## ARTILLERYMEN IN FLANDERS ACTIVE ALL ALONG FRONT

United Press Service

PARIS, Nov. 21 .- Intermittent cannonading is in progress from Dix Munde to Ypres, and it is reported that the allies' gunners gained an adrantage over that of the Germans near Nicoport.

The ferocious German infantry attacks were made at Hollenbecke. The advantage gained by the allies artillery prevented the construc-

tion of new tremches for the German infantry. The big guns are also booming along the Aisne and in the Champagne

Indications are that the Germans mean to drive the allies from their

proches in Flamlers. Numerous big barges and quantities of crude oil have been received by the kaiser's men. It is believed that they plan to fill the barges with oil. set them on fire, and launch them in the Yser canal and in the inundated sections between Dix Music and the coast.

Practically all of the fighting is artillery dueling.

There are indications of renewed activity by the British forces at

## **RUSSIAN CAMPAIGN** PROMISES TO BE A **VERY BITTER FIGHT**

PETROGRAD, Nov. 21 .- The special official organ for general staff statements says:

"The German attempt to march to Warnay by breaking our front between Kielce and Radom has totally failed. The Germans lost heavily, and

The Austro-German forces operating between Czenstochow and Cracow met a similar defeat. Fierce actions are in progress in the Cracow district, proving that the Germans realize this is a strong district, and with its powerful forts is their last rampart on this front."

The battlefield between the Vistrin and Warthe in Poland is blood sooked. The war office says the German offensive there is checked.

Both armies lost heavily. Russians trapped and annihilated Ger cavalry by mining the banks of the Bruters River and withdrawing. The Germans rushed for the crossing, and the mines were detonated under th with appalling loss.

BERLIN, Nov. 21-"No decisive point has yet been reached in the fighting in Poland," says the official statement. "In order to assure complete clearance of Russians from German territory, a line of co tion has been established which will enable the Germans to hold who Russian territory they gain, even Warsaw."

### Storm Causes the Blockade Lifting

United Press Service

ANCONA, Nov. 21 .- A terrible storm sweeping the Adriatic has caused the allied fleet to lift the blockade of Austrian ports. The warships were compelled to steam out to sea avoid being driven ashore.
