

# Miners Get Together for Important Contab

United Press Service  
 DENVER, Nov. 11.—A meeting of vital interest to the metal and coal miners of the country will be held about the middle of this month, when the joint committees of the United Mine Workers and Western Federation of Miners begin final consideration of plans for absorption of the Western Federation by the United Mine Workers. The joint committee met in Butte last month, but adjourned to meet here the middle of November.

While the Butte conference indicated that the absorption would probably be recommended by the United Miners, the United Miners committee wanted to come here to investigate personally the membership claims of the Federation, and inquire into details of its methods of administration.

A member of the United Miners committee recently expressed the opinion that, in the event of absorption, it would be a year before the Western Federation would lose its identity and become merely a department of the United Miners.

## SOME MINOR WAR NEWS FROM EUROPE

LITTLE STORIES FROM THE FRONT THAT ARE COMING IN THROUGH THE CAPITALS OF THE NATIONS NOW FIGHTING EACH OTHER—SOME ARE TRIVIAL, BUT ALL ARE INTERESTING AT THIS TIME.

United Press Service  
 Paris—A French priest who lied to save four English soldiers who got lost from their troop is being hailed as a hero in a little village in Eastern France.

The four "Tommys" reached the village late in the afternoon. The priest, realizing what it would mean to him if the Germans found him harboring them, took the soldiers in and fed them and provided them with a place to sleep.

Not long after a band of Uhlans rode into town. Assembling the townspeople the officer in charge demanded that they tell where the Englishmen were, as they had seen them enter the town. The townspeople all knew where the four soldiers were, but they looked toward their priest.

In a loud voice, so that all the townspeople would be certain to hear him, the priest disclaimed any knowledge of the English soldiers.

"They must have gone toward Paris," he said, and the Uhlans rode away.

Amsterdam—A letter received here by a resident from a friend near the

border tells some interesting facts of the way the Germans regard the progress of the war. The letter follows:

"I have seen a letter from a very high German official, who has been at the front since the beginning of the invasion of Belgium, and is now in an invalided home, in which he says 'the war is not going as we expected. The resistance of the allied forces is extraordinary and we are beginning to feel very nervous as to the result.'

"Our (German) losses are terrible, so terrible that the emperor has forbidden their disclosures. Our generals have been wantonly wasteful with our men, who have been mowed down in thousands.

"While it is impossible to say exactly what our losses are, I should estimate them between 350,000 and 400,000. If it continues at this rate much longer we shall be quite unable to meet Russia with any hope of success."

The high council of the church of England has voted to give women the suffrage in the election of church councils, and also the right to sit in parochial councils.

## Rockefeller Relief Ship for Starving Belgians

The Massapequa, with 4,000 tons of flour, rice, bacon and beans, has left the United States for Rotterdam, Holland, to feed the starving Belgians driven from their own country by the German troops. Two other ships will leave in a few days. They have all been chartered by the Rockefeller Foundation, president of which is John D. Rockefeller Jr.

## A LITTLE SPORTING GOSSIP

By Hal Sheridan

United Press Service  
 NEW YORK, Nov. 11.—If President Gilmore of the Feds is running true to form, the baseball meeting now in progress at Omaha is not worrying him. The minor league magnates are trying to console each other over the disastrous year which they just closed, and also searching for subtle words that will generally ease to the big league bosses the question of what they are going to do about it.

Gilmore has said that among the few things that he does not want are the minor leagues scattered hither and yon about the country. Why build up a baseball system and have to pay for players through draft or purchase when Organized Ball will keep up the system which may be raided without spending a cent? is the way Gilmore figures.

If Gilmore doesn't want minors in his organization, however, and Organized Ball sacrifices them in the continued fight on the Feds, it will

be a serious blow to the game. LONG have the big league magnates patted the little fellows on the shoulder and told them how they were the "backbone of the game." Right now, however, the heaviest blows are falling on the minors, and if these "backbones" are to be permitted to be broken, it will shut off the supply of players for the major leagues, and there will be a scarcity of material developed in the bushes from year to year.

The minors do not expect to make a great deal of money at their gates, but they do expect to realize on the sale of stars they develop. If Gilmore is able to step in and grab these stars by giving them more money than they could get from organized ball, it is good night, minor leagues. And the Feds can afford to do this. They can simply apply to the man's salary an amount similar to that a club of organized ball would have to put up for his purchase, and not be spending any more for the player than some major league team would be putting up.

Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teacup full at any time during the day or before retiring. It is the most effective way to break a cold and cure grip, as it opens the pores of the skin, relieving congestion. Also loosens the bowels, thus breaking up a cold.

Try it the next time you suffer from a cold or the grip. It is inexpensive and entirely vegetable, therefore safe and harmless.

**Making Progress**  
 The Hauser & Hauser work in the Tenmile district is getting along famously, and the good weather in October allowed the graders to proceed with work they had expected to be obliged to abandon. The greatest trouble now is in getting the freight, which amounts to twenty-five tons daily, over the country roads from North Inlet landing. The scene of activities is mostly from four to seven miles from North Inlet and the heavily loaded wagons are cutting the roads up badly. A few more rains, it is believed, will make them so bad it will be impossible to do much freighting.—Marshfield Record.
