# RUSSIANS ARE CLOSE TO CRACOW

## **NO CHANGES IN** TIDE OF BATTLE

United Press Service

PARIS, Nov. 11 .- This evening's communique says the fighting at Sesport and toward Lys continues with the utmost intensity, with varied successes for both armines.

The Germans now hold Dix Mude. The allies have taken Lombacrizyde Indications are that the Germans have reinforced at Ypres. The fighting there continues with the violence that has characterized the entire

Artiflery is constantly in action on both sides, with repeated infantry

There appears to be little change in the situation throughout France and Belgium, and the conflict rages with all of the fury that has been shown continuous for a fortnight.

A report is current that the German command in the Woevre region has been transferred to General von Gelz, and Crown Prince Frederick Wilbelm has gone to East Prussia, to take command of the kalser's forces ighting the invading efforts of the czar.

## MUSCOVITE MEN TAKE GERMANS

PETROGRAD, Nov. 11 .- It is reported that the Russians have captured General von Makenge, commanding the Seventeenth German corps, and his staff. General von Liebert, German commander of the Lods army, is also reported a prisoner.

The authorities say the task of heating Turkey will in no way cause a slackening of the pressure Russia is exerting along the East Prussian frontier. Everywhere in East Prussia and Posen, the Muscovites are advaing. It is believed that the Russians will crush all German resistance by sheer weight of numbers.

Reports from the front indicate that Kaiser Wilhelm is strength his forces in the east by drawing troops from Belgiam. Men who commanded troops in Flanders a week ago have been captured in East Prussia

HE Palace of Horticulture of the Panama-Pacific International Exposition is the most striking architectural HE Palace of Horticulture of the Panama-Pacific International Exposition is the most striking architectural triumph ever created for any Exposition. Whether the aweep of the Exposition's 635 acres is viewed from the distant hills or from a nearer view, this commanding edifice attracts early attention and admiration. The great dome is the largest hemispherical glass dome in the world. It is 185 feet high and has a diameter of 152 feet. It is crowned by a mammoth basket. Surrounding this dome are the spires that give the Saraccale in fluence, and these are of a marble whiteness and surrounded by beautiful sculptured figures of young women in a general way the palace follows the ideas incorporated in the mosque of Sultan Ahmed F. The decorn tions and sich ornamentation have the French renaissance feeling. The numerous smaller domes that surround the building have latticed work, where rare vines and flowers will bloom to give added beauty to this tackling typical of places and flowers. The extreme length of the palace is 600 feet and the width 300 feet.
