## LOOK WHO IS WITH US NOW

FOR THE THIRD TIME THIS YEAR HOODOO DATE OCCURS, AND MANY ATTRIBUTE THE WAR AND MACK'S DEFEAT TO THIS

Today is the thirteenth and Friday, too. This is the third time the combination has come together this year, which may or may not have something to do with the European war and the upsetting of all sport dope.

At least, superstitious people will not have any great cause to rejoice on this day except to shout "I told you so."

In 1913 there was only one Friday the thirteenth. Next year there will be only one such hoodoo date.

## MONROE DOCTRINE UP

## Germans Feel They Have Right to Ship Contraband

WASHINGTON, D. C., Nov. 13.—High diplomats say that a new construction of the Monroe Doctrine, this from a German point of view, may be put up to the state department and President Wilson. This will be in case the United States attempts in the slightest degree to interfere with the shipments of coal and other contraband of war from South American countries in German vessels.

## ANOTHER DIG IS GIVEN PRESIDENT BY LABOR LEADER

SAYS ANOTHER VICTOR HUGO IS NEEDED

Introducing "Mother Jones" to the Convention of Labor Organizations, Gompers Says "Rockefeller Works for Jesus, But Sends Gunmen Against Miners in Colorado Says too Many 'High Class Burglars.'"

PHILADELPHIA, Nov. 13.—The labor disturbances of the past year in the Colorado mining districts came to their climax at the convention of the American Federation of Labor today when President Samuel Gompers introduced "Mother Jones," the aged woman who has led the strikers, to the delegates.

"Rockefeller works for Jesus, but he sends gunmen against the miners when they strike," said Gompers. "If President Wilson was a man, he would give Rockefeller just five days in which to settle the present disagreement."

"Colorado has the finest labor laws in the nation," continued the speaker, "but they are cast aside by the high class burglars who are running that state."

"You will never know the atrocities that have been enacted in Colorado by Rockefeller and his associates unless another Victor Hugo comes to portray it. Children were burned or wanted to death, and upon the mangled hearts of these children and their suffering parents is builded the Rockefeller fortune."

## Garrett's Bid Is Better Than That of Chicago Firm, Which Asked for Attorney Fees from City

Rev. Wm. McMillan, S. J., pastor of the Church of the Sacred Heart, will go to Merrill tomorrow, and on Sunday will minister to the spiritual needs of his parish in the alfalfa city.

As a consequence of his absence there will be no services in the church here on next Lord's Day.

## Crew of German Submarine U9, Which Sank Four British Ships

These are the heroic men of the German submarine U9, which sank three British cruisers September 22 and later sent the Hawke to the bottom. The photograph was taken after the return from the dash into the North Sea which startled Great Britain, and before the submarine sank the Hawke. In the center of the photograph is Captain Lieutenant Otto Weddigen, commander of the ship, who is now the hero of Germany. On their return the members of the crew were feted in Germany, and the populace went mad over them as is possible for solid Germans to do.

## POWERS TO SPEAK TO THE INDIANS

OREGON AGRICULTURAL COLLEGE MAN IS ALSO ON HIS WAY TO LAKEVIEW TO PLEAD FOR A COUNTY AGRICULTURIST

On his way to Lakeview to work for the appointment of a county agriculturist, Professor W. L. Powers of the Oregon Agricultural College, will reach here this evening. A movement was recently started in Lake county for a demonstration farm, and Powers holds this to be inadvisable, as the one farm cannot demonstrate what can be done in all parts of the county, as could be done through the activity of a county agriculturist.

On his return from Lakeview, Professor Powers will speak at Chiloquin, addressing the Indians on farm topics.

## EIGHTH STREET BONDS ARE SOLD

GARRETT'S BID IS BETTER THAN THAT OF CHICAGO FIRM, WHICH ASKED FOR ATTORNEY FEES FROM CITY

## REMOVE PORTION OF "DEAD" BONE

ABSCESS IN BONES OF BLACKSMITH'S LEG ALSO DRAINED. CAUSED FROM AN OLD COMPOUND FRACTURE

After suffering for a long time from a chronic condition of the bones of the leg, supposedly caused by a compound fracture received years ago, F. M. Bold, a Bonanza blacksmith, on Thursday underwent an operation at the Blackburn hospital. Today he is reported as doing nicely.

The operation was performed by Drs. Truax and Hunt, and in addition to the removal of a portion of the fibula, which had become dead, the surgeons drained an abscess that was found in the leg bones.

## DARKNESS

One definition: "A blind Ethiopian chasing a black cat in a dark cellar at midnight."

That is "some darkness," to lapse into the vernacular. And yet there are some readers of The Herald, no doubt, who are going it almost as blindly.

They read the news of the day, the favorite special features, and all the other good things that go to make up the editorial end of this newspaper, and then they drop the newspaper, neglecting matters of lasting benefit—the advertisements.

Not to keep oneself informed daily of the offerings of The Herald's advertisers is, in a manner of speaking, living in a darkness akin to that described above.

A few minutes each day in thoughtful consideration of advertising is not only interesting, but educating.

A man who never read a newspaper advertisement would have a hard time picking out the best places in town to do his shopping, wouldn't he?

It pays to shop in The Herald before you shop in the stores; 91 per cent of the circulation of this paper goes direct into the homes. Buy from Mutual Girl Page Advertisers.

## MANUAL TRAINING MIGHT BE ADDED

COUNTY BOARD AUTHORIZES THE ESTABLISHMENT OF THIS COURSE IN HIGH SCHOOL IF IT IS FOUND BEST

In addition to teaching stenotypy, commercial arithmetic, shorthand, typewriting, bookkeeping, etc., the scope of the night school courses at the Klamath County High School may be enlarged by the addition of a course in manual training. The county high school board Thursday authorized the inauguration of such a course if there is sufficient demand for it.

Principal W. E. Faught of the high school is anxious to begin such a course, providing sufficient interested persons are ready to take up the work. Those contemplating such a course, therefore, are asked to confer with Mr. Faught as soon as possible as to the course they want, etc., and make it possible for the work to be started as soon as possible.

Two-hour sessions of the night school are held three times a week.

## BIRDS STAMPEDE AND KILL WOMAN

REIGN OF TERROR IN ARIZONA FOLLOWING THE TERRORIZING OF A BAND OF THREE HUNDRED OSTRICHES

PHOENIX, Nov. 13.—Three hundred full grown ostriches stampeded along a country road this morning, and swarming over a carriage driven by Mrs. L. D. Rosseau, they instantly killed her and her two horses.

The news of this spread panic among all the ranchers and their families.

Scores of cowboys were sent from all of the ranches, and are engaged in rounding up the huge birds.

## CARRANZA'S MAN HOPEFUL FOR A PEACEFUL END

CARRANZA WANTS VILLA TO BE EXILED

This Is the Latest Proposal Sent to the Convention by the Present President, and Advices From the Peace Delegates Indicate That They Will Not Grant This—Bryan Looks for No Outbreak.

WASHINGTON, D. C., Nov. 13.—Secretary Bryan today called upon President Wilson, and informed him that alarm over the present Mexican situation is needless. Bryan says he feels that the factions are earnestly working out a solution of the problem.

EL PASO, Tex., Nov. 13.—Flying ahead of General Villa's troops, who are marching for Queretaro, Provisional President Gutierrez went to Lagos from Aguas Calientes today, and conferred with General Pablo Gonzalez, Carranza's military chief. The latter embraced the convention's cause, so there is still hope of averting hostilities. The latest proposal sent to the convention by Carranza is that he is willing to resign if Villa be forced to leave the country. The delegates have sent a reply rejecting this.

## SOCIAL HYGIENE TALK

### Conference on Important Subject Tuesday Night

Klamath Falls is at last to receive the benefits of the Oregon Social Hygiene Society. Earl J. Cummins, a representative of the organization, is here from Portland, and he has arranged for the holding of a meeting at the opera house Tuesday night.

At that meeting J. E. Snyder of Portland, a member of the executive committee of the society, will discuss with the men of Klamath Falls matters of vital importance along the lines of the society's work. Local men will also speak on these subjects.

The Oregon Social Hygiene Society has for its mission the replacing of misinformation and misconception with correct, clean knowledge regarding the facts of life, sex disease and a multitude of similar evils. This is being accomplished through this campaign of education, carried on in all parts of the state.

The importance in which the work of the society is held in the state is shown by the fact that at the last session of the legislature, an appropriate

## WORST FIGHTING NOW TOWARD SEA FROM DIX MUDE

ALLIES SAY FORCE OF ATTACK IS SPENT

Several Close Range Engagements Are Being Fought, the Infantry of Both Armies Being Active Under the Cover Afforded by the Artillery. Allies Line Holds Despite Strong Pressure Along Front.

LONDON, Nov. 13.—Indications are that the German attempt to reach the North Sea coast has reached the climax. The allies, advancing along the coast from Nieuport toward Lombardy, continue the offensive tactics.

Refugees just arriving from Rotterdam say they saw the allies entering Ostend, but this is not confirmed.

Some reports are that the German casualties in the north are 90,000.

## German Warships at Valparaiso Now

PARIS, Nov. 13.—The force of the German assault in an attempt to break through the allies lines and reach Dunkirk and Calais is apparently spent. Today's communique says that the violence of the fighting from the coast toward the River Lys, through Dix Mude and Ypres is diminishing.

Attempts of the Germans to cross the Yser last night and today were frustrated. The allies are still holding, and the positions about Ypres are not changed.

There is much desperate fighting at close quarters. Infantry attacks under the cover of artillery fire marks the fighting from the coast to Ypres. Despite the pressure being brought against them, the allies hold their line in the form of an obtuse angle, the points resting at Nieuport and Ypres and the Apex at Dix Mude.

## VALPARISO, Nov. 13.—Two German warships, the Lepsic and the Dresden, entered the harbor today to secure supplies. There are numerous reports as to the location of the Japanese fleet, which is seeking those vessels.
