

FACTIONS WILL END DIFFERENCE WITHOUT FIGHT

UNITED STATES READY TO HELP IN THE WORK

Wires From Consul General Silliman Say That the Conditions Imposed by Carranza in Case He Resigns Are to Be Met by Gutierrez—United States Not to Ask Intensity for Occupation of Vera Cruz.

United Press Service WASHINGTON, D. C., Nov. 17.—Consul General John R. Silliman has wired the state department that Carranza has agreed to eliminate himself from the Mexican presidency under certain conditions. General Gutierrez, elected provisional president by the Aguas Calientes convention, has agreed to accept these conditions. The dispatch is based upon information Silliman gleaned from Mexican newspapers. The conditions are not stated.

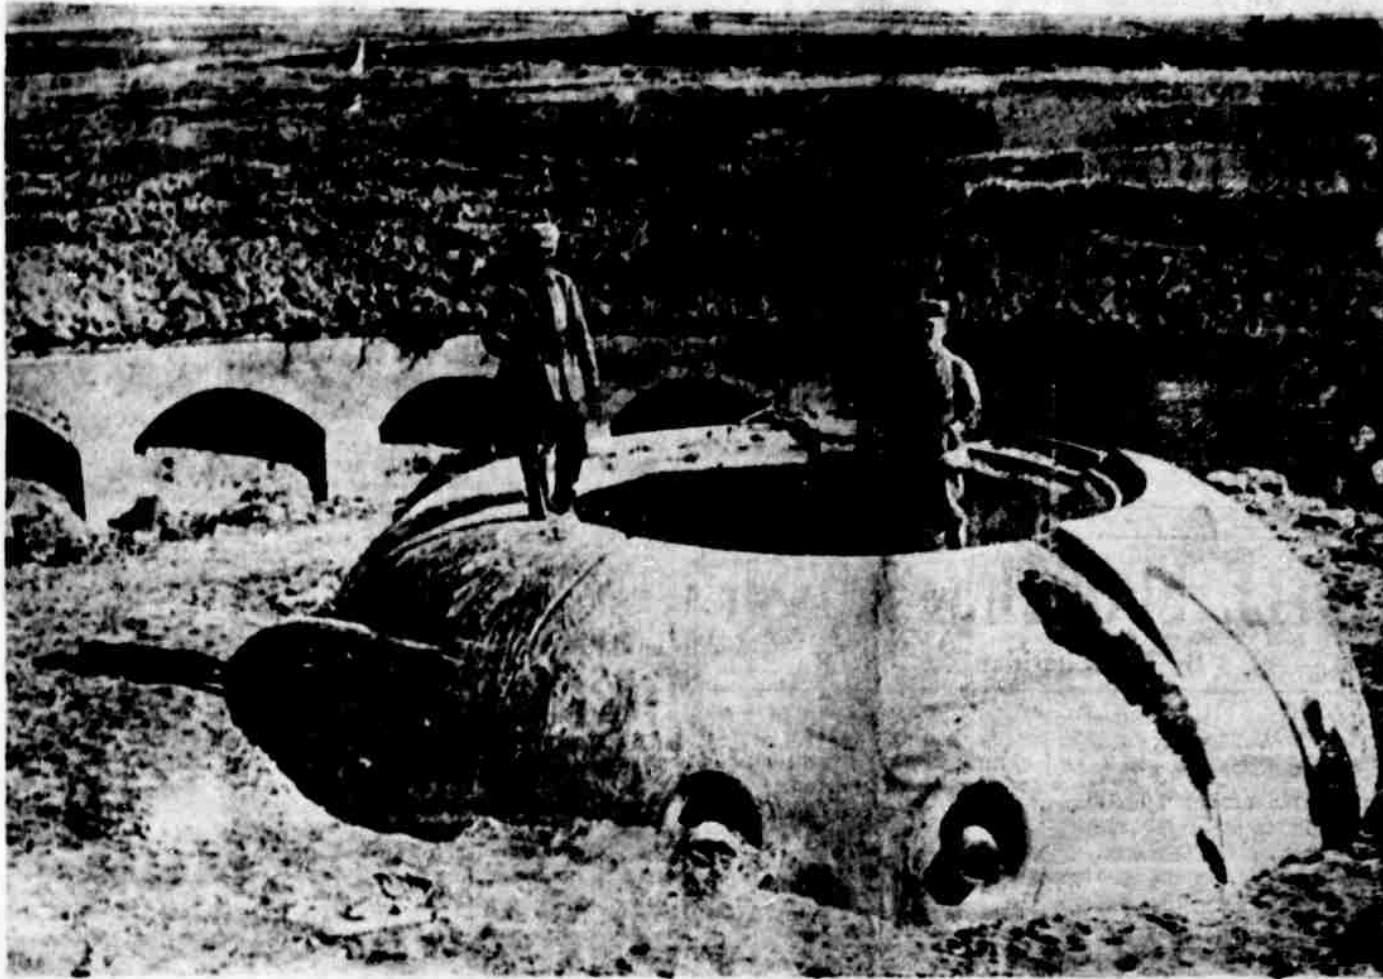

Satisfied that peace in the turbulent country to the south of us is very near, the administration is now considering the best means of aiding the republic in the restoration of proper conditions.

Reports that Carranza is inclined to hedge on his promise to be quiet are discarded. It is expected that Carranza will within a fortnight leave for Savannah for a lengthy stay.

It is not believed that the United States will ask Mexico to pay an indemnity for the expenses of the American occupation of Vera Cruz.

Two French scientists claim that a raw food diet increases the white blood corpuscles, which play an important part in the fight against disease bacteria.

Longwy Fort Smashed by 16-Inch German Gun

The rent in this thick steel enclosure at the great French fortifications at Longwy, near the German border, shows the enormous power of the German 16-inch gun. The fort was taken by the army under Crown

Prince Frederick, and was the second of the great French fortresses to succumb to the new German gun. After the Germans had taken Liege and Namur with the aid of this gun they moved on to Maubeuge, and that city

did not last long. The photograph here shown is the first ever taken of the interior of Longwy. The French have guarded their great frontier fortresses so carefully that no one except the war

authorities knew what they looked like. One shell, however, from the great German gun, properly placed, cracked the steel enclosure so it was impossible for the French gunners concealed within to hold their place.

FIGHTING IS MORE ACTIVE NEAR THE AISNE; NO GAINS

Flooded Conditions in the North Stop Progress There—Russians Claim a Big Victory

United Press Service PARIS, Nov. 17.—The German attack upon Rheims was resumed today. Shells are constantly falling in the town, and many buildings are being destroyed.

Any extended movement of troops or guns in Flanders are impossible. In many places the British and French troops are standing in water knee deep, holding their positions in the face of a terrible fire from the German artillery.

The action of the heavy artillery is more pronounced in Flanders. Despite repeated repulses, the Germans continue their attacks near Ypres and south of Hixchoote.

Fighting at Nieuport, through Dix Made toward Ypres yesterday was almost entirely confined to cannonading.

The German and allied troops on the Aisne and in the Argonne region are more active.

Germans attempted to cross the Aisne near Valley. French mines blew up trenches and prevented this.

United Press Service PETROGRAD, Nov. 17.—Details of the Gdovsk fighting, just received, indicate that the Russians completely surprised the German forces.

After eight days of fighting about Bocalnovo, the Russian troops reached a point two miles from Gdovsk before the Germans learned of it, and a flank attack by dragons and light artillery carried the hill, which was theoretically considered an impregnable position.

Violent assaults are being made against Cracow defenses by the Russians. The Russian force advancing from the east has reached Tarnow, and is moving rapidly.

A portion of Cracow is burning. The inhabitants are fleeing in a panic.

United Press Service LONDON, Nov. 17.—Official advices from Christiansa are that the German cruiser Berlin was interned today at Thron. The commander reported submarines off the Lofoden Islands.

It is believed the vessel conveyed a flotilla of submarines, planning to raid the British warships in those waters.

The Daily Mail's Dunkirk correspondent estimates the German losses in the last four days of fighting in Flanders at 100,000. Fighting continues, despite the blizzard.

Premier Asquith today announced the entire North Sea is now a military area. This means that vessels entering do so at their own risk, regarding mines, and are subject to the orders of the admiralty.

United Press Service CONSTANTINOPLE, Nov. 17.—Officials say the Turks attacked and defeated British Indian troops at Fao on the Persian coast. The Hindoo losses were 1,000.

United Press Service LONDON, Nov. 17.—An official statement says the Austrians made a sweeping defeat of the Serbians at Kulinbara. Six thousand prisoners and much artillery equipment were captured.

United Press Service BERLIN, Nov. 17.—It is officially denied that Germany refused American aid to Belgium. Instead, Germany is pleased by the offers of assistance.

BLOWER IS BACK FROM BIG SHOW

SECRETARY OF CHAMBER OF COMMERCE SPEAKS HIGHLY OF TREATMENT ACCORDED THE KLAMATHITES

With a gold medal and cash prize for the best varied products display, special awards for the best onions, and cheese, and high mention on the quality of potatoes entered, Secretary George C. Blower of the Klamath Chamber of Commerce came in last night from attendance at the Portland Manufacturers and Land Products Show. In addition to his attractive booth and the capturing of the prizes, Blower incidentally boosted Klamath further by several reams of booster interviews in the Portland papers.

The onions were from the Nischelm tract in Mills addition, and the cheese from Loosley & Sons at Fort Klamath. These and the other products did much to disprove the stories circulated of killing frosts, etc., here.

Mr. Blower is loud in his praise of the treatment accorded him by C. C. Chapman of the Oregon Development League and Portland Commercial Club, and of all of the land show officials, who extended every possible courtesy to Blower and to County Agriculturist Glaisyer, who was also at the land show.

Couple Are Wedded.

Justice of the Peace E. W. Gowen last night performed the ceremony making Miss Inez Combs Mrs. John L. Porter. The groom is a well known Lost River rancher, and the bride is the daughter of Mr. and Mrs. Pierce Combs, old Klamath county residents.

Camp Meets Tonight.

Ewanna Encampment No. 46, I. O. O. F. meets tonight in regular session in Odd Fellows Temple. Visiting Patriarchs cordially invited.

Home This Evening.

Mrs. Louis H. Bath is expected this evening from a visit with relatives in Salinas, Calif.

A new bridge across Thorn Hollow, Umatilla county, is to cost \$16,000.

RESERVE BANKS UP TO SCRATCH

SECRETARY McADOO CLASSES THE FIRST DAY OF OPERATION AS "WONDERFUL"—MORE EFFICIENT THAN EXPECTED

United Press Service WASHINGTON, D. C., Nov. 17.—Secretary of the Treasury McAdoo said that the first day's operations of the Federal Reserve banks was wonderful. He said that it would require at least a week to determine what necessary changes in routine would be made. He also said that the indications were that the system would be far more efficient than anticipated.

WHEN A MAN'S MARRIED

When a man's married a great many things may happen to him, but one of the best things that can fall to his lot is to have a home wherein The Herald is the family newspaper—the guide, philosopher and friend of the household. The Herald will be all of that if given the opportunity. Through its advertising columns it will put pure food and drink on his table; it will place upon his back, a well-shaped hat upon his head, good shoes upon his feet; it will tell him how to furnish and paint it; it tells him how to save money; it points the way in a hundred lines of every-day activity; and if he will let it, it will be the best all round friend he has, next to his wife. The best way to be friends with The Herald and its advertising columns is to take it home every day and accept the help it offers you. It pays to shop in The Herald before you shop in the stores; 91 per cent of the circulation of this paper goes direct into the homes.

NEW ASSESSMENT ON THIRD STREET

INSTEAD OF SIXTY-FIVE PER CENT, ABUTTING PROPERTY IS CHARGED FOR FIFTY PER CENT OF IMPROVEMENT

The new proportion of levying the assessments for the cost of Third street improvement was brought up in last night's meeting of the council. December 7th is the date set for objections to be heard.

Under this assessment the abutting property is assessed 50 per cent. In the former assessment, which was objected to, this was 65 per cent.

The second lot back is assessed 14 per cent, the third at 8 per cent, and the fourth and fifth lots and all the second block lots are each assessed 4 per cent of the cost.

COLLISION HURTS HORSE AND AUTO

ANIMAL FRACTURES A LEG, AND CAR IS BADLY TORN UP BY THE TONGUE OF THE WAGON. CHAUFFEUR IS UNHURT

The automobile of W. J. Jones, who has leased the Ankeny ranch, is minus a windshield and front seat, with the back seat and gasoline tank torn open, and is otherwise permanently disabled; a big draft horse belonging to the O. K. Transfer company is dead after suffering a fractured leg. Both injuries came as the result of a collision on Sixth street last night.

The team, which was driven by Charles Talbot, was stopped near Sixth and Main streets, while the driver was in a store. During his absence the team started to run away, and collided with Mr. Jones' auto, which was coming up Sixth street.

Mr. Jones, strange to say, was not injured, although the tongue of the wagon missed him a very little bit.

Big Meeting Tonight

Klamath Falls Men Much Interested in Campaign

Rarely have the men of Klamath Falls been as interested in a coming event as they are in tonight's meeting at the opera house, when the work of lining up Klamath Falls for the campaign of education being carried on by the Oregon Social Hygiene Society will be outlined. Realizing the peril to the future generations from the widespread ignorance regarding sex matters and the ravages of disease largely brought about by this ignorance, they are ready to assist in every way the spreading of the Gospel of Truth, and a big attendance is anticipated.

An invitation is extended to every man in the city to attend this meeting. Social and moral hygiene will be the topics discussed, and J. B. Mason will act as chairman. The program arranged follows:

- "The Prevalency and General Seriousness of Venereal Disease and Their Effect Upon the Individual and the Home"..... Dr. E. D. Johnson
 - "Present Conditions Among Girls and Boys"..... M. D. Coats
 - "The Four Sex Lies and Other Causes, Remedies"..... J. E. Snyder
 - "What Can We Do for Klamath Falls?"..... W. A. Deisell
- J. E. Snyder is a member of the executive board of the Oregon Social Hygiene Society.
- This is a meeting which is worthy of the support of every citizen, because the topic is of such universal and deep human interest that no local divisions will prevent the community's "getting together" on the thing.
- In proportion to population, conditions are as bad in our rural districts as in the towns and cities, according to local physicians.
- In connection with the work of the society here, an exhibit showing the work being done through the state of Oregon is installed in the vacant room between the stores of the J. F. Maguire company and K. Sugarman. This is a practical educational institution, and presents pertinent facts under the captions, "The Enemy" and "Aids to the Enemy," to show the dire results of venereal diseases upon the victim and upon posterity.
- The "men's specialists" and other queer doctors and remedies are fully exposed, with personal experiences of many of their victims, who, though perfectly healthy, were led to believe they were diseased, and were "bled" for exorbitant fees. Earl J. Cummings, in charge of the exhibit, adds to the interest by explaining the conditions the society has discovered and helped eradicate.
- Besides this, the work of the society is explained in a number of exhibits, with photographs of meetings held in other places, lists of pamphlets for boys, girls, men and women, and other aids to cleaner life and healthier offspring. The exhibit will remain open all afternoon and evening, and all are invited to attend.

School Levy 2 Mills

Tax Is Due to Cost of Free Text Books and Music

A two mill levy for school purposes was decided upon by the board of directors of School District No. 1. Last year no levy was made for the maintenance of the local schools. Members of the board of directors say that were it not for extra expenses it would not be necessary to levy the tax this year. The money is needed, though, to pay for the free text books recently voted by the taxpayers of the district. Another item of expense added to the course in music, which the taxpayers recently petitioned the board of directors to re-establish. This is to be started again about December 1. The regular school election will be held November 27th, at the Central school. At that time, a member of the board of directors will be chosen.
