained 1 cent, while the Florida farmers received 2 cents a pound less, or 33 cents. In the balance of the states, with few exceptions, where the price was stable, the farmers were receiving from 1 cent less to 5 cents less a pound except that in Montana the price was 1 cent more, chickens on May 1, 1914, and as compared with the similar estimates on May 1, 1913.

The farm price for eggs on May 1 were 16.8 cents a dozen, or about 6.7 cent higher on an average for the country than on May 1, 1913, or an increase of about 4.3 per cent. In most of the states the price the same, or varied only by 1 cent one way or the other. In Montana, however, eggs on May 1, 1914, were 18 cents, or 4 cents cheaper than the preceding year, while in New Mexico they were 23 cents, or 4 cents higher on an average.

The price paid to farmers for chickens on May 1 was 12.5 cents, or about 9.7 cent a pound higher in 1914 than in 1913, or an increase of about 5.9 per cent. The variation in the price of chickens was commonly less than 1 cent per pound. The principal variations from this were Delaware, where there was a decrease of 14 cents a pound to 14.5 cents; West Virginia, where there was an increase of 1.2 cents a pound to 13.4 cents; North Carolina, an increase of 4.5 cents to 12.5 cents; South Carolina, an increase of 2.3 cents to 15 cents.

Big Strike Reported at High Grade Claim

By J. SCOTT TAYLOR

NEW PINE CREEK, June 5.—Word was received from the Modoc mine at High Grade Sunday that a big six foot vein, which had been encountered previously on the 50-foot level, has just been struck in the 100-foot drift.

This is the best news ever received from the High Grade district. While it insures a big producing mine on the Modoc property, and will result in the development in the near future of other promising properties in the district.

The parties backing the Modoc are Chicago multi-millionaires, who have been watching the development of the property which has now taken place.

An unlimited capital will now be at the hands of the management of the property for its permanent development.

All of Modoc and Lake counties will soon feel the benefits which are sure to come on the development of this one mine at High Grade, and when work on other properties is commenced these benefits will be immensely increased, and an area of prosperity will be inaugurated which we believe will be of long duration.
