BETTER BABIES MOVIES TONIGHT

LECTURE ON EUGENICS, SUPPLEMENTED BY MOTION AND STEREOPTIC VIEWS AT THE STAR THEATER

A lecture that is of vital interest to all residents of Klamath Falls will be given this evening at the Star theater by Mrs. LaMoyné Livingstone, who is touring the state in the interests of the eugenics movement. She will talk of the "better babies" plan, and in connection with her lecture 1,000 feet of film along this subject will be shown, together with stereopticon slides.

That Mrs. Livingstone is qualified to speak on this vital subject is attested by the testimonials given her by the Oregon Congress of Mothers, the National Eugenics Society, and similar organizations. She is making an independent tour of the state, spreading her great gospel with wonderful effect. Work for racial improvement is the life mission of Mrs. Livingstone. She speaks with authority on this subject, and in the film facts brought out by actual tests are woven into an interesting and instructive story.

Going to City.

Austin Hayden leaves in the morning for San Francisco, to attend to business matters.

Down From Homestead.

M. K. Gray, who has a homestead near Coon Point on the Upper Lake, is here attending to business matters.

Word just received from England by officials of the Panama-Pacific International Exposition gives hope that specimens of the famous Chillingham wild, white cattle will be in the livestock show of the exposition. These cattle were first enclosed in Chillingham Park in 1220 A. D. They have been traced as descendants of the white bull of Caledonia.

SHAKEUP COMING IN POSTOFFICES

REORGANIZATION OF THE OFFICES IN SEVERAL OF THE LARGER CITIES ARE BEING PLANNED IN WASHINGTON

United Press Service
WASHINGTON, D. C., Oct. 7.—Plans for the reorganization of the postoffice staffs in a score or more of the larger cities, with general shakeups in the personnel, has been announced by the postmaster general.

Cleveland, Ohio, will probably be the first affected. The plan is to discharge the postmaster from all except executive functions, and to put experienced men in charge of the direct work of handling the mails.

WAIT ALL NIGHT TO GET TICKETS

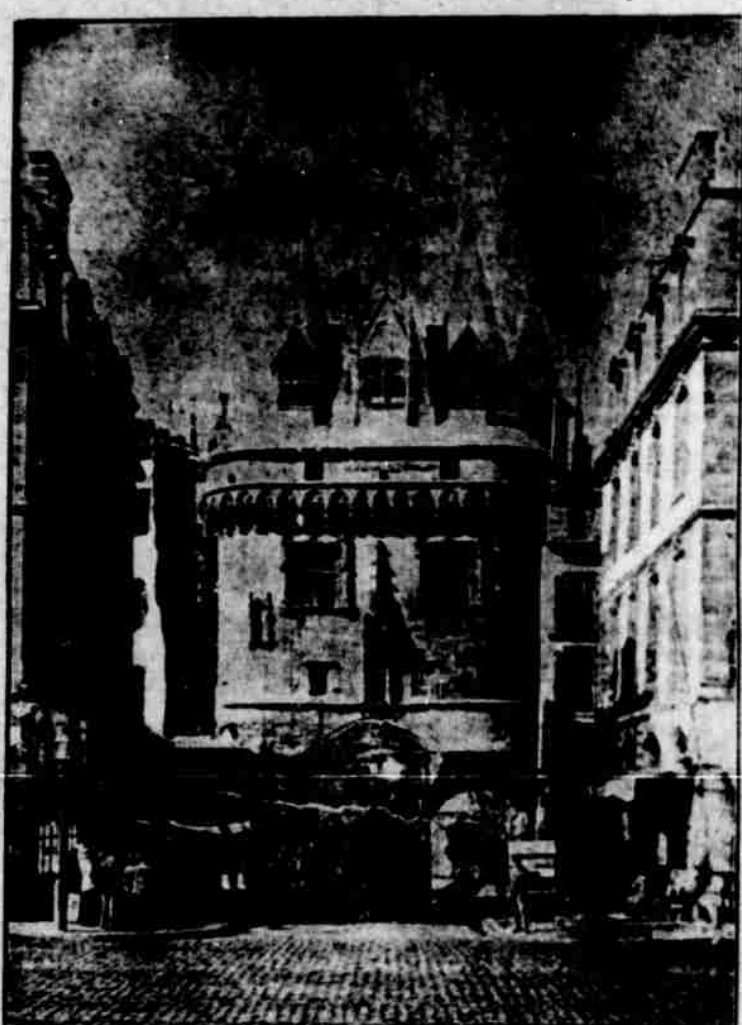

STEADY DRIZZLE DOES NOT DAMPEN THE ENTHUSIASM OF THE FANS WHO WANT TO SEE THE WORLD'S SERIES

United Press Service
PHILADELPHIA, Oct. 7.—Tickets for the world's series games were placed on sale at 9 o'clock this morning. Three thousand fans were in line all night, despite a drizzling rain. It is estimated that three-quarters of these tickets are bona fide fans, the rest being scalpers. Each is entitled to purchase two tickets.

Insurance that pays. See Chilcote, 625 Main street.

There are 9,400 retail stores in Pennsylvania managed by women.

Entrance to the French Government Building at Bordeaux

This is a scene in front of the entrance to the French government building in Bordeaux. It shows the gate to the building and grounds where the temporary offices of the republic are located.

Mrs. Charlotte Hunt of California is now 91 years of age, and learned to read from embossed type. She is the oldest known blind woman able to read by the embossed method when she was 89 years old.

SUNDAY AND MONDAY

OCTOBER 11 AND 12

"In Mizzouri"

WELL KNOWN RURAL DRAMA IN FIVE PARTS

Featuring Burr McIntosh, who will be remembered by the people of this city, having been the leader in the New Year's entertainment at the White Pelican Hotel three years ago.

ORPHEUS

ADULTS 20c,

Klamath's Klamath Show House
CHILDREN 10c.

Tonight is amateur night at the Orpheus, and with the usual three acts a three reel feature will be shown that is far above the average movie. "Across the Atlantic" is built around the plans for a new aeroplane invented by an American, which are stolen by agents of a foreign government. After a chase which ends in London, the plans are recovered. Numerous aeroplanes are shown, and action aplenty is to be found in this offering. A Sterling comedy, "Almost Married," completes the bill.

Next Sunday and Monday that well known rural drama, "In Mizzouri," will be shown in movies at the Orpheus. Burr McIntosh is featured in this production, and is supported by an all-star cast of fifty people. At the New Year's entertainment at the White Pelican hotel three years ago Mr. McIntosh made quite a hit with his rendition of "Alexander's Rag-Time Band," and other popular airs. In full uniform, Mr. McIntosh led his musical organization through numerous difficult airs.

War movies, with the "smell of the powder still on 'em," is what "Twig" will hand out to the patrons of the Temple theater today as an added feature. This film shows the German army in action, and London in war time. The pictures are the timeliest ever sent out, as they were taken seven days ago by Pathe photographers. "Etienne of the Glad Heart" is the title of a two reel Selig drama of the Northern country. In this Wheeler Oakman, who did splendid work as "The Broncho Kid" in "The Spoilers," appears in the leading role, that of a French Canadian. The action is brisk, the plot intense, and the scenic effects wonderful.

While Mayor Bauer of Lafayette, Ind., was attending a convention in another city, Miss Elizabeth Younker assumed the duties of mayor, and was in full charge of all departments of the city government.

German builders are planning the construction of a 16,000 horsepower gas engine, and in Switzerland gas locomotives have been built.

If it's worth having, it's worth insuring. See Chilcote.

FIRST SHIPMENT FROM NIPPON. SOON AT SAN FRANCISCO. WORKMEN ALSO COMING ON THE SHIP

United Press Service
SAN FRANCISCO, Oct. 7.—The first shipment of materials for the Japanese government building at the Panama-Pacific exposition, consisting of building materials, stones and trees for the garden, will be brought to this city on the steamer Shinyo Maru, which leaves Kobe October 8th.

On the same steamer will be picked Japanese workmen. The Shinyo Maru will bring 400 tons of material for the building, eighty-five tons for the Japanese tea house and 150 tons of stone.

The Chiyo Maru, leaving Kobe October 27th, will bring additional complement of men and materials. Architect Goichi Takeda is also expected to arrive on the Chiyo Maru.

SCHOOL BOARDS AT INSTITUTE

MATTERS OF INTEREST TO THE DISTRICT DIRECTORS TO BE CONSIDERED LATER IN THE MONTH

The following letter is being sent to the school officers of the county by County School Superintendent Fred Peterson:

The annual school board convention will meet at the high school building in Klamath Falls, at 10 o'clock, Friday, October 16, 1914. I should like very much to have at least one member from each school board of the county present at this meeting.

Subjects for discussion will be "Condition and Care of School Buildings," "The Teacher," "School Legislation," "School Taxes."

Definite action on some matters of importance will be taken at this time. Do not fail to be present.

Meals may be taken at the high school lunch counter.

Some of the occupations now open to women are laundry overseers, landscape gardeners, dietitians, social secretaries, farm managers, interior decorators, photographers, chemists and bacteriologists.

San Francisco is to have a newspaper owned, managed and circulated by women. It is to be run in the interest of the democratic party, and Miss Mary Fairbrother will be the managing editor.

To retard the speed of motor trucks or stop them entirely, if not running too swiftly, a Frenchman has invented a wide bladed fan, horizontally mounted beneath the vehicle.

A patent has been granted for a rod with a handle at one end and a spring hook at the other for leading dangerous bulls by their noses.

Political Announcements

For Justice of the Peace
Attorney O. E. Willey, democratic candidate for Justice of the Peace, Linkville District. A man is a profession requiring judicial knowledge & best fitted for a judicial office.

A wonderful floral wall 1,100 feet long, 26 feet high and six feet thick is almost completed in front of the Panama-Pacific exposition. This unique floral rampart is an exposition novelty, and comes after many experiments with flowers and vines. The money, pink-flowered ice plant, known scientifically as mesembrythemum spectabilis, has been used. Irrigation is effected by means of perforated pipes placed on the top of the wall.
