BETTER METHODS

TWO words may be used to sum up all the needs of small communities: "Better methods."
Better business methods for merchants, better agricultural methods for the farmers, better teaching for the schools, better preaching in the churches.
Rural communities do not often lack these betterments than do urban communities; but as the tide of trade and population has set away from the rural communities they are bound to increase their attractiveness in every possible way in order to recover and retain their population, wealth and power and prestige.
Just as the needs of each community touch the interests and activities of all classes citizens, so all classes must unite and co-operate in taking the steps that are essential to the community's rejuvenation and preservation.

The job is too big for the merchants or for any other single class of citizens to undertake to perform. Moreover, when any one class carries on development work it is likely to become narrowed until the rest of the community acquire the notion that their interests are being disregarded, if not deliberately opposed.
In fact, publicity of the kind that can be given only by participation is indispensable to success in community development. At the first sign of secrecy in the conduct of a development club those not participating in its work become suspicious, and any considerable suspicion is fatal to community co-operation.

Perhaps the allaying of suspicion should have been included among the primary needs of a community. At any rate it is so important that development work cannot be carried on successfully where it exists.

THERE IS SOME talk of a revival of "Helen Pink" this year. To the casual observer, some of the women wearing it do look like Helen pink.
BY THE WAY, how about a resolve to citty the town by numbering your house?
IF YOU ARE interested in practical charity, you might line up to help out the Philanthropic department of the Library Club. For practical genuine relief work, the efforts of these women are to be highly lauded.

LIVESTOCK IS IN GOOD DEMAND

CATTLE, SHEEP AND HOGS ALL ARRIVE IN SMALL LOTS, KEEPING THE PRICES UP TO A PRETTY GOOD MARK

(Herald Special Service)
PORTLAND, Dec. 28.—The cattle market opened last week very active. A good quality of offerings was in evidence, choice steers going as high as \$7.75, cows touched the \$6.60 level.
Since Monday the run has been below normal, with good demand.
A very keen hog market started on Monday, with a run of nearly 6,000, tops bringing \$7.50.
This market has maintained its supremacy in price over all other American markets for some time.
With the exception of Monday's run the sheep receipts continued light. The market on all classes of sheep is good and killers took all offerings readily.
Shipping to the market could be materially increased without any decline in price.

THINK FRICTION STARTED BLAZE

BONANZA FLOUR MILL COMPLETELY DESTROYED SATURDAY EVENING—OWNERS RECENTLY REFUSED TO SELL

(Herald Special Service)
BONANZA, Dec. 28.—Just after dark Saturday evening, a fire broke out in the Kilgore flour mill. The mill had not been in use for about a month until Saturday, when it was used all day. It is thought that the fire started from friction in unrolled machinery in the top of the building.
The fire was well under way before it was discovered. In a short time the building was entirely burned.
The flour had practically all been disposed of, but it is thought that a few of the hogs which were being fattened there were burned.
The mill was owned by Warren and Merrill Kilgore. It was valued at about \$14,000, while insurance was about \$5,000. This fire will not only be a great loss to the owners, but to the town as well.
Just a few weeks ago the Kilgores were approached by J. J. Morton of

Ashland, who sought to buy the mill and remove it. They refused this offer.

A LITTLE SPORTING GOSSIP

By Hal Sheridan

United Press Service
NEW YORK, Dec. 28.—The twenty one player limit by the National League at its recent meeting here will cut off many a promising youngster from his chances with a big team. Practically every team in the league has already signed from thirty to fifty players. The number must be cut to twenty-one by May 1, 1915. Many of the youngsters whom managers would like to retain during the season will get the axe before they have an opportunity of showing their worth.

The Central Association and the Three-I League are still furnishing the player market with "comers." W. L. Flannigan, who pitched for the Muscatine team last year in the Central Association, has been signed by the Giants. His six feet odd in-

ches of height and a lightning-like delivery are said to be his features. McGraw also signed up Eddie Hollaway from the Springfield team of the Three-I League. Last year Hollaway made good as a fast man and a hard hitter.

Around the lobbies of the Waldorf and the Imperial during the meetings of the National and International Leagues here were seen many of the veteran big leaguers, released after many years of baseball service, Mike Donlin and Wilton of the Giants were hand-picking their prospects for the coming season. Both were gingerly fingering their unconditional releases. Germany Shaffer, the comedian of the Washington Club, will be missed next year. Many a laugh burst from the fans when Germany was indulging in his favorite "horse-play."

LADIES! DARKEN YOUR GRAY HAIR

USE GRANDMA'S SAGE TEA AND SULPHUR RECIPE AND NOBODY WILL KNOW

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmothers' time. She used it to keep her hair beautifully dark, glossy and abundant. Whenever her hair fell out or took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.
But brewing at home is messy and out of date. Nowadays, by asking at any drug store for a 50 cent bottle of "Wyeth's Sage and Sulphur Hair Remedy," you will get this famous old recipe, which can be depended upon to restore natural color and beauty to the hair, and is splendid for dandruff, dry, feverish, itchy scalp and falling hair.

It says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it, and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark, glossy, soft and abundant.
