SAN FRANCISCO, Aug. 17.—Forty foreign nations and forty-two states and territories are getting ready for the Panama-Pacific International Exposition at San Francisco. Work on the entire 635 acres is rushing ahead and the program may be summed up in a few words as follows:

In "The Zone" three of the many concessions are completed and twenty are in various stages of progress, with many others only a few weeks from readiness.

The mile race track is graded; the polo field is ready for the referee's whistle; the third of a mile oval cinder track with the quarter of a mile straightaway is receiving the final coat of cinders; the amphitheater for 15,000 persons has been begun.

LAST OF CHIEFS DIES, MODOC CO.

TYEE JOHN, OLD PITT RIVER LEADER, COUNSELLED TRIBESMEN AGAINST JOINING MODOC IN LAVA BEDS CONFLICT

A dispatch from Modoc county, Calif., says:

Tyee John, the last of the noted Indian chiefs of Modoc county, was buried today in the old ancestral burying ground of the Pitt River tribes, fourteen miles west of here. At the time of the Modoc war forty years ago when runners came in from the Lava Beds seventy miles northwest of here asking the aid of the Pitt River Indians in the Modoc war against the troops under General Canby, it was through the talking of old Bob Chipp, the war chief, who died in 1898 and Tyee John, the peace chief, that the Pitt Rivers sent the runners home to their fate and the river tribes remained friendly to the whites.

The old man, in later years, went into the country north of Winnemucca and kept the Indians there quiet. He was universally respected among the whites and last year was the recipient of a small pension from the county.

AUSTRIAN HEIR'S BIRTHDAY GOREY

ARCHDUKE CHARLES CELEBRATES HIS 27TH BIRTHDAY, WITH A NONE TOO ROSY PROSPECT FOR THE FUTURE

United Press Service

VIENNA, Aug. 17.—With his country in the throes of the most terrible conflict in history, Archduke Charles Francis Joseph, who will succeed the aged Emperor Franz Joseph to the Austro-Hungarian throne, if the bitter conflict now raging does not break the already tottering dual monarchy, today was 27 years old. Previous to the outbreak of hostilities it had been planned to celebrate today with all the ikingly regality and pomp that the court of the house of Hapsburg is capable.

Rattle of rifles and booming of cannon changed the program merely to receipt of messages of loyalty and hope for victory to Austrian arms from Kaiser Wilhelm and titled subjects of Germany and Austria.

AMATEUR PERFORMANCE ON WEDNESDAY NIGHT

Crown Prince of Servia Is Fighting

Prince Alexander, the crown prince of Servia, has been in the field against Austria ever since the declaration of war.

The prince had seen fighting in the Balkan wars, so, although he is a very young man, he took to the new campaign with energy. Just before war, his father, King Peter, had almost turned over the government to him. The king, who was in bad health, went off to a resort and did not expect to return for some time. No sooner was the army called into the field than the crown prince was ready. He is now in the field with the troops.

"BUYERS WEEK" A BIG SUCCESS

BOTH WHOLESALE AND VISITING RETAILER WERE PLEASED WITH THE NOVEL "HOME TRADE" STUNT AT PORTLAND

(Herald Special Service)

PORTLAND, Aug. 17.—"Buyers Week" is a thing of the past, but it was a week that will be vividly remembered for a long time, probably until next year's "Week," which from all indications will be attended by a greater number of buyers than the one just past.

The registration at the Portland Commercial Club reached nearly 600 and the visitors represented practically every town of any importance in the Pacific Northwest.

It is estimated that good purchased from Portland manufacturers and jobbers during the week amounted to approximately \$1,000,000.

The visitors were hardly allowed sufficient time to do their buying, certainly no time to get homesick or lonesome, for entertainment of some kind was on tap nearly every minute. Receptions, smokers, theaters, banquets, luncheons and automobile trips followed each other in rapid succession during the entire week.

An express train traveling from Nice to Macon, France, was beaten by twelve minutes by an eagle, which raced it for eighteen miles.

A Maine town has built a concrete watering trough for horses that is flanked by high walls to shield animals using it from the sun, wind and storm.

Many of the forest fires attributed to railroads are caused, not by the sparks from locomotives, but by cigar and cigarette butts thrown from smoking car windows.
