AUTOS GO TO FAIR

IF PROPER PLANS CAN BE MADE, KLAMATH FALLS WILL ALSO SEND A HAND TO MAKE MERRY AT THE BIG SHOW AT BONANZA—MANY ARE PLANNING ON MAKING THE TRIP TO THE CLOVER LEAF CITY AND TAKE PART IN THE CELEBRATION

Last Friday it was "On to Merrill." Tomorrow it will be, "Bonanza, Ahoy!"

A delegation of Klamath Falls people, many of whom attended the big show at Merrill, are planning to leave in the morning for Bonanza and take in the sights there. Reports reaching here through Cale Oliver and others are to the effect that a big surprise awaits the people when they see what the dry farmers out that way are doing.

While the delegation going from here to Bonanza may not be as large as the one to Merrill, there will be a good representation. Any autos not supplied with "Klamath Falls is With You" pennants can secure them at the Chamber of Commerce.

Another matter to call up the Chamber of Commerce about is the number of extra seats in your automobile. If suitable transportation arrangements can be made it is believed a number of local musicians will make the trip, take in the fair and render band music, so extra seats are eagerly sought.

ANTI-PROHI TO TALK TONIGHT

CHAUTAUQUA LECTURER WILL DISCUSS "FALLACIES OF PROHIBITION" AT HOUSTON'S OPERA HOUSE

The first local gun by the anti-prohibition will be fired this evening at Houston's opera house, when Edward Adams Cantrell will speak. "Twelve Fundamental Fallacies of Prohibition" will be his theme.

Because a man opposes prohibition is no reason to accuse him of being a drunkard, for there are many temperance workers who are opposed to the prohibition movement on the ground that it is a move against personal liberty. Such a stand is taken by Cantrell, who is well known throughout the United States for his work on Lyceum and Chautauqua lecture platforms.

CONTINUED ATTACK OF GERMANS INDICATES EFFORTS TO WITHDRAW ALLIED FORCES FROM FIGHTING VON KLUCK

United Press Service
PARIS, Sept. 24.—The Germans made repeated attacks on the allies' center last night, but were repulsed. Experts say that this shows that the enemy is doing everything possible to relieve the pressure of the allies on their right.

The war office admits that the German assaults upon the French center has continued night and day for forty-eight hours. The enemy is plainly working to force a withdrawal of the French from the left.

The French line is holding. The heaviest fighting in the war is done.

General von Bohm's army, comprising practically all of the German active force in Belgium, has reinforced von Kluck.

A statement issued at 3 o'clock this afternoon says that the turning movement of the allies on the German left continues.

The efforts of the allies to drive the Germans from their intrenchments between the Oise and the Aisne failed, and the Germans were able to resist numerous bayonet charges by the allied troops.

The French left wing between Somme and the Oise continues to repel the Germans under von Kluck.

The allies have advanced slightly to the northwest toward Reims, and a detachment has occupied Peronne.

The losses to the active German corps has been enormous, the Bavarians suffering most.

YES, REALLY IT IS NOT SUMMER

WEATHER IS SO LOVELY THAT INDEMNMENT HAS TO BE OFFERED TO GET THE STRAW HATS OFF THE STREETS

Summer is a thing of the past.

This is self-evident in many other places, where overcoats, etc., have made their appearance, but here in Klamath Falls, where the days are ideal, the temperature just right and the grass and flowers still green, it is hard to realize it. Only the rancid hues of the falling leaves and the talk of high school football tend to show the season.

But we come again on the same line: "Summer has went." In fact, it has been a thing of the past for three days, for the beginning of the autumnal equinoctial season is here.

No other indication of the ideal weather here need be cited that the fact that straw hats are still being worn by some of our male population. But they won't be long, if the K. K. K. store can help it.

In today's issue of the Herald that popular emporium offers to buy up last summer's straw hats. It makes no difference how yellow or battered they are, they all fetch the same price the present week. This is two bits per, to be applied on the purchase of a new fall hat.

LOWER GATES SHUT

RECLAMATION OFFICIALS ORDERED TO MAKE A TEMPORARY CLOSING FOR THE WINTER—WILL BE OPENED IN THE SPRING UNLESS LAND OWNERS HAVE COMPLETED ARRANGEMENTS WITH THE VAN BRIMMER TRUST PEOPLE.

Project Manager J. G. Camp has just received instructions from Washington to close the headgates in the railroad embankment, where the Southern Pacific crosses Klamath Straits. This will close the waters of the Klamath River out of Lower Klamath Lake and marshes.

This is a temporary closing order at present.

If permanent agreements can be made between the marsh land owners for the reclamation of these lands and the supplying of water by the Van Brimmer ditch at Merrill before February 1, 1915, the order can be made a permanent one. If not, the gates will be opened in winter to supply water to the Van Brimmer ditch, which will mean the flooding again of the marshes.

This has been an unmitigated year, and the water in Klamath Lake is at an extremely low stage. The government desires at this time to take advantage of this low stage to hasten the drying up and reclaiming of the marsh lands.

With the water shut off while the stage is low, the marsh land owners, if they provide for the irrigation under the Van Brimmer ditch, can gain a great start this year in their work of reclaiming about 54,000 acres of marsh land around the lower lake.

It is reported that Carruthers and possibly John Lind may return immediately to Mexico, in an attempt to prevent further bloodshed. The Villa plan is announced that the plan to remove the Carranza troops from the city will not be changed because of the lack of cooperation between Villa and Carranza.
