

# ATTRACTIONS OF MORE THAN USUAL INTEREST

RECENTLY the towns of Merrill, Bonanza and Fort Klamath have been entertaining the citizens and visitors of Klamath county with displays of home grown products almost unbelievable, even by our own people.

We doubt if many of us actually realized the possibilities of this great country until these different displays were seen and examined.

We also doubt if the majority of citizens of this county KNOW or realize the completeness of Klamath county's biggest and best Drygoods Store—a store with more than SIX THOUSAND SQUARE FEET of floor space, packed almost to the limit with new fall and winter merchandise at most reasonable prices.

In this entire store you won't be able to find \$200.00 worth of merchandise where the price has been affected by the present war.

You can find almost anything you could wish for in drygoods, shoes and ready-to-wear merchandise, and, by comparing our prices with the different mail order catalogues, you will find it will be decidedly to your advantage to buy at home, where you can first inspect the merchandise and then have the use of it from the time you pay out your money.

This store has recently received new shipments of the following: women's ready-to-wear garments, men's and boys' suits, overcoats, sweaters and mackinaws; more than \$2,000.00 worth of new fall and winter shoes, laces, embroideries, blankets, underwear, hosiery—in fact, there is no department but what has received new shipments the past few days.

**Don't Miss Seeing the Unusual Display in Klamath Falls Next**  
The large booth containing this display is located at 411-413-415 Main street

You'll find a crowd almost any time you come, but you'll also find a corps of willing clerks who are anxious to show you the new fall goods.

## GOLDEN RULE THE PEOPLE'S STORE

### Big Travel Next Year Anticipated

(Continued from page 1)

construction of Crater Lake Lodge, the new hotel at the rim, and the building is now 95 per cent completed. We intend to open this hostelry next season, so early in June I am coming to Klamath Falls to get a gang of carpenters to go into the park to finish the interior of the hotel, and have it ready for guests by July 1. The new hostelry is to be four stories in height, the three upper stories to be of imitation half timber and the lower one of stone. All modern conveniences will be installed.

With the completion of the hotel, we will remove the tents from the rim of the lake. These we will group at the Lower Camp, where government headquarters are located, and there

we will conduct a camp for tourists at a lower rate than at the rim. This will be an ideal location for those wishing to explore Dewey, Anna Creek and Sand Creek canyons and the Garden of the Gods and climb Union, Arant and other peaks.

A still greater collection of Crater Lake views than his matchless work in other years was made this year by Mr. Kiser. He spent the entire season photographing the lake and its surroundings in its varied moods, and he will this winter display some striking new pictures, with every element in harmony for the special study made.

From this new set of pictures, Crater Lake is to be still more widely advertised. A set of enlargements, in colors, are to be installed in the state capitol by Mr. Kiser, and he has already promised to make another set of colored enlargements for the bureau of national parks. This bureau uses these pictures for educational

work, and they will be exhibited in all the libraries in the big cities, as well as in the leading educational institutions.

"In addition to the exhibit of Crater Lake pictures with the Southern Oregon exhibit and installed in the illuminated columns, I have received a contract for a display of these pictures in the Oregon building at the Panama-Pacific exposition," said Mr. Kiser. "A space has been reserved in an extremely advantageous location, and I am to fill that space with enlargements in oil colors. These enlargements will be about 2x4 feet and 4x8 feet, and there will be at least twenty of them. They are to be framed in rough finished natural woods."

Although the hotel is closed at the park, road construction is still under way in the government camps. This work will be continued until the first part of November.

A force of men is at work now

building the roads to connect the Fort Klamath, or Klamath Falls entrance road with the Sand Creek road. This will be completed in a few days, and will allow Klamath Falls tourists to go to the lake via Anna Creek canyon and return via the scenic Sand Creek canyon.

**WOMEN**—Sell guaranteed hosiery to friends, neighbors and general wearers; 70 per cent profit; make \$10 daily; experience unnecessary. International Mills, West Philadelphia, Pa. 6-101\*

More than 200 giant searchlights which are to be used as a part of the 500 at the Panama-Pacific exposition have arrived on the exposition ground and are being put in place. Those received are 18 and 13 inch, and are the smallest sizes that will be used. There will be 100 30-inch searchlights, and many between three and four feet in diameter.

### SIXTH STREET JOB NOW COMPLETED

CITY ENGINEER AND STREET COMMITTEE PUT THEIR "O.K." ON THE WORK AND FINAL CLAIM IS PAID

Sixth street is now fully completed by O. A. Harris. At last night's meeting of the council City Engineer McLean's report approving the work, and the report of the street committee accepting this report, were read and accepted by the council.

Under this improvement, Sixth street was paved from Winlock avenue to the city limits. The total cost was \$29,245.16.

### MAY EXPERT THE CITY'S ACCOUNTS

FINANCE COMMITTEE TO MAKE A REPORT AT THE NEXT MEETING OF THE COUNCIL—WILL DECIDE AT THAT TIME

There is a possibility of the city's books being audited this year. The matter was discussed at last night's meeting of the council.

Final disposition of this question will be made at the next council meeting. The matter was referred to the finance committee to investigate during the week.

### MOVING PICTURES

The Star theater has another fine two reel offering in "Love's Sunset," a tragic story, finely presented, the scenario being the product of Owen Bronson.

It tells the story of a cabaret girl who is cast off by one man, and marries another without revealing the secret of her past life. Later the first man appears, and some strongly emotional scenes result. Clara Kimball Young is seen at her best in this two-part Vitagraph story.

A Biograph drama and a Kalem comedy completes the program.

What the "Better Habes" movement means is to be explained tomorrow night at the Star theater in moving pictures, stereopticon slides and lecture. Mrs. LaMoine Livingstone of Portland will be here then, in her tour of the state, and give the lectures that are so highly endorsed by the Oregon Congress of Mothers, the state Parent-Teacher Association and other organizations.

The same side of eugenics is pointed out by the lecturer in a clear and forceful way. The difference between the care a man will show in the betterment of his livestock and in the future of his own offspring, long deplored, is now being put forcefully before the people. Though the campaign is but a few years old, already the results are being shown.

Mrs. Livingstone's lectures contain a great lesson for all.

## To Open Bids Soon for New Warships

United Press Service  
WASHINGTON, D. C., Oct. 6.—Bids are being received and will be opened soon at the navy department and contracts awarded for construction of the three new battleships authorized by congress this year, to be named the Idaho, Mississippi and California. Each will cost \$7,800,000, exclusive of armor and armament.

## Will Entertain Head of Forestry Service

Henry S. Graves, forester and chief of the forestry service, is to be entertained in Klamath Falls within a short time. At that time his attention will be called to matters of importance to this section. The chief forester is now making a tour of the Northwest, studying conditions. In a few days he will visit Crater Lake, and make an inspection to determine how much aid can be extended from the government in the construction of roads through the forest reserves, leading to Crater Lake.

Mr. Graves will go to Crater Lake via Medford. From the lake he will come to Klamath Falls, and will be feted and banqueted. He will be met at the rim of the lake by local autoists, and escorted here.

LOST—On road within last few days, crank for starting auto. Finder please leave at Central garage. 6-31\*

Plans for New York city's \$50,000 building on the grounds of the Panama-Pacific exposition have been received by the exposition board of works. One of the features of this building will be oil paintings of great size, showing New York city in 1715, 1815 and 1915. Many other interesting features are being prepared.
