

Proposed Measure Hits the Advertising Boards

PORTLAND, Jan. 8.—At the suggestion of Roadmaster John B. Yeon, a bill to prohibit advertising display within the limits of a state highway has been drawn by Attorney E. E. Covert, for presentation to the coming Legislature.

Laws designed to preserve the beauty of highways by preventing as far as possible the placing of advertising signs on buildings, trees and stones along the highways are now in effect in Connecticut, Massachusetts, New York and Pennsylvania.

The measure prepared by Mr. Covert embodies the chief features of the Massachusetts and Pennsylvania laws. It provides that on all state highways now established and to be established, "it shall be unlawful for any person, firm or corporation to paste, brand, or in any manner whatsoever place or attach to any build-

ing, fence, gate, bridge, tree or rock within the limits of any state highway, or on the property of another within view of such highway without the owner's consent, any written, printed, painted or other advertisement, bill, notice, sign, picture, card or poster, except within the limits of any city, town or village through which said highway may run.

"Provided, that nothing herein shall be construed as to prevent the posting or maintaining of any notice required by law to be posted or maintained, or highway signs giving directions or distances for the information of the traveling public, and approved by the state highway commission.

"Any person, firm or corporation violating any of the provisions of this act shall be punished by a fine of not less than \$10 or more than \$100, or by imprisonment of not less than 10 days, nor more than one month."

and the decision of the Judicial Department of the service that under the charter of the city, as it now stands, the Council has not authority to bind the city to a contract of the kind proposed. Hence the resolution of the Council several months ago for an amendment to the charter to be submitted to popular vote for adoption or rejection.

"If there is no special election, it will have to go on the ballot in May. Even if adopted then, the Council may, if the project because of expense or other reasons so forcibly presented in the Mayor's communication, decline to authorize the contract contemplated.

"I think you should impress on the public mind that there is no intention on the part of any of the city's officials to cease effort looking toward an early statement of the ditch nuisance."

DRINK HOT TEA FOR A BAD COLD

Get a small package of Hamburg Brew Tea, or as the German folks call it, "Hamburger Brew Tea," at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teacup full at any time during the day or before retiring. It is the most effective way to break a cold and cure grip, as it opens the pores of the skin, relieving congestion. Also loosens the bowels, thus driving a cold from the system.

Try it the next time you suffer from a cold or the grip. It is inexpensive and entirely vegetable, therefore safe and harmless.

RUB BACKACHE AND LUMBAGO RIGHT OUT

Rub Pain and Stiffness away with a small bottle of old honest St. Jacobs Oil

Get a 25 cent bottle of old, honest "St. Jacobs Oil" at any drug store, pour a little in your hand and rub it right into the pain or ache, and by the time you count fifty, the soreness and lameness is gone.

Don't stay crippled! This soothing, penetrating oil needs to be used only once. It takes the ache and pain right out of your back and ends the misery. It is magical, yet absolutely harmless and doesn't burn the skin.

Nothing else stops lumbago, sciatica and lame back misery so promptly!

Uncle Sam Offers All Americans a Chance to Feed Starving Belgium

Arrangements Made For Sending Parcel Post Packages From Rural Districts. How to Aid the Stricken Little Sister of the World

By WILL IRWIN

HOMELESS BELGIAN WOMEN ON THE WAY TO THE BREAD LINE.

FOR the first time in its history the postoffice department has been enlisted in a charitable undertaking. From this time forth any American who wishes to give food to the starving people of Belgium has only to stamp his parcel in the regular way and send it through the parcel post.

It will go as straight and fast as rail and water will carry it to the doors of the starving Belgians, and the money he has paid for stamps will be refunded to the donor by the American Commission For Relief In Belgium, the executive offices of which are at 71 Broadway, New York city.

Seven million people, mostly women, children and old men, are still shut up in Belgium. Industry stopped when the Germans came; the money gave out through the payment of fines and indemnities; the crops were mainly ruined. With the coasts cut off, Belgium, which imports three-quarters of her food supply in normal times, could import no more. Work is gone; money is gone; most important of all, food is gone. The German conquerors, who need all their own supplies to guard against the proposed "siege of Germany" by the allies, cannot and will not feed them. The allies, fearing that the Germans will seize any food coming from a hostile source, cannot or will not feed them. America must feed them or they will starve. There is no other way. Seven million people, until last year the most industrious, peaceable and prosperous nation in Europe, will go to their graves this winter unless America gives as never before.

While Belgium needs everything, she needs most of all just food—non-perishable food which will stand the test of ocean transportation, such as flour of any kind, beans, and preserved meats. The donor has only to put up his gift in packages of not less than twenty-five pounds nor more than fifty pounds, stamp it in the usual way and mail it at the nearest postoffice. If the donor adds his own name and address, TOGETHER WITH THE LETTER "R," the money he has paid for stamps will be refunded to him by the commission.

Packages mailed from OREGON should be addressed to MUNICIPAL BOOK INC., PORTLAND, who are collecting agents for this district.

WILLIAMS PLEADS GUILTY TO MURDER

(Continued from page 1)

pursued by McLeod. Williams says they grappled for the shotgun, and McLeod, trying to kill him, shot through the side of the barn.

Williams says he then hit McLeod with the axe and felled him. He says he shot when McLeod levelled the shotgun at him, Williams shouting first.

After that, Williams says he remained in the house until noon the next day. After that he said he came to town to his family, and returned to the McLeod place August 25, when he buried the body. Williams said that any bloodstains found in the house were from his own wounds.

Renner sharply arraigned the methods used for obtaining confessions from Williams. He said that it was reported to him that when Williams signed a statement, he was doped, and that his remark before that were made after matters had been misrepresented to him.

The treatment of Williams by Low was also criticized. He said that the prisoner, from the time he had his photograph taken, showing wounds on his body, was shut off from the rest of the jail inmates and given anything but proper treatment.

A certificate from the superintendent of the insane asylum at Provo, Utah, introduced by Renner, stated that Williams mother has been in the asylum for 27 years, and is still there. Renner held that the opinion of alienists is that Williams has homicidal maniac tendencies, and that he thought it would be far better to send him to the penitentiary for the rest of his days, than to have him stand trial, be adjudged insane, and spend his life in a madhouse.

Following the statement by Renner, Irwin made the state's concluding statement to the court. In this, he endeavored to explode the insanity theory. Referring to the examinations made by Dr. Johnson and Cathey immediately after the crime.

Irwin also claimed that the wounds on Williams' body, examined several days after arrest, gave all evidence of being self-inflicted.

In introducing this statement, Ir-

and knew nothing more about McLeod.

While Williams was making this confession, the body of McLeod was found, carefully buried in a gully about sixty feet from the house. The murderer had even transplanted weeds and growing grain, and put it over the spot where his victim was buried.

A bullet from a .22-calibre rifle had pierced McLeod's brain. In addition, his face was horribly mutilated from blows of an axe.

Williams is about 36 years old and is uneducated. For several years he has led a varied existence here, part of the time being in the prize ring, and at other times working on ranches. Some time ago he was convicted of selling the meat of a bloated cow to a boarding house.

"As the Crow Flies," one of the most thrilling of the "Trey o' Hearts," is the stellar attraction at the Orpheus tonight. A dive from the rigging of a sailing vessel and rescue by a hydro aeroplane, is among the thrills provided by this installment.

Miss Higgins says:

"Mighty few women understand the real meaning of women's rights. Men can have a new fangled plow or a new office invention and anything that they think they need, but if his wife wants a new rocker or even a vacuum cleaner—and that is something she certainly ought to have—he will kick. The women should have vacuum cleaners, not only because it makes work easier, but because you should live in a clean house." See us.

King of Servia in Capital Again

King Peter of Servia, who was driven from his capital by the advance of the Austrian army, is again in Belgrade, where the government has resumed its functions. Now the Servians are confident the Austrians will never again cross the Danube with sufficient force to compel them to evacuate their capital as they did earlier in the war. The Austrians have almost been driven from Servian soil, and it is likely that King Peter will push the conflict into Bosnia, in an attempt to take the province which Austria grabbed five years ago.
