

BERNSEN MAY BE NOMINATED BY SEVEN VOTES; McNARY WILL ASK A RECOUNT OF MULTNOMAH VOTE

ERROR DISCOVERED IN THE CHECKING OF MULTNOMAH COUNTY RESULTS

H. E. Wood, Employed by Benson, Finds a Mistake of Twenty Votes in the Results From One Precinct, the Difference Being the Abstract and the Number of Votes Given on the Tally Sheet.

United Press Service

PORTLAND, June 11.—Henry L. Benson of Klamath Falls has apparently won the nomination for justice of the supreme court over Charles McNary by seven votes. Benson's nomination is claimed because of a mistake of twenty votes made in Precinct 78 of Multnomah county.

The Multnomah county abstract sheet gave McNary 54 votes. The precinct tally sheet gives him only 34 votes, and as he previously led by 13 votes, this throws McNary seven votes behind Benson.

H. E. Wood, an expert accountant employed by Benson, found the discrepancy. The entire vote of Multnomah county will be checked over.

United Press Service

SALEM, June 11.—Justice McNary today said he would ask a recount of the ballots cast in Multnomah county. He will probably ask to have the abstract of votes rechecked in each county.

McNary said he would put this up as a friendly proposition to Judge Benson, now in the least by seven votes. He said that if Benson desires he would agree to a recount of the ballots in any other county also.

DUN & CO. SEE A BETTER OUTLOOK

AGENCY REPORTS THAT SLOW BUT CERTAIN IMPROVEMENT IS PREVALENT — LUMBER INDUSTRY IN FINE SHAPE

Business improvement continues throughout the country—slow, but sure. Failures are decreasing, both as regards the volume and the amount. One of the healthiest businesses shown is in lumber, despite the local talk of stagnation.

Once again the failure record for the United States discloses progressive improvement, commercial defaults during May, as reported to R. G. Dun & Co., making the best exhibit of the year, from a numerical standpoint, and also showing some contraction as compared with the cor-

How to Borrow Money

Uncle Sam Says Some Suffer From Too Much Credit

(Herald Special Service)

WASHINGTON, D. C., June 11.—Five rules designed to convince farmers that there is no magic about credit are set down in Farmers Bulletin 593, "How to Use Farm Credit," which the United States department of agriculture has just published.

Unless the farmer who is thinking of borrowing money fully understands these rules and is willing to be guided by them, the government's advice to him is DON'T.

As it is, there are probably almost as many farmers in this country who

responding period of 1913. Thus there were 1,221 business reverses last month, as against 1,326 in April, 1,416 in March, 1,505 in February and 1,857 in January, while in May a year ago 1,216 concerns were forced to suspend.

All of the decrease from 1913 was confined to the trading class, in which the losses numbered 833 in comparison with 888; manufacturing class insolvent, on the other hand, were slightly larger—322 against 318—and among agents, brokers and firms of a similar character there were no less than 66 failures, or 21 more than a year ago.

Chief significance attaches to the number of suspensions rather than to the aggregate liabilities, and it is gratifying that in the former connection the mercantile death rate is diminishing, especially since more new enterprises are constantly being launched.

Separation of the business mortality record, according to occupation, shows that the 322 manufacturing suspensions involved the sum of \$10,340,189, as compared with \$7,839,778 for the 313 defaults a year ago. Six of the 15 different branches of business into which the statement is divided is disclosed a smaller number of failures than in May, 1913, while in one, namely woollens, etc., there was no change. The best exhibit was made by the group embracing lumber, carpenters and coopers.

MILK CLARIFIER AT LOCAL DAIRY

ALL OBJECTIONABLE MATTER IS REMOVED FROM THE MILK WITHOUT LOSS OF ANY OF THE BUTTERFAT

The latest innovation to be added to the equipment of Straw's dairy is a centrifugal milk clarifier, just installed by the Baldwin Hardware company.

This machine establishes a new high standard for quality in commercial milk, as it thoroughly cleanses the milk of all foreign matter, whether it be in the milk as it comes from the cow, or gets in the milk afterwards. It can be seen in operation at the dairy, and has a capacity of 1,000 gallons of milk per hour.

Though the clarifying process is brought about through centrifugal action, the machine just installed at the Straw Dairy does not separate the butter fat from the milk. This is only one of many special machines installed by the Straws.

Girl Is Born

A daughter weighing 8 1/2 pounds was born this morning to Mr. and Mrs. Alex Cheyne. The Cheynes reside at Spring Lake.

FINLEY WILL BE FETED TONIGHT

EMINENT ORNITHOLOGIST AND FORMER GAME WARDEN WILL BE GUEST OF LOCAL SPORTSMEN AT FESTIVE BOARD

A sportsmen's banquet will be given this evening at the White Pelican hotel, in honor of William L. Finley, former state game warden, who is now in the county in the interests of the biological department of the state fish and game commission. Mr. Finley and Herman Bohman, a noted photographer of bird life, are due today from Eagle Ridge.

Ward Liner Antilla Has Reached Tampico with Arms for Carranza

United Press Service

WASHINGTON, D. C., June 11.—Secretary of Navy Daniels has just been officially advised that the Antilla has arrived at Tampico. He said he has as yet received no information regarding the discharging of the cargo of arms and ammunition which the vessel carried consigned to the constitutional forces, but he indicated that there would be no interference.

Diplomats were shocked at the sailing of the Ward Line steamship Antilla from Brooklyn with 3,000,000 rounds of ammunition for the constitutionalists recently. The vessel was loaded with arms bought by the Carranza government from the Remington Arms company, who made little secret about it. When the time came for the purser to go to the customs house in New York for his clearance papers he went forth and had no trouble in getting them. The ship cleared for Tampico, the port now in possession of the constitutionalists. It was reported that Secretary of State Bryan made some objection to the sailing of the vessel, but no orders were received by the customs collector to prevent him from giving the ship her papers. The German vessels Ypir-

anza and Bavaria, which unloaded many rounds of ammunition for General Huerta at Puerto Mexico several days ago, were fined heavily by the American authorities at Vera Cruz on the ground that clearance papers had been falsified in violation of Mexican law. Such shipments from the United States, however, are said to be barred by an agreement which was reported to have been made between the A-B-C mediators and the state department to the effect that no arms would be shipped from the United States to Mexico during the time the mediators were trying to effect a settlement of the Mexican difficulties.

United Press Service

NIAGARA FALLS, Ont., June 11.—After an extended conference of the mediators this afternoon, it was learned that they have decided to treat the matter of representation of the constitutionalists at the conference as a closed incident. The mediators requested a conference with the American representatives at 5:30 this evening.

United Press Service

MAZATLAN, Mex., June 11.—The federals have surrounded the rebel

force under General Amarillo near Colima. If captured it is expected they will be annihilated.

Should the federals be successful this will reopen communications between the capital and Manzanillo.

United Press Service

NIAGARA FALLS, Ont., June 11.—America is not expected to enter into an agreement here which the constitutionalists may not accept. The American delegates indicate that they expect to see a strong constitutionalist sympathizer named as provisional president, and members of that party dominate the cabinet.

United Press Service

PRESNILLO, June 11.—General Villa has established field headquarters here, and is repairing the railroads south.

A wire from Natera states that the rebels surround 600 federals on the outskirts of Zacatecas. The battle was still raging when the courier left with the message.

MAN WANTED HERE JAILED IN WYO.

JOHN SIMMONS, CHARGED WITH DESERTION AND NON-SUPPORT, ARRESTED ON HOMESTEAD OUT FROM SHERIDAN

Sheriff C. C. Low this morning received a telegram from Sheridan, Wyo., announcing the arrest of John R. Simmons, wanted in Klamath Falls on charge of desertion and failure to support his wife. He was arrested on a homestead 65 miles from Sheridan.

Several days ago the Wyoming authorities wired that they had Simmons located, and Sheriff Low has been awaiting a telegram, preparatory to starting East. He leaves in the morning.

Simmons, who is a carpenter, was married last fall. A few months after his marriage he disappeared. It is hinted that he has wives elsewhere, and may be tried for bigamy.

WAGON WHEEL INJURES BOY

LANGELL VALLEY YOUTH SERIOUSLY INJURED WHEN TEAM HAULING WATER RUNS AWAY, THROWING HIM UNDER WHEEL

Elmer Watts, a 14-year-old Langell Valley boy, is in a critical condition today as the result of a runaway on Wednesday. The horses were hitched to a heavy two-wheeled cart, with a water tank on it.

One of the wheels passed over the boy's head and stomach.

BANDON SWEPT BY BIG BLAZE

FIFTEEN BUILDINGS ARE DESTROYED—DYNAMITE USED IN EFFORT TO CHECK PROGRESS OF THE FIRE

United Press Service
BANDON, June 11.—Fire, originating in a restaurant, wiped out a large part of the town today. Fifteen buildings were destroyed, and the property loss is estimated at \$200,000.

Senator Chamberlain was instrumental in securing \$4,000,000 in appropriations for the Columbia in the rivers and harbors bill.

The Newberg cannery run on strawberries is on, employing 100 women.

MOVIE MAN MUCH IMPRESSED WITH KLAMATH COUNTY

SEES A LARGE CITY IN THE NEAR FUTURE

Head of Picture Concern Which Has Been Operating Here Says Klamath Country Abounds in Scenic, Farming and Other Possibilities, and is in a Class by Itself as a Sportsman's Wonderland — Will Boost Us.

By E. A. SALISBURY (Managing Director Educational Film Company)

I have been asked by the editor of the Evening Herald to write a short article on my impressions of Klamath Falls and vicinity. Why he should have asked for a short article and expected me to cover all the good points that have impressed me is beyond my comprehension.

For the past six weeks we have covered quite thoroughly the districts of Upper Klamath, Williamson, Spring Creek, Crystal Creek, Lower Lake, Aspen Lake and Clear Lake, taking moving pictures of the animal and bird life, beauty spots, renowned fishing streams, and I can truthfully say that for variety of scenery I know of no place on the coast that can surpass it. I believe few people who live here realize the beauties of the Upper Klamath and its many streams. I have watched the sunsets from Eagle Ridge and believe that in the films I have taken of them that I have pictures that will bring many tourists to this region.

Some of the fishing scenes that we have taken on the Williamson, Pelican Bay, Crystal Creek and Spring Creek will make the sportsmen's blood run warm with the desire to hie him to these cool, pleasant retreats.

One thing I have not been able to answer for myself is why there are not more people here to enjoy the opportunities that you have to offer them. First, from an agricultural standpoint: In tramping over the large expanse of tule lands, I have kept in mind the agricultural possibilities, knowing that similar lands in the Sacramento and San Joaquin valleys of California are selling for from \$500 to \$1,000 an acre. Celery, rhubarb, asparagus, peas and beans flourish here, and a cannery could handle most of the garden stuff as they do in the San Joaquin and Sacramento. The field for this product is large, and if other localities can make big money growing these same products on land that has a valuation of \$1,000 an acre, I cannot see why farmers and home seekers could not be made to realize that here is opportunity awaiting them.

I have no doubt that as soon as the railroad is completed, making Klamath Falls a stop on the main line down the coast, that you will have a great influx of people, and I would not be

OREGON SUFFRAGE GATHERING TODAY

MEETING IN "LITTLE CHURCH" AT SALEM IS IN THE FORM OF A MEMORIAL FOR WHAT HAS BEEN DONE

SALEM, Ore., June 11.—Hundreds of suffragists from all parts of the state gathered today in the little church here in which the first suffrage association in this state was organized. The meeting today was in the nature of a memorial in which progress was reviewed and plans for continued activity were touched upon. The northeastern part of the state was most strongly represented.

Late this afternoon the suffragists planned to go to Canton, where a banquet was to be held in a hotel, followed by entertainment provided by a committee of Canton workers for the "cause."

Notice to Creditors

The Goat

Notice is hereby given that Elbertus B. Hall has this day been appointed as His Umpire for the baseball contest to be played Sunday afternoon at Modoc Park by the Journalists and Attorneys. All persons having claims against the aforementioned Elbertus, or who know themselves to be indebted to him, are hereby notified to present these within the week, in order to enjoy clarity of conscience after the obsequies.

Flowers, etc., positively not allowed at the baseball corral. Tributes of this character may be left at the White Pelican hotel, where they will be viewed by the tavern keeper before going to his demise.

Dated this 11th day of June, A. D. 1914.

is Getting Better.

M. L. Poland, a well known Oleno rancher, who has been here on the sick list for several days, is rapidly improving. He expects to go out to his ranch pretty soon.

IMPERIAL VALLEY IN DIRE DANGER

THE VOLCANO LAKE LEVEE COLLAPSES, AND BRIDGES AND IRRIGATION PROJECTS SUPPLY FLUME MAY GO OUT

United Press Service
EL CENTRO, Calif., June 11.—The collapse of the Volcano Lake levee under the present flood of the Colorado threatens scores of bridges in the Imperial Valley country.

The gigantic flume over New River, supplying hundreds of ranches with water for irrigation, is also imperiled. Should this go out the damage would be great indeed, as it would mean no harvest for hundreds of families under the project.

CANAL VOTE MAY BE HAD TONIGHT

BEFORE THE SENATORS CAN VOTE ON IT, THOUGH, BRANDEGEE HAS A TWO HOUR SPEECH TO GET RID OF

United Press Service

WASHINGTON, D. C., June 11.—The final vote on the repeal of the Panama canal free tolls clause is expected this evening. Two elements may delay it.

One of these is a speech of Senator Brandegee in favor of the bill. He expects to talk two hours.

Another is the prospective fight over arbitration. Senator Norris says he will fight for the incorporation of a clause providing for arbitration.

Farm Institute Is Next

Member of Rural Credit Commission to Talk Here

A farm institute of unusual interest is to be held in Klamath county during the week beginning June 22, according to announcement just made by County Agricultural Agent M. A. McCall. The details of this are just being worked out by McCall.

Meetings will be held at Merrill, Malin, Mt. Laki, Klamath Falls and elsewhere. The dates, etc., are to be given out later.

One of the speakers who will be here is Dr. Hector McPherson. Dr. McPherson was a member of the American Commission named last

year to tour Europe and make a study of rural conditions and credit organizations.

Rural economic problems will be taken up by Dr. McPherson while here. He has had special training in this, as well as other lines touching upon the welfare of the American farmer.
